**WHAT IS WRONG WITH THE "TORCH-BEARER"?**

About five hundred and fifty people have expressed the idea, quite candidly and without malice, that the *Torch-bearer* is the World's Worst Magazine!

They are very nearly right.

Still, any one of the five hundred and fifty would feel aggrieved if he were told that the cure for this condition lay chiefly in his own hands—yet this is so.

The *Torch-bearer* has two functions to fulfil. It has to be a record

of School activities; it aims at being a magazine in the wider sense. The first of its functions it fulfils; in fact, that is one of the chief charges brought against it—that its columns are filled with records of the score made by Smith xxiv. in the School-house eighths. Now, we cannot leave this sort of thing out. If it occupies our columns exclusively, it is because there is nothing else to set beside it. If you wish to alter the situation you must send in sufficient material to

make the other insignificant by comparison.

Now, if you wish the *Torch-bearer* to carry out the second of its duties there are any number of ways of setting about it. Nearly everybody has done something or heard something which he wants to talk about, and which other people are ready to hear about. If you can talk intelligently you can write intelligently. We want to hear of those places and people that you have seen and that we have not; the things you have done that we have not been able to do; the things you like to do and your reasons for doing them. Write about something you are interested in. When interest is the driving power the wheels will go round all right. Don't be frightened that your work is not literary enough; put down what you have to say simply, and in a form that cannot be misunderstood. If you can do that there will not be much wrong with what you write.

So much for prose—but what about verse. Not many people are poets; still, some are; and if we have them amongst us they will not be received coldly. There are, however, a number who can string verses together with a fair amount of skill.

We would like their comments on life as they see it. An apt versifier is a valuable assistant to any publication.

Then there is the matter of pictures. All you people who can draw had better buy a bottle of Indian ink and settle down at once to make sketches for us. There are all sorts of matters that are eminently picturable — typical incidents of school life, tuckshop crowds, water-tap queues—all that sort of thing; all the crazes and follies of the moment; these will make good pictures. We want to see your sketches, line or wash; pencil and colour are barred through difficulties of reproduction. Some of you take photographs. Have you ever thought that these might be of more than passing interest? All those snapshots made on notable occasions would help to brighten our pages considerably.

In a place of entertainment in California, about the year '49, there used to be a notice, "Don't shoot the fiddler, he's doing his best." In this case, don't slang the committee; they can't perform miracles. There is talent in the School, but it is the talent that was wrapped in a napkin and buried in a field. Let us have it up and make use of it.

## SCHOOL NOTES.

The following boys entered the School at the beginning of this term:—Evans, J. D., 3732; Evans, C. A., 3733; Holland, J. L., 3734; Ingold, R. F., 3735; White, P. H., 3741; Martin, A. S., 3736; Mills, C. D., 3737; Neely, T. C., 3738; Potts, R. C., 3739; Slack, H. R., 3740.

The following re-entered:—Larkin, L. N.; Chambers, P. D.; Walters, J. C.; Hattersley, H.

The following boys left at end of Term II, 1924:—Arnott, M.R., 3578; Byers, J. H., 3083 (1st XI., 1921; Colours, 1921-22-23; G.P.S. 2nd XI., 1922; C.P.S., 1st XI., 1923); Clarke, J. H., 2735 (Inter. 1923); De Groen, E. B., 3600; Fergusson, D. J., 3440; Flesselles, C. G., 3443; Gunthorpe, H. C., 3717; Fowler, E. F., 3724 (2nd A., 1922; 1st R.T., 1923; Colours, 1923-24); Gurr, R. M., 2937; Hepworth, L. P., 3624; Jackson, D. E., 3462; King, H. R., 2769 (Int. 1923); King, R. R. M., 3642; Lound, F. R., 3658; Murnin, P. R., 3658; Myles, E. H., 3478; Retchford, R., 3052; Scott, J. G., 3334; Shepherd, D. F., 3236 (2nd XV., 1923; 1st XV., 1924); Smith, G. R., 2085 (Intermed., 1921; 2nd XV., 1923; L.C., 1923; Sub-Pref., 1923; 2nd crew, 1924; Prefect, 1924); Stephens, J. V. C., 3505; Turner, P. W., 3575; Wall, R.J., 3517.

