Old Boys Serving in His Majesty's Forces.

OWING to the death of Mr. Morgan there has been considerable difficulty in compiling notes for this article. There may be also several mistakes and omissions in the Roll of Honour (3rd list) published in this number. Next term Major Pulling has undertaken the duty of writing the war notes, and Old Boys and others are asked to send him any information they possess in connection with Old Boys who have volunteered.

In the Birthday List of Honours the name of J. Newmarch appears as having received the Military Cross. Hearty congratulation on the honour conferred on him. Extracts from one of his letters were published in the April *Torch-Bearer*, and others appear in his number.

Major J. H. A. Massie left in May as 2nd in command of the 35th Battalion, and Major Cooke-Russell as

second in command of the 36th Battalion. Mr. H. H. Dixon was in the 36th as Lieutenant. Captain J. Playfair left with the 7th Brigade, F.A., and with him went Lieut. T. Marsh, and a large number of Old Boys. Capt. G. R. C. Clarke, A.A.M.C., left with the 34th. Lieut. Owen Dibbs left in charge of the 3rd Reinforcements to the 45th Battalion.

E. T. Penfold has left the R.A. Engineers, and has been appointed A.D.C. to a general commanding a Heavy Artillery Corps in France. J. Newmarch has been appointed Staff Captain to General Christian.

C. Young has obtained a commission in the Royal Flying Corps. An article by him entitled, "Learning to Fly at Hendon," appeared in the *Sydney Morning Herald* on March 18.

Among those who have returned wounded are—Lieut. M. L. Clarke (on leave), A. A. Maclean (Graythwaite Convalescent Home), K. Phelps (discharged), L. H. Hilder, F. H. Penfold, D. Moffitt, P. Moffitt, R. C. Ross (discharged, but re-enlisted for home service).

Heartly congratulations to H. F. Kingsmill, R. J. A. Massie, A. S. Cooke Russell, and E. Twynam on obtaining their majority.

It is with extreme regret that we heard of the deaths of G. Gunning and C. J. Vyner. Both had been reported missing for some months, but news has now been received that

they were killed at the Dardanelles. The name of Corporal P. C. A. Fornachon also appeared among the list of the killed, but as his relatives have received a letter from him from Constantinople, and also none of the letters sent to him c/o the American Consul have been returned, we still hope he is a prisoner with the Turks, and that he was not killed at the landing on April 25.

As we go to press, we hear that 2nd Lieut. H. B. Shaw has been killed in action on May 19th. No particulars have been received.

Letters have been sent by the boys at School to all those serving at the front.

E. T. Penfold writes from France that he has left the battery and is now A.D.C. to a general commanding a Corps of Heavy Artillery. The work is awfully interesting, though much harder than in a battery. Work is very solid from 7 a.m. to 11.30 p.m., as it was a new line just taken over from the French. The work is, however, on a much bigger scale and far more interesting. E. M. Tyler is not far off in a Field Battery. N. L. Cooper often gets very close in a hospital train, and there are two Anzac Divisions back in the rear who should be soon up with them.

Re J. C. Vyner, whose death is now announced, Mr. L. N. Morstead writes:—

He had been missing since the landing in April. I was president of the board on the missing, and there was no evidence concerning him, and in my mind I haven't the least doubt of his having been killed. There was so much disorganisation at the landing, and our chaps went so far forward that a number of bodies were never recovered;

then again, owing to the very severe fighting and consequent heavy casualties, a large number of bodies were hurriedly burned and no records taken. Lieut. ——— was mistaken in saying that he saw him in June. I knew him very well, and I often used to have a chat with him. He was a splendid fellow and a very excellent soldier, always reliable, diligent, and cheerful. Had he survived the landing he would have been one of those who were given the first commission. He fought very gallantly and played well his part in his country's service.

Writing from St. John's Wood Barracks, H. V. Jacques says:—

I joined here as a gunner, about 200 others have done the same. On arrival four of us signed our papers, enlisting for the period of the war and the convenience of the country—signing a paper to say that we thoroughly understood that we were privates and nothing else (pay, 1/4 a day). We were spoken of as O.T.C. men, and are led to believe that if our work is satisfactory we may get commissions in three or four months' time. The following is a specimen of the day's work:—5.30. Reveille; 5.45, carry out by hand all the straw, etc., bedding, and other things from the horse stalls; 6, water horses, and then physical drill and running till 7; 7.15 to 8, breakfast; 8.45, parade (when every article of clothing must be spotless, boots polished, buttons shining, etc.), and squad drill for an hour; 10 to 11.15, gun drill with the 18 pounder, we men pulling the gun about instead of horses; 11.30 to 12.30, stables, groom the horses, water them, etc.; one is not allowed to stop grooming for a second, you must keep going till the trumpet goes for feed; 12.45, brush and polish boots, etc.; 1.45, parade—same as at 8.45; squad drill till 2.45; 3 to 4, signalling; 4.50, stables, same as 11.30, only half-an-hour longer; 5.45, tea; 6.30 to 8, lectures; 10.15, lights out.

This does not allow much spare time. We can go out at night from 8 to 12 and get to bed in the dark, but before doing this must get spurs and bandolier on, as without them no gunner can leave barracks. On Saturdays we can go off at 1.30, and on Sundays

at 1, after Church parade; but it takes at least an hour to get ready.

The other fellows, as far as I have seen them, are quite tip top, millionaires, sons of lords, and down to my mark, and from all quarters of the world. Some of the work is intensely interesting, *i.e.*, the gun work and the riding. It does not take long to get used to brushing horses' legs, but I personally prefer the front ones to the hind. One thing clear about the work here is that if we become officers we will be more efficient than if we had been commissioned without going through the ranks.