At the end of this term Mr. Davies will be giving up teaching, and is

going on leave for a year. His retirement emphasises the fact that the School is growing steadily older. Mr. Davies, as a member of the original staff, was a living symbol of the continuity of the School—a link between all the past of the School and its present. We wish him a full enjoyment of his years of retirement following on a generation of labour.

In the Common Room, on November 25, the Staff gathered to present an entree dish to Mr. Bagot on the occasion of his approaching marriage. The Headmaster, in making the presentation, conveyed to Mr. Bagot the best wishes of the Staff. Mr. Bagot briefly replied. Through the *Torch-bearer* we offer to Mr. and Mrs. Bagot our best wishes for their future happiness. Mr. Bagot is leaving the School House where for years he has acted as Senior Housemaster, and is taking over Hodges' House, on the retirement of Mr. Davies.

Mr. R. Palmer, B.A. (Cambridge), an old boy, who has been on the Staff since last May, has been appointed Headmaster of the Church of England Preparatory School, Manly.

Since last issue of the *Torch-bearer* lectures have been given to the Upper School by Sir Charles Rosenthal, Dr. Gordon Craig, Mr. Phillips,

Mr. Flashman, and Mr. Gibson. An account of the lectures will be found elsewhere.

An address was given to the School on October 17 by Capt. C. E. Brough. The subject was the Young Australia League. The address was listened to with interest. Some members of the School have been persuaded to take advantage of the facilities for travel offered by the League.

We must congratulate B. M. Salmon on being chosen to represent the State against Queensland.

An enjoyable dance was held in the School Hall on Saturday, November 30, mainly for the entertainment of the School House boarders. Some old boys and others were present. The non-dancing boarders—rather a number—were noticed doing full justice to a very excellent supper. The thanks of all present are due to Mrs. Robson.

On Thursday, November 27, we had the pleasure of a visit from Mr. Gilligan and Mr. Bryan, of the English cricket team. They were shown the various points of interest in the