J. L. Digby writes from Belgium, 6/12/15, and says that he is back again in the salient after a week's leave in London. Winter had already set in and the trenches were in an awful state, most of them being full of frozen mud. Then, too, Fritz had brought back his 17 in. howitzer, and was throwing his scrap-iron into the town at irregular intervals, and shells were sent from guns of all calibres from three sides at once. He says they were to have gone back to rest-billets but were now in for another two months, and would be Christmassing in dug-outs. Its topping, he adds, how the School list grows. May it continue till we have bashed the Bosches and annihilated Abdul.

D'Arcy Osborne writes from Mutrah 19th February:—

He was delighted to get the December *Torch-Bearer*. The only Old Boy he had come across was Billy Wilkinson, for he had been sent straight from England against the Senoussi, and had had one or two goes at them. He was recalled to join his Division, which was to go to France in April. He had a commission in the Surrey (O.M.R.) Yeomanry.

J. B. St. Vincent Welch is now Lieut.-Col. commanding the 13th Field Ambulance, 4th Australian Division A.I.F. He says that Piero Fiaschi is with him as one of his two Majors and is doing excellent work. His brother, H. L., is a Major in the 4th Field Ambulance, also of the 4th Australian

Division, and they were all camped within 100 yards of each other out in the desert.

H. L. St. Vincent Welch, 25/2/16, from Egypt says he had gone down the Canal a couple of days ago to see his brother Basil, who was back from Palermo, where he had had a bad time with jaundice. With the exception of 14 days on a hospital ship in July with gastritis, H. L. had been with his unit from start to finish. He was particularly pleased to get a view of the interior of the Chapel, which building he had not seen, but hoped when he got back with the rest of the Old Boys to attend service and hear again that magnificent hymn, "Now thank we all our God."

From the London *Gazette* of 5th August, 1915, and January 28th of this year, we note that H. L. had been mentioned twice in despatches by Sir Ian Hamilton. Hearty congratulations to him and his brother on their successes.

The third brother, Leslie, is a Captain (A.A.M.C.) in the 2nd Australian Divisional Ammunition Company, A.I.F.

C. J. Tozer (c/o A.D.M.S., 1st Australian Division), writes 27/3/16:

At last I have had something official reported about me, at any rate I was sick this time. When I was reported dead I knew nothing of it till my return to Lemnos in December, when I met young Smith (brother to Donald Smith) who gazed at me open-mouthed and told me of my obituary notice. It is only when one is dead that everyone says the nice things. I wish I could give you some interesting information about the Old Boys, but the Australian troops are getting so numerous, and the units growing so rapidly, that one's friends become very scattered. I saw Tommy a'Beckett had received a commission, and Amphlett, who told me he was one of the first boys at the School. He has a com-

mission in the Dental Corps, a body which was not formed a day sooner than it was needed. Lehmaier I met at Tel-el-Kebir in the midst of a malarial attack. He is still cheerful and seems to be getting on well. Mr. Harris I saw there too—he looked very well and was delighted to have got out of his work of picketing in Cairo. Major Mackay returned during my absence in hospital; he is so highly esteemed in his battalion that his return would most surely be a welcome one to all. Young Frank Hall I saw in Cairo—just arrived with a commission. At present unattached he is wandering round Cairo, probably spending his money, and I can assure you it is a mighty easy thing to do. The two Welch brothers are both well. Both their promotions were well deserved and hardly earned. I fancy Guy Haydon, Mick Kater, and George Edwards have all got commissions, but I have not seen them personally. The M.O. at the next door Battalion is Eric Fisher, whom you may remember as Captain of the S.G.S. football. He and I have still great arguments on the merits of our Schools, and rake up long-forgotten incidents of the N.S. Oval. I never realised what the bond of a great public school's acquaintance could be until I have been away. Wherever we go there is always someone to fight old battles over with. Bill Heath is still the same cheery spirit as ever, while young Hugh Pulling has developed into a very fine lad and is highly thought of. I was always sorry that we did not have the Chapel in my days and make the prefects read the lesson, because it would have made a nice memory to have read the lessons there and later on to read them as I did at Paul's. It is absolutely a tonic to hear the old School is flourishing, although the *Australasian* only gave a meagre account of it. I hope to write more news from France.

J. H. Newmarch writes on 18/4/16, from the 5th Australian Division Artillery, H.Q., 5th Australian Division:

Your letter after a trip to London and back found me at last in the desert to-day. As you see by the heading there is now a 5th Australian Division, which fact must

astonish you people at home as we sometimes wonder if we will not wake up some morning to find that it is only a dream. We are here in reality though and over strength too, and very nearly ready to take our place alongside our parent division now in France. At the present time we are carrying out two jobs, "defending" Egypt and training. This sounds as if Egypt's fate is in the balance, but such is not the case, for although we are first-line troops here and in occupation of the trenches, there is another force the Turks have to contend with—the desert in summer which I think is sufficient guard for Egypt for months to come. One of our patrols raided a village on the 13th, and was able to approach within 100 yards under cover of a dust storm before being spotted. A hand to hand scrap ensued for a while—result, we lost one man killed, Turks, 10 killed, Austrian Engineer, Lieutenant, and 30 men captured. Though dropping from 1st to 5th Division, it is not really a loss in position. General Christian asked me to come with him as his Staff Captain, which I was only too pleased to accept, as my old wound will not allow me to do very much physical exercise, which one has to do in the Batteries. I was afraid that my chance of ever seeing active service again during the war would have been very small had I gone back to my old position. While at Tel-el-Kebir I looked Pulling up, he was looking very fit and well. Major Mackay came back from England in the same boat. These are the only two Old Boys I have seen.

K. N. Cuthbertson, who is attached to the 5th Brigade Australian Field Artillery, writes from France that he arrived at Marseilles from Alexandria after an uneventful passage, but that a sistership returning to Alexandria empty was torpedoed at a spot his transport had passed two hours before, "so we little

knew we had escaped a bath." I can never forget the welcome we received during our train journey, the French people welcomed us all along the line with cheers, old men, women and little children working in the fields, as soon as they heard the train, ran to the line and stood and waved to us; some ladies when they saw us broke down, it was all so wonderful, and yet in their sorrow they all seemed so brave and bright. I cannot tell you my feelings, I can only describe it as a most wonderful and touching sight, I thought that it was an honour and a privilege to be able to help them fight the common foe. At all stations we stopped at cakes and tea were distributed and souvenirs taken and given in exchange. Late each night when we pulled up at a station to water the horses there was always hot coffee waiting for us us, and we needed it for it was bitterly cold.

I have put on a stone and a half since leaving Sydney. I believe before many weeks we will go into the firing line. The camp we are now at is No. 1 Rest Camp and is on the coast overlooking the sea. We only remain here for about 48 hours, and then another train journey to——, which, I believe, is to take us another two days; we will then be near the firing line. We are all very anxious to be up and at it now, and overjoyed to think we are going to have a go at the Germans, and speaking for myself I will fight like a demon as I will always have the French kindness in mind. Tell any of the young fellows that they will never regret enlisting, and if they come to France there is a great welcome awaiting them. It is up to every man to come and give us a hand if we are to finish this business before another winter; married men too, they should all come. Any young fellow who still hangs back, perhaps because he is afraid to take the step, will have a lot to be sorry for after the war is over.

School Notes.

WE congratulate S.J.C. on their fine performance in the G.P.S. Regatta.

Boating colours were awarded to Hardy (Captain), Rothe, Jeremy, Wilson, Forbes, Holcombe, Lloyd,

King iii, Mayers; School blazers to Ralston, Williams, King i, Pyatt, Perry ii, Eedy, Morgan i, Smith, Ryland, and Hunt.

This term ends on June the 22nd, and Term III. begins on July 18th.

The Subject for the Admiral's Prize will be—

Senior: *Story of the Armada* (John Richard Hall).

Junior: *Scott's Talisman*.

Examinations for the Uther Catechism will be held in the middle of next term.

Mr. G. V. Moore, B.A., Cambridge of "Greenvale," Willawa, Victoria, has been doing temporary duty at the School for the last few weeks.

The Annual Confirmation will take place in the Chapel on November 22. Names of candidates should be given in as soon as possible. Classes will start early next term.

Mr. Linton has been missed very much from the School this term. He has been suffering from a nervous breakdown, and we trust that before long he will be back among us.

On several Saturdays and one public holiday during the term, large numbers of boys have been to French's Forest; but we are compelled to hold over a full account of their doings until next issue.

On Friday, May 12th, a stirring address was delivered by Dean Talbot, who was present at the famous landing on April 25th. He was on the Peninsula during most of the fighting, and was able to tell of several narrow escapes he had had.

Towards the end of last term a valuable oil painting was presented to the School by Mrs. Bartholomew, of Bradley's Head Road, Mosman. The picture, which hangs in the School Hall, was unveiled by Judge Backhouse who, on behalf of the School, thanked Mrs. Bartholomew for her very generous gift. The picture is that of a battle-scarred soldier grasping his gun and resolutely awaiting the attacking foe.

Four boys from the School, Eden, Dixon i, Dixon ii, and Ranken, volunteered for work at the Easter Camp at French's Forest, where a movement is afoot to clear land and erect homes for returned soldiers. The School would have been better represented had not the camp been postponed at the last moment from Good Friday till Easter Monday.

The following boys have entered the School this term:—R. F. Baker, B. W. Baker, C. L. Barsby, W. B. Eilbeck, H. M. Hardy, C. V. M. Hayne, A. C. Jones, C. M. G. King, G. W. Kloster, D. K. Macdonald, H. R. H. Morphy, G. C. H. Newell, C. R. Preston, J. F. Pyatt, J. Sedgwick, R. E. Smith, H. B. Trist, T. A. Tubb, P. A. S. Warburton, S. L.

Ward, D. G. Wilshire, A. Wilson, M. Willson.

The following boys have left:—W. C. R. Beer, C. W. Bennett, G. M. Broué, H. J. Charters, G. H. Cobb (2nd XI. 1915, Cricket Colours 1916), J. M. Cobb (2nd XI. 1915, 1st XI. 1916), J. Cole, W. R. M. Edwards, H. H. Florance, R. Granowski, R. M. Houston, E. A. Kidman, F. L. Manning, C. Retallack, R. H. Smith, E. F. Trist, L. M. Wasley, H. E. White (2nd XI. 1916).

G.P.S. ATHLETIC SPORTS MEETING.

The Sub-Committee have made the following report, which will be submitted to the Committee before the end

of term:—

1. One Competition.
 2. One Competitor only to represent a school in each event.
 3. No Team Races.
 4. In the event of over seven competitors in the 100 yds., 220 yds., and Hurdles, heats will be run. The first three in each heat to start in final.
 5. Five places will be taken in each event. The points will be, 8, 5, 3, 2, 1.
 6. *Open Events* to be: 100 yds., 220 yds., 440 yds., 880 yds., Mile, Hurdles, Weight, High Jump, Broad Jump.
- Under 16:* 100 yds., 220 yds., Hurdles, High Jump, Broad Jump.
- Under 14:* 100 yds., 220 yds., High Jump.

Mr. Morgan.