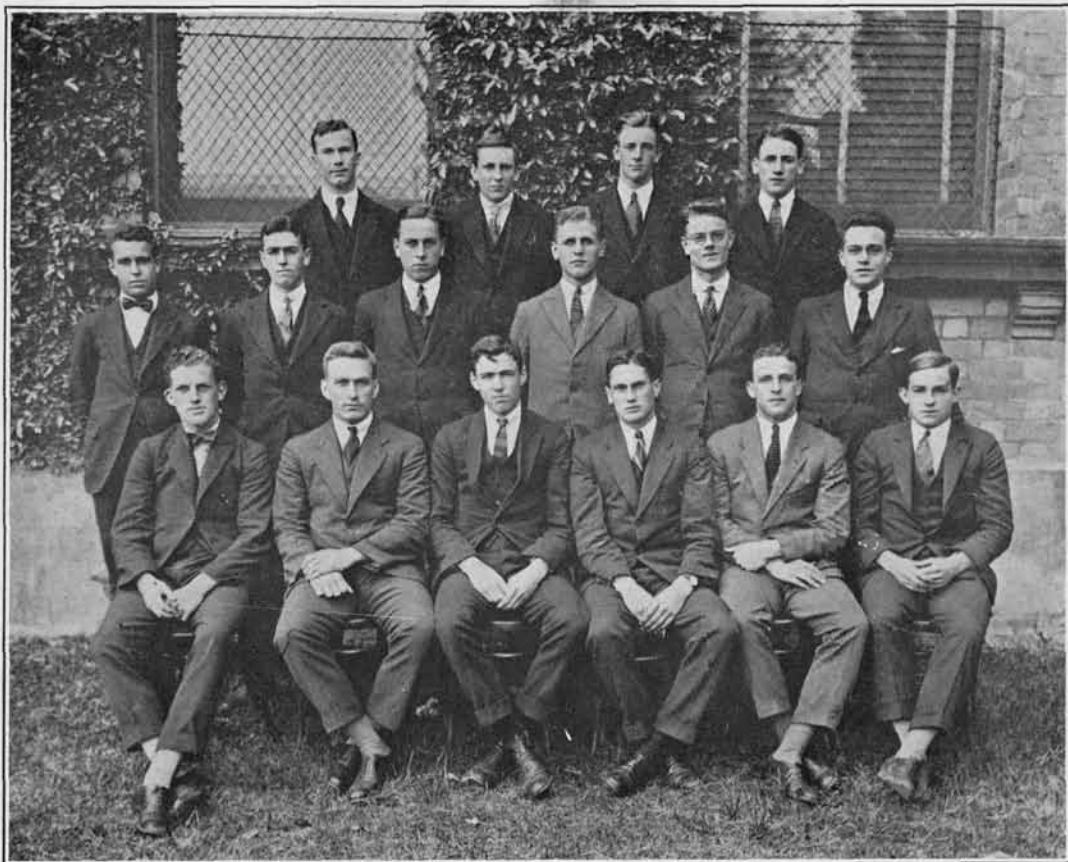

School, including "the machine where Jack Gregory learnt his slip fielding." (We assume that after this visit this undistinguished appliance will become a shrine for the devout pilgrimage of visiting cricketers.) Mr. Gilligan made a short speech to the school, which he concluded with the unfailingly popular request for a half-holiday. We appreciate his kindness in sparing time to make us this visit.

On the nights of December 5 and 6 the School Dramatic Society presented two short comedies, "Elegant Edward" and "The Ghost of Jerry Bundler." The production occurred too late to be described in this issue, and any account must be left to a later number.

We have to thank Mrs. Hey Sharp for a gift of Melanesian curios.

Congratulations to H. L. Lewarne on his passing the final examination of the Australasian Corporation of Public Accountants in book-keeping and auditing; and to W. J. S. Harding, who headed the list of Intermediate passes; and to F. R. Wakelin, who passed the Intermediate section.

PREFECTS.

Smith, J. R. Stringer, H. G. Uther, J. H. White, G. J. Wilkinson, A. E. Wilson, R. B. Worden, K. J. Young.

Baptism.—On November 16, Margaret Jill Lindsay, daughter of M. L. Clarke, of Crow's Nest Road.

Addresses have been given this term by the Headmaster, the Acting-Chaplain, the Rev. Dr. Pritchard, Col. A. H. Moseley (Armistice Day), the Rev. R. H. Palmer, B.G.S., the Rev. R. E. Freeth, the Rev. Canon Archdall, the Rev. C. C. H. Short (twice), of the C.M.S.

Confirmation was given by the Bishop of Bathurst on October 23 at 2.30. There were seventy-seven candidates.

Open Sunday will be on November 30. The preacher will be the Rev. Canon Charlton. The service will be at 10.45 a.m.

On December 7 the address will be given by the Rev. L. S. Dudley, of Hyderabad, an old boy. Dudley leaves Sydney for India on his return

after furlough early in January.

The confirmees at the recent Confirmation have presented to the Chapel a full set of Altar linen.

The first Celebration after Confirmation was taken by the Rev. R. E. Freeth, assisted by the Rev. D. Davies. There were 104 communicants.

The offertories for 1923 have been disbursed as follow:—

### MR. A. D. HALL'S SERVICES TO SCHOOL SPORT.

The late Mr. A. D. Hall joined the staff on January 28, 1891. On March 19, 1891, he had charge of rowing, and in the same year was a member of the Boat Club Sub-committee. He remained in charge of rowing till January 1, 1893, when he resigned on taking over the cricket, but he continued to take an interest in rowing. On March 20, 1894, he rowed two in the Masters' Four, which was beaten by the Old Boys by a length and a half. On March 30, 1896, he was umpire at the School Regatta, and he carried out the same office on April 23 and 24, 1897.