IT was with very sincere regret that the School learned on the morning of 18th May of the death of Mr. Morgan, which occurred the previous night at Killara. His illness was a very brief one, as he was at work as usual on the preceding Friday and was only taken ill on that day. On Tuesday his doctors decided that an operation was imperative, and this was successfully performed on the following day. He rallied for a short time after the operation, but the shock proved too much for his strength and he gradually sank and passed away at midnight on Thursday. The affectionate regard in which he was held both by masters and boys was shown by their attendance in large numbers

at his funeral, for his sterling qualities had made him a general favourite. His conscientious devotion to his duties, in spite of physical disabilities which would have daunted many a man, could not fail to win the respectful admiration of his colleagues and pupils. As Head of the Modern Side his influence was more directly in evidence in that part of the School, and many an Old Boy will look back with gratitude to his teaching and to the devoted interest in the welfare of his boys, which was not confined to their School career, but often led to sage and kindly counsel in their later life. The geological excursions they took under his enthusiastic guidance will be a pleasant memory to many of

our number. From the commencement of the war he showed the keenest interest in the cause of our Old Boys on active service, and to his loving care we owe the completeness of our Roll of Honour, which may well serve as a monument to the

patriotic zeal and devoted interest of him who inspired it.

The School mourns his loss and desires to express its most sincere sympathy with his widow and children and his other relatives in Australia and at home.

Chapel Notes.

THE offertories during the term for Hospitals, Mission and Charities amounted to £16/9/1.

Addresses have been given by Canon Geo. Burns (of Nairobi), by Mr. Meredith Atkinson, and Dr. Arthur on the French's Forest Homes for returned soldiers; by the Dean of Sydney on "His experiences as Army Chaplain at the Front"; by Mr. R. Windeyer on "Empire Day"; by Major J. L. Pulling (May 4th, Anniversary Address); by Canon Pattinson (Anniversary Service Address).

On Ascension Day there was a Celebration of the Holy Communion at 7.30 a.m., and Morning Prayers with Address at 9.5 a.m.

Confirmation will be given by the Archbishop on November 22nd. Classes will commence early next term.

We were very pleased to see a number of Old Boys attending the Chapel Services before leaving for the Front.

FURTHER REPORT ON CHAPEL WINDOWS.

The Special Committee now recommends, after conference with the Artist, that the following development

of the original scheme be considered by Council:—

1. The East and West Windows to have subjects of Biblical origin and particular appropriateness. The Committee suggests that the *East Window* have the generally significant theme of the Crucifixion, which theme the Artist finds to be also artistically the most valuable as a centre piece in the whole design.

The *West Window* would, in the Committee's opinion, best illustrate the subject of Christ before the Doctors in the Temple. This is particularly appropriate in a School Chapel, and can be treated unusually because of the space of four feet separating the two windows. The Artist would like to put the main scene in one window and the "Search by Joseph and Mary" in the other.

2. The Windows of the Nave might, in the opinion of the Committee, be well used for any of the subjects suggested in the last report. The Committee has therefore not selected scenes from the history of the Church in Australia, or from the history of the English Public Schools, or of great personalities from general and religious

history for immediate consideration by the Council. This can easily be done after Council has made its decision, should one of those series be chosen.

3. The other series was of national Saints; with particular reference to the great war, during which the Chapel was built, and some of whose heroes this artistic adornment will commemorate. The Committee suggests that windows might be given, if this be adopted, to Saints George, David, Andrew, and Patrick, as representing the four nations of Great Britain; to St. Denis and St. Andrew, again, as representatives of France and Russia; to St. Nicholas, as representative of Servia; and to St. Peter, as the best symbol of Italy, which has no exclusive national Saint.

For Australia some historic picture

inclusive of Johnson or Marsden might be tactfully added; and a missionary apostle, such as St. Paul, or some modern missionary important in religious history might likewise be used to indicate Japan.

The subject of St. Denis might be treated in more than one window, with actual reproduction, or at least reminiscence, of some of the fine French stained glass work on that theme, as *e.g.*, in the Cathedral of Chartres.

4. The Artist has made tentative enquiry as to cost of execution of this work in Sydney. He finds that a satisfactory result should be obtainable for about £4 per square foot of window. This would include all costs of designing, making, and fixing in position. At such a rate the East Window would cost about £500.

Rowing.

THERE was a greater amount of interest, if possible, than usual this year in the race for the Schools' Championship owing to the difficulty of forming any sort of forecast of the result, each crew appearing to have an equal chance of success. Perhaps we were not over-confident, as our eight contained only one member with any experience in racing, and practically a whole crew of raw material to be worked up and welded together. On the other hand all the other crews were singularly lucky in having a nucleus of old oarsmen to form the backbone of the 1916 boat. However, Mr. Ramsay did wonders in the time

at his disposal, and we have every reason to be pleased with the form and pace of our representatives, although they were unable to maintain the position of Head of the River, which we have held for three years in succession. In the race the time and swing were good, there was plenty of life and drive in the stroke but the finish was not held out, which materially affected the run of the boat.

We had two fours competing for the Yaralla Cup; one in practice did excellent work at times and we had great hopes of their success in the race, but they failed to do themselves justice at the start and then got

2, 3, 7, 7

blocked by the erratic manoeuvring of an inexperienced coxswain. The other four came on surprisingly in the last few days and put up a splendid fight against the winners, who just got home in front of them. It was a fine performance for such a light crew, and Eedy (stroke) must be congratulated on the way he drove his men over the course.

THE REGATTA.

The Regatta this year fell on the latest possible date, May 3rd—in future the date is fixed for the second Wednesday after Easter—and the conditions were most favourable, both from the point of view of rowing and from that of the spectators. The steamers were loaded with the friends and supporters of the Schools, while every available motor launch on the harbour appeared to have been requisitioned by parties of school boys and decorated with colours, the result being that the river was alive with boats and people. Mr. Roger Fitzhardinge in a speed launch easily kept up with the crews, and was in a position to prevent the possibility of collisions, which often spoil good races. We have to congratulate the Scot's College on putting a four on this year in the Second Crew's Race, and on the form they displayed.

SCHOOLS' CHAMPIONSHIP.

An excellent start saw all the crews away together, and it was a long time before any apparent lead was gained; they then gradually drew away from each other and unmistakably showed their relative merits. St. Joseph's led down the course followed by

S.G.S., who, at Cabarita, made a vain attempt to overhaul them; then came S.C.E.G.S., with St. Ignatius, who did not appear to be at their best, in the rear. The race was won by $1\frac{1}{2}$ lengths from S.G.S., with S.C.E.G.S. two lengths behind the second crew. The winners showed excellent form, and we offer them our heartiest congratulations.

The School Eight were seated as follows:—

D. S. Lloyd (9.9), bow; M. W. Forbes (10.8), 2; R. S. Holcombe (11), 3; P. W. King (11.2), 4; R. Jeremy (12), 5; H. F. Wilson (10.12), 6; R. J. Hardy (10.10), 7; F. L. Rothe (10.6), str.; E. G. Mayers cox.

SECOND CREWS' RACE.

No less than eight crews faced the starter who, after some delay, set them going, but as an oar was broken in the first minute, the umpire recalled them. The second attempt was more successful, and the crews soon began to spread themselves out, S.G.S. No. 1 Crew taking the lead, with S.J.C. next; on the left the cox of T.S.C. caused some trouble by his erratic steering. Our No. 2 Crew gradually forged their way up, overtaking S.J.C. and challenging the leaders. A great struggle ended in a victory for S.G.S. by half a length, S.C.E.G.S. No. 2 Crew being second, and S.J.C. third.

The crews representing the School were:—

No. 1 CREW.

C. H. Pyatt (9.9), bow; R. R. King (10.10), 2; C. Q. Williams (10.6), 3; J. Ralston (10), str.; D. W. Perry (5), cox.

No. 2 CREW.

B. Ryland (9.10), bow; A. F. Smith (9.8), 2; A. D. Morgan (10), 3; A. N. Eedy (12.8), str.; T. Hunt, cox.

— 77 E

We append Mr. Ramsay's criticism of the crew:—

The coach trusts that the following brief criticism of the work of the members of the crew which represented the School in the 1916 Champion Race will serve to remind each of some of his outstanding faults, the correction of which will not only add materially to his effectiveness, but will enable him to derive much more enjoyment from the sport, and considerable personal profit from the effort involved.

D. S. Lloyd, bow (9.9).—Is a stylish and hard working oar. Must be careful to swing full length both ways every stroke; to let hands come away freely and easily without any jerk or jar, following immediately with the shoulders and continuing the body swing smoothly without any pause until fully forward.

M. W. Forbes, 2 (10.8).—Proved an effective oar and a good solid worker. Is inclined to "poke" hands away instead of dropping them slightly and swinging them over knees at once, following smartly with the shoulders. Must be careful to keep body up on recovery, swing through in one piece, avoiding a tendency to "cock." Swings away from at finish and often finishes short.

R. S. Holcombe, 3 (11.3).—Is a very hard worker. Must learn to drive the stroke through from the stretcher in one piece, keeping the back firm from start to finish; slide must be held firmly until the shoulders have been well established; slide body, and hands must finish together, and the body must not be allowed to swing away from the work. Hands must be smartly dropped and swung over knees; body swung forward in one piece; slide being well controlled, especially nearing the forward chocks. More length is required at both ends of the stroke.

P. W. King, 4 (11.2).—Is a powerful and very formy oar with a particularly well balanced swing. Requires to hold the finish well out every stroke; to swing hands away smartly following instantly with body,

which must be well up at catch; to avoid an occasional tendency to "cock," and to drive with legs a little quicker.

R. Jeremy, 5 (12).—Showed very good blade work; is a very hard worker, and with a little more practice will make a very effective oar. Must learn to hold side at catch; swing the body well past the perpendicular with straight arms, keeping it swinging until the hands come in; elbows must be rowed close past the sides and well back. Head must be kept up, and eyes kept in the boat. Hands must be swung smartly over the knees, arms being straightened instantly, body following without the slightest delay, and swinging right out in one steady, smooth movement without any pause or break, slide being controlled by swing, head and hand being kept well up. Swing must be perfectly straight both ways, and stroke lengthened a little at both ends.

H. F. Wilson, 6 (10.12).—Is a very effective and formy oar and a consistently hard worker. Must be careful to keep hands smart every stroke; to leave back chocks smoothly and not too fast, avoiding a tendency to swing slightly towards the work and to hurry the slide and beginning.

H. J. Hardy, 7 (10.10).—Is a very stylish and effective oar who does plenty of work. Must be careful to swing well back every stroke holding the finish well out. Body must follow hands quicker and must be swung right forward from the hips in one piece.

F. L. Rothe, str. (10.6).—Is a distinctly good stroke, possessing any amount of power and dash, besides being particularly cool. Must swing hands smartly away every stroke, straightening both arms instantly, swinging the body from the hips, with head up and eyes in front, and avoiding a tendency to "cock," also to open legs too wide. Last few inches of slide must be steadier, and the beginning must be taken the instant slide is forward. Body must be kept driving right to end of stroke, hands being rowed well upon ribs with elbows close past sides; slide, body, and hands finishing together with finish held well out.

O. G. Mayers, cox (8).—Again proved a painstaking and competent cox, handled his crew well and steered admirably.

Football 1916.