He took charge of rowing again in 1901, and remained in charge till 1908, when he handed over to Mr. I. G. Mackay. In 1906 he had the satisfaction of seeing his first crew win the Major Rennie Trophy. He continued to coach until 1924, and always maintained an active interest in the Boat Club.

He was early associated with cricket, and coached the second eleven in 1891. He frequently played against club teams. In 1893 he had the highest batting average for the Masters. In 1893 he went on to the Cricket Sub-Committee, and took

charge of cricket in place of Mr. Hughes, and in 1896 he was a member of the sub-committee of the G.P.S. A.A.A., a position which he held again in 1897 and 1899. In 1898 he handed over the control of cricket to Mr. Blaxland.

His longest service was given to the athletic teams. He acted as starter at the first athletic meeting (June 14, 1892), and carried out the same duty at every subsequent meet-

ing until 1923—with the exception of one year only, 1902, when he was absent in Europe. He gave much careful attention to the coaching of the athletic teams, which met with the full appreciation of those who passed through his hands. The athletic meeting with Newington, held in the first term of this year, was the subject of his keenest interest just prior to his death.

### THE PUBLIC SCHOOLS CLUB.

The Headmaster recently received from the secretary of the above club a letter, from which the following is an extract:—

At the last meeting of the committee it was decided to include the leading schools of Australia in the club list of schools, Old Boys of which are eligible for election to the club, and I have pleasure in informing you that your School has now been placed upon our list.

The Committee hope that you will honour them by becoming a Vice-President of the club.

This communication should be of considerable interest to Old Boys, especially those who contemplate a visit to England. The Club, whose premises are at 61 Curzon Street, London, W.I., was founded in 1920, and its membership is limited to former boys of certain schools only.

The original list comprised sixty of the leading Schools of the United Kingdom. A reply has been forwarded, conveying our appreciation of the honour, and of the friendly thought which prompted it.

The interest of the latter is rather wider from our point of view. It shows that English schools are glad to recognise the existence of their younger brothers in the Dominions, and to place them on an equal footing with those at Home. It may not be out of place to mention in this connection a fact which is, perhaps, not generally known, namely, that the Headmasters of a number of schools in Australia, including this School, have been for some years members of the Headmasters' Conference.

**THE MEMORIAL GROUNDS.**

Elsewhere it is announced that the Fête realised £1,354. Just before going to press we are able to make a statement as to the development which this splendid result is to provide. The final Grounds Committee meeting was held on December 2, and plans were presented for the completion of the former pavilion. The general idea is to build above the existing construction a second storey, consisting of a long dining-room, a master's changing room, and a small kitchenette. In front there is to be a verandah about six feet wide, with four rows of seats in front and steps leading down to the level of the Oval. Below the seats is to be a long dressing-room. The existing space shall then be available for dressing accommodation, and extra showers are to be installed. This should relieve the pressure upon the dressing accommodation, and should also provide two long-felt wants, namely, a master's room and a dining-room. The scheme also provides for the installation of electric light.

The Committee has kept in the front of its collective mind the desirability of placing at the ground

a permanent record of the names of Old Boys who served, and especially of those who fell in the war. A space is provided on the front of the pavilion for such a roll, and it may be anticipated that it will be erected at the earliest possible moment.