STEADY improvement has been the feature of both Firsts and Seconds this term. With five members of last year's XV. left to form the nucleus of a team the season commenced not too promisingly. The first two games against Newington and St. Ignatius served to reveal our weakness and our strength. The latter lay in the forward pack, while the former was most pronounced in the backs. As the season advanced and the backs gained experience, the team gradually improved, so that we had very good games in the Competition Matches, especially against Newington and T.K.S. Provided the improvement in the team continues our prospects for the second half of the season are bright. As regards the individual members of the team, no boy has stood out above the rest as a brilliant player. Most of them are playing sound football, but the chief fault with everyone without exception is that they do not use their heads. Football should be something more scientific than a bullocking attempt to cross the opponents' line. King at full-back is sound, his main fault being his uncertain line-kicking. Hassall on the left wing has been our chief scoring agent, his contribution to the total number of points scored being 47 out of 74. He uses his pace to advantage. Smith, after playing two games with the pack, was brought back to the three-quarter line, and very quickly adapted himself to his new position. Brown is making steady

improvement, but is still hesitant about tackling low and hard. Walker is the most promising player in the team; when he fills out more he will be a very great help to the XV. Maclean at half-back is one of the soundest defensive players in the team; with a little more experience he should prove very useful next term. In the pack Holcombe and Loveday in the break-away positions are, as they should be, always on the ball. The former's tackling is of great assistance to a team which is weak in defence. Of the other forwards Forbes has captained the team excellently. He appears now to be more comfortable in his old position as right hook than he did as five-eighth, which position he filled until Walker proved his ability for it. Eedy, Hardy, and Jeremy use their strength and weight to advantage but still lack dash. Lloyd, Wilson, and Shaw are hard and consistent workers on the field.

The Seconds, though comparatively unsuccessful up to date, have very promising material. Mayers, Pountney, Rothe, and Doyle in the backs, and Brooks and Ryland in the forwards have shone out above the others. Balcombe and Spring have also played good football. With so many of the places in the first XV. not permanently filled anyone of the above may next term justify his claim to inclusion.

As regards football in the lower teams the play has been satisfactory. Here our backs and forwards of years to come are receiving their first know-

ledge of the game. The most pleasing feature of the lower grade football has been the keenness shown. In spite of the fairly satisfactory percentage of over 75 of the total number of boys attending the School playing football, we should like to see this percentage increased until every boy in the School, unless physically unfit, is playing the game. There is no other game that will so thoroughly develop the best traits in a boy's character.

We congratulate Hassall on his inclusion in the All Schools' Firsts; also Forbes and Holcombe in the Seconds, with Eedy first emergency.

REPORTS OF COMPETITION MATCHES

School v. T. S. C.—Played at No. 2 Oval on Wednesday, April 24th, 1916, resulting in a win for S. C. E. G. S. by 48-3.

Scots kicked off against a strong southerly. From the first Shore forwards pressed hard; Scots backs started a passing rush, which ended in the ball going out of bounds. From the line out Scots' backs again got going but mullied their passes; Holcombe got possession of the ball and found the line. From the line out in our 25 Holcombe attempted to run in but was beaten for the ball by Read, the Scots wing, who ran strongly and scored, Brown failing to bring him down. The attempt at goal was unsuccessful. Score, 3-0. From a line-out Holcombe secured the ball and started the backs, passing out to Hassall, who ran through and scored. The same player failed to convert. Score, 3-3. From a scrum in their 25 Maclean set the backs in motion, and although Walker's pass was weak, Hassall secured the ball after a tussle and scored. Hassall failed to convert. Score, 6-3. From the kick-off the ball came to Wilson, who passed to Holcombe, starting an attack from which Walker got over in the corner. Hassall's kick at goal was unsuccessful. Score, 9-3. Play continued in their 25, Shore forwards attacking strongly. Scots tried to find the line, but Smith got the ball, ran through and scored. Hassall

failed to convert. Score, 12-3. Shore continued to attack and kept play in the Scots' 25. From a line-out Holcombe broke through with the ball and passed to Hassall, who scored. Hassall again failed to kick the goal. Score, 15-3. Shore still attacked strongly. From the ruck in their 25 the ball came to Hassall, who scored. No goal. Score, 18-3. From a good forward rush Loveday broke through and dived over between the posts. Hassall converted. Score, 22-3. From a scrum near their line Maclean passed to Forbes, who ran through and scored. No goal. Score, 26-3. Half-time.

Shore kicked off after half-time against a fair wind. From a scrum in the middle of the field Shore backs started an attack, which took them to Scots' 25, but they relieved by a kick. Shore attacked in their 25 again and again, but Scots' line kicking saved them. We were being penalised heavily for off-side and lost many chances, their kicking relieving them in many cases. Smith started a passing rush with Walker, who did an excellent cross-kick to Hassall on the wing, who scored. Brown failed to convert. Score, 29-3. Maclean got the ball from a scrum and did a good run, passing to Brown, who fumbled badly. A little later Brown centred and the forwards started an attack, which resulted in Loveday scoring. Hassall converted. 34-3. The forwards, led by Holcombe and Loveday, again attacked and passed out to Hassall who, making good use of his pace, beat the Scots' full-back and scored. The same player converted. 39-3. From a line-out in their 25 Wilson broke through and scored. An attempt at goal was unsuccessful. Score, 42-3. The backs getting possession of the ball started a passing rush. Brown was brought down a few yards from their line, and Holcombe following up from behind picked up the ball and dived over. No goal. Score, 45-3. A few minutes later Shaw obtained the ball and set the backs going again, who passed well, and Walker scored. On Hassall failing to convert the whistle blew for full time. Final score, 48-3.

School v. Newington College.—Played at Staumore on Wednesday, 31st May, 1916, resulting in a win for N. C. by 13-6.

Smith kicked off with a light breeze in our

favour; Brown securing, centred, but N.C. found the line. From the line-out Shore was given a free and Hassall kicked a goal from just inside half-way. 3-0. Shortly afterwards N.C. were again penalised for offside and Brown found the line. Play was kept in N.C. 25, as a result of some good work by the forwards, until Walker obtaining the ball from a scrum centred, but Hassall was offside, for which N.C. were awarded a free kick, and play was brought to half-way. From a line-out Maclean passed to Forbes, who rushed into the ruck and was tackled. N.C. backs secured and started a passing rush, which resulted in the ball being kicked over the line, and in the race which ensued Hassall was successful and forced. Our opponents again attacked but were forced back by some good line kicks; then Shore attacked, Holcombe and Wilson being prominent among the forwards. Then from a scrum at half-way the N.C. breakaway was offside and Hassall, taking a long kick at goal, failed to reach the posts. N.C. were again penalised for offside, and Brown took the kick but failed to get the line, thus enabling Palmer, the N.C. full-back, to gain ground by a good line kick. Our forwards, led by Holcombe and Loveday, took the ball into N.C. territory, where their full-back obtaining relieved by a good line kick. A passing rush, in which Loveday, Holcombe, and Smith figured, brought play to N.C. 25, but Palmer again saved by a good line kick. From a scrum the ball went to Steele, who, by a good run, almost crossed over, being pulled down only within a few yards of our line, and the chance of a score was lost by his passing forward. N.C. forwards kept play in our 25, and after some strenuous play on the line Macdonald opened up the score for Newington by a try in the corner. Steele converted and N.C. led 5-3. Our kick-off found the line, and from the line-out Smith broke through but had no one to back him up, and a wild pass to Holcombe went astray. Hassall secured, and after a fine run brought play to N.C. 25, where our forwards kept them heavily pressed until half-time whistle blew with the score 5-3 in N.C.'s favour.

There was no wind at all in the second half. Holcombe, Walker, and Smith figured in a passing rush, the ball eventually going

out of bounds. From a scrum at half-way the ball went out to Hassall, who, running strongly, easily beat the defence and scored near the corner. The kick was unsuccessful. Score, 6-5. Shore forwards pressed but our opponents rushed play to half-way, where King gained ground by a good line kick. From much even, loose play at half-way Newton secured and centred, and in the rush which followed N.C. scored near the posts, but the attempt at goal was unsuccessful. Score, 8-6. From a line-out shortly afterwards N.C. secured and started a passing rush, which ended in Hicks scoring in a good position. This try was converted and N.C. led 13-6. King by a good line kick brought play to their 25, where Walker took a good mark, but Holcombe failed at goal from an angle. N.C. backs again got going but the rush was stopped by a good tackle by Forbes. N.C. marked but failed to find the line, and our forwards rushed play to N.C.'s 25, where Macdonald obtained from a scrum but was smothered by Loveday before he could pass. Our opponents' backs brought play to our territory where Hassall relieved by a good line kick; Shore forwards pressed, and for about ten minutes the two packs fought hard to gain ground without making any headway; then our forwards worked play to half-way, where Loveday obtaining the ball from a scrum, got away but was pulled down, and King lost an opportunity by booting over the line, and N.C. forced. Steele marked, but failed to find the line; Hassall picked up the ball and gained 25 yards, when N.C. again marked, and Steele this time found his line. Walker, taking a pass from Forbes centred, and our forwards attacked, but a knock-on spoilt a passing rush by our backs. Play now remained at N.C.'s side of half-way for a few minutes; then from a kick down the field by N.C. Hassall gathering found his line well, and so took play to N.C.'s 25, where Shaw and Eedy were prominent in the rucks. N.C. marked but failed to find the line. Hassall secured and gained ground by a good kick. N.C. rushed our line, where Wilson broke through, but was tackled before making much headway, and our opponents marked, but their kick for goal was unsuccessful. Smith intercepted a pass and gained ground, but N.C. kicked over

our line and King forced. From the kick-off we found the line, and a few minutes after the full time whistle blew with score 13-6 in N.C.'s favour.

School v. T.K.S.—Played on Wednesday, 7th June, 1916, at Parramatta, resulting in a win for T.K.S. by 11-5.

Smith kicked off with a very light northerly breeze blowing across the ground. Mayers obtained from a scrum and found the line near half-way. Holcombe gained ground by dribbling down field, taking play to T.K.S.'s 25; he again rushed towards their goal line where Judge, with a good run, found the line at half-way. Walker kicked, and in the follow up Forsyth gained a few yards by a line kick. Mayers, getting the ball from the scrum, broke through the defence, but his pass to Hassall fell short on T.K.S.'s 25. T.K.S. forwards took the ball to near half-way, where Forbes relieved by a good line kick. Walker kicked and Little, the T.K.S. full-back, found the line near half-way. Our opponents' forwards rushed to our 25, where the ball went out of bounds. From the line-out the ball was passed to Judge, who was tackled by Holcombe, and later another passing rush was stopped by the good tackling of our backs. T.K.S. were penalised for off-side, and Forbes, taking the kick, found his line at half-way. Mayers, from a line-out, passed to Walker, who kicked down field, but Little returned with a kick, finding line in T.K.S.'s half. From a scrum the ball went to Judge, who was smothered by Mayers. A passing rush by T.K.S. backs just afterwards resulted in Judge breaking through the defence and scoring in the corner. The attempt at goal was unsuccessful. 3-0. Immediately after the kick-off Potts was off-side, for which T.K.S. were penalised, and Brown centred, but T.K.S. returned over the line and King forced. Hassall obtaining in our 25, ran well and eventually found the line in our opponents' half. Holcombe passed to Mayers, who kicked hard, but Little found the line. T.K.S. forwards, who were a bigger and heavier pack than ours, rushed the ball into our 25, and Brown reached the half-way line with a good line kick. T.K.S. kicked from the line-out and Hassall securing the ball in our 25, ran hard,

kicked, and following up tackled the full-back, but T.K.S. saved the situation by a line kick. From the line-out Walker took a mark, but Brown failed to find his line. T.K.S. were again penalised, but Forbes missed the line, and Moore relieved by a good kick, finding the line in our 25. Hassall, after a brilliant run, beat all the T.K.S. backs, kicked over the full-back's head, and was successful in the race which followed, scoring in a good position. Hassall converted. 5-3. From kick-off King lined near half-way, and our forwards, led by Hardy, dribbled the ball down the field, but T.K.S. found the line on our 25 line. Moore marked near half-way and found his line well. Loveday broke through, but again T.K.S. found the line. Doyle, obtaining the ball, ran along the line until he was forced out of bounds. From play at half-way Judge got the ball but was brought down by Walker and Holcombe. Holcombe and Loveday beat the T.K.S. breakaways for the ball and gained ground. Mayers marked, but Brown failed in his line kick and Little sent the ball out near the half-way line. The T.K.S. half, obtaining from a scrum, passed to Judge, who was tackled by Loveday. Judge again receiving the ball, after a brilliant run, scored in a fair position, but Moore's kick went wide. Half-time whistle came with score 6-5 in T.K.S.'s favour.