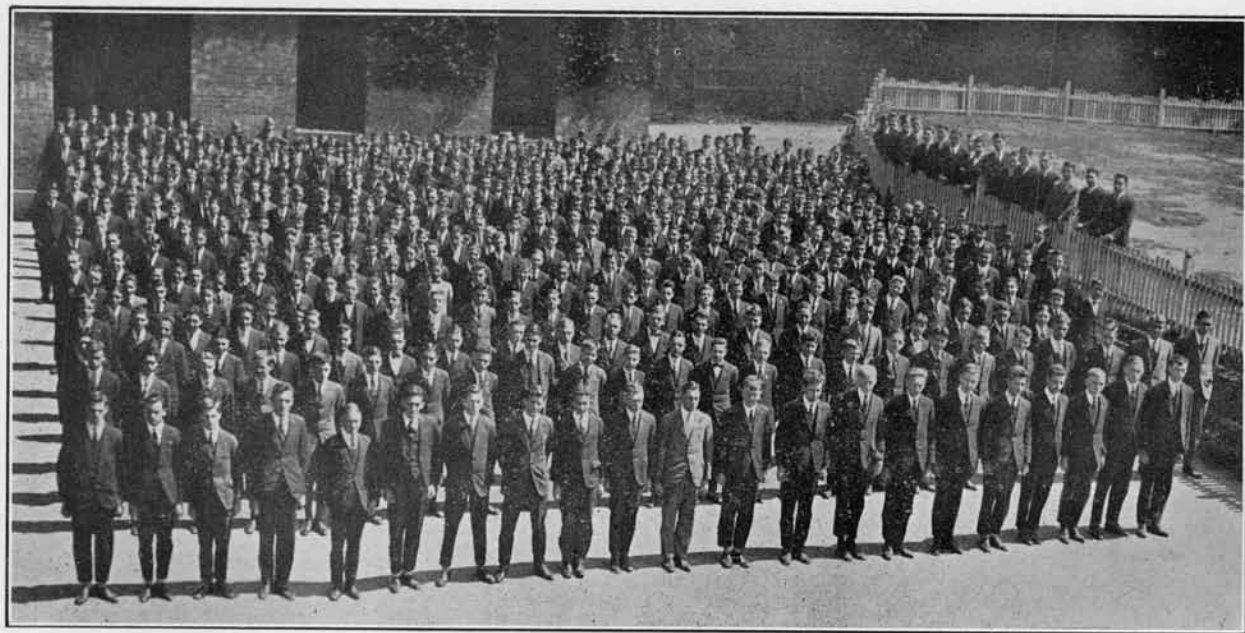

A tender of £1,198 has been accepted for the completion of the work, and it is intended that it shall be finished by February 4, 1925, weather permitting. **On February 7, the first Saturday of next term,** it is hoped to hold a function at the ground, and to hand over the completed pavilion to the School. **Old Boys and others who are interested in the School are asked to note this date and to attend.** Owing to the intervention of the School holidays, it may not be easy to give further notice until February 3 and 4. In any case, it is always difficult to be certain of reaching all of those who have helped to make the building possible.

A scheme is being carried out, also, for the planting of trees. Over a hundred trees are to be planted on the north-west and south sides of the ground, if possible by March of next year.

**THE FETE.**

The Annual Fête was held at the School on Saturday, September 27. The exertions of the Committee and the friends of the School had re-

sulted in the establishment of a record number of stalls and an immense quantity of materials to be sold upon them. Before the day of

THE SCHOOL ASSEMBLED.

the Fête there was already a large sum of money in hand from the sale of tickets. The sales were stimulated by competition between Houses, forms, and individuals. A gigantic barometer, erected under the office clock, recorded the progress of the House competitions. The colours crept up very slowly till the last week, and then each morning saw a rise of ten pounds or so. Excitement centred round the barometer on the morning of the Fête, as fresh results were posted at intervals. Sales of tickets ceased at mid-day, but the result of the House competition was not known until four o'clock. School House were the winners, thus becoming entitled to hoist the first House flag. Lower IVth B and Lower IVth C divided the honours of the Form Competition, and celebrated their joint success with a half-holiday, a cricket match, and afternoon tea. Esplin i achieved the distinction of selling most tickets personally.

The morning of the Fête opened with fine weather, which continued till the afternoon. Visitors began to arrive shortly after lunch, and the grounds were soon full. The stalls of all descriptions had practically sold out by nightfall. One could buy almost anything; in fact there are dark suspicions that the Houses were victualled for days from the discreet purchases made at the Produce Stall by those in authority.

Numerous sideshows — conjuring, Punch and Judy, boxing—in fact too

many to mention, unless this article is to read like a catalogue, helped to detach the purchaser from his money. In how many ways could the elusive shilling disappear? You might buy flowers or sweets, or see it go in smoke on the rifle range; you might use it to lose you your golfing reputation in the putting competition; you might buy unmentionable things at the Medley Stall, or buy the right to whisper urgent curiosities into the fraudulent ear of Tut-Ankh-Amen. You might—but why continue? You will be able to do as many fascinating things on the next occasion.