From the kick-off King found line, and T.K.S. returned with a line kick, the ball going out on our 25 line. Judge obtained from scrum, passed to Forsyth, and rushing round received pass from the wing and scored in the corner. Moore converted. 11-5. Holcombe kicked off, and Shore forwards rushed play to T.K.S. 25, where we were awarded a free kick for off-side, but Hassall's kick failed to reach the posts, and T.K.S. lined at half-way. The T.K.S. five-eighth broke away but was smothered by Walker, who, by a good sprint and kick, found the line at half-way. Shore forwards, led by Holcombe and Loveday, rushed play to half-way, and later T.K.S. were penalised on our 25 line, but Hassall's kick again went wide and T.K.S. lined. T.K.S. rushed play to half-way and then dribbled to our 25, where King saved by falling on the ball. From line-out Moore tried to break through but was tackled by Holcombe. T.K.S. picked

up in ruck and Shore was given a free; the kick went to Hassall, who found the line with a good kick. T.K.S. forwards rushed play into our territory, where Body found the line. Walker was conspicuous in a rush by our backs, but Little saved by a good line kick. Hassall gained ground but Little again relieved with a line kick. Walker obtained from a scrum near half-way and kicked down field, but Little gained about 40 yards by a long line kick. Moore sprinted along touch but was tackled near our line and the ball went out of bounds. From line-out Loveday broke away but was forced out, then T.K.S. backs started a passing rush, which ended in their wing finding his line. Shore were awarded a free kick and Brown found the line between half and a quarter-way, and Moore obtaining from line-out sprinted to our line, but ran out of bounds. T.K.S. forwards rushed the ball over the line and Walker forced. Play was kept on our line until Wilson broke through, and from a free kick by Forbes Moore secured but was pulled down by Holcombe and Walker. King forced and from the kick-off Little found his line; our forwards held their own for a few minutes until Little took a mark off Holcombe, but failed to find his line. T.K.S. forwards rushed play in our 25, where Eedy and Holcombe broke through, and Arnott obtaining the ball, was tackled by Forbes. Potts broke through but was tackled, and Hassall found his line at our side of half-way, where play was kept for some time. Mayers did a long kick to his line and transferred play to our opponents' 25, where our forwards rushed to T.K.S. line, but Walker kicked over the line and Little forced. From kick-off King centred, but T.K.S. lined near half-way; Walker kicked to Little, who returned and King marked. Hassall kicked down field but Judge found the line. From the line-out Laycock broke through but was stopped by Mayers. Just afterwards Hardy found the line at half-way, and then the full time whistle blew with score 11-5 in T.K.S.'s favour.

A GRADE.

Five teams were chosen at the beginning of the season, Red, Blue, White, Yellow and Green. When the first round was completed a change was made. It was felt that the Thirds were not having enough practice as a team and so two teams, the Thirds and Fourths, were chosen from the A Grade and they have practised together since that time.

At the conclusion of the first round Red, Blue and Green were leading with 10 points each, and so the remnants of White A and Yellow A were put into the first three teams and the competition was carried on between these three. The result was a win for Green. Bevan, the captain, is to be complimented on the way in which he kept his team together. The points were:—

Green	16
Red...	6
Blue	2

The members of the winning team are Bevan (capt.), Dabelle, Chesterman, Hart, Wilson iv., Laugley, Scott, Chauvel, Turnbull, Nankervis, Baker, Hill, Murphy, Hardy, Prestou.

At the last meeting of the O.B.U. Committee J. F. Fitzhardinge resigned his membership of the Committee, owing to his leaving Sydney for the country for some months. R. W. Carey was elected to the vacancy. R. A. Barton, owing to his departure for the front, sent in his resignation as Assistant Hon. Secretary. The resignation was not accepted, and the Hon. Sec. undertook the duties of both offices. The Hon. Sec. was asked to obtain designs for a small medallion with the School Arms in accordance with the resolution passed at the last Annual Meeting. The Committee heartily congratulated L. S. Dudley on his recent successes in the University Examinations. The Hon. Sec. and E. A. Woodward were appointed to represent the Union to confer with representatives of the School to discuss the question of blazers, as worn at the School and by members of the O.B.U.

It will be a shock to all Old Boys to hear of Mr. Morgan's death. He did not come to School on Monday, May 15th; on Wednesday he was operated on for appendicitis, and succumbed to heart failure on Thursday at midnight. Ever since the war began he devoted himself heart and soul to the doings of Old Boys at the front, and the School Roll of Honour is his work, and that will keep his memory fresh in the minds of all the School volunteers who have been serving in the Expeditionary Forces.

After this term Mr. Pulling will be editor in charge of the column, "Old Boys Serving in His Majesty's

Forces" in *Torch-Bearer*. He will be glad to receive items of interest and notices of additions and corrections to the School Roll of Honour.

The Statement of Receipts and Expenditure will be found at the end of the O.B.U. article.

The Hon. Treasurer begs to acknowledge with many thanks "Q's" annual donation, which he has distributed as follows:—Chapel Fund, £2; Library Fund, £1; Athletic Sports, £1; Hospital, Mission, and Charity Fund, £1.

The Committee of the G.P.S. have definitely fixed the date of the Regatta as the 2nd Wednesday after Easter.

The Hon. Treasurer begs to acknowledge the receipt of subscriptions for the year 1916-17 from the following:—