The afternoon was enlivened by the music of the N.S.W. State Military Band, and by a display of physical drill, fencing, and bayonet fighting by members of the Swords Club.

Activity did not cease at night. You could dance; you could listen to wireless concerts; you could watch the pictures in the dining hall. In fact you almost had to do one of these three things to get out of the rain, the inevitable accompaniment of our Fêtes, which made its appearance early in the evening. Towards midnight visitors dragged themselves reluctantly away.

To all parents and friends who assisted the Fête with donations of money and goods we must express our hearty thanks. For example, the Produce Stall was stocked by the gifts of Mr. Kelso King, Mr. O. G.

### OPENING.

The batsman's lot is not a happy one  
 When first he bats, for then he has to face  
 The bowling fresh and of most furious  
 pace;  
 And then his wicket falls, his innings done,  
 Maybe before he's made a single run;  
 He falls into an undeserved disgrace,  
 While someone else, instructed by his case,

May make an easy score, the match being  
 won.

Yet it is good to open, and to feel  
 The eyes of all upon you, yet to know  
 That if you fall there are another nine  
 To win the match, so that the commonweal  
 May suffer not, whether you stay or go,  
 But time's before you if your form is fine.

## THE FRIDAY MORNING LECTURES.

It was mentioned in the last number of the *Torch-bearer* that a system had been adopted in accordance with which prominent professional men were to give lectures to the Upper School on suitable topics. Some of these lectures were reported in the last number. Two more lectures were given during the second term, one by Sir Charles Rosenthal, the other by Dr. Gordon Craig.

Sir Charles Rosenthal chose as his subject his own profession, "Architecture." His choice of that profession, he admitted, had been quite fortuitous, but he had found it an absorbing interest. He described the means of entering the profession some thirty years ago, and compared them with those of the present day.

He brought forward for the consideration of intending architects the three methods of entering the profession—to enter an architect's office and the examination of the Australian Board of Architects; to take the course at the Technical College; and to take the course at the University. He advised those who intended to follow the profession to take the University course, if they could; and on the completion of their studies to visit Europe and America—Europe first, otherwise their views of America would be in false perspective.

With a few remarks on the social value of the architect's profession he

brought his address to a close.

Dr. Gordon Craig addressed the School on the profession of "Medicine." His first intention, he said, was to disabuse the minds of his hearers of the idea that much money was to be obtained through the practice of medicine. First there was a long and expensive University course; then a period of hospital work, essential for familiarizing the doctor with the details of his occupation; then, when he took over private practice, a considerable period when he had largely to live on his resources—unless, of course, he were wealthy enough, or his parents wealthy enough, to buy a practice outright. Then, too, there was the upkeep of his house and his car, both essentials to a doctor. However, though the profession did not make millionaires, a competent man could be sure of an adequate financial return for his services.

The medical profession, however, was predominantly an organ of social service. At the public hospitals the work of the honoraries was of the first importance. In addition to this the public demanded that in cases of emergency the doctor should always be ready to make his services available. He instanced the tram smash at North Sydney, which had necessitated the prompt appearance of the doctors, and unremitting labour, which was given entirely

free—a labour which frequently went unrecognised.

The first lecturer this term was Mr. Phillips, of the E. S. and A. Bank. He described the mode of entry to a bank's service, and traced the life of a bank officer from the time he begins as the most junior of clerks through the intervening stages of ledgerkeeper, teller, branch manager, until he reaches the exalted summit of the general managership. Mr. Phillips, however, held out no hopes that every bank officer could become a general manager, that was a prize attainable only by the exceptional. Still, a man of fair abilities and ambition could find himself eventually in a position of importance. He stressed the importance to a bank officer of being an active citizen. As a young official in the country, he should take part in local sporting activities; later on, in a country branch, he should identify himself with all measures of civic progress; thus he would gain the trust of the people in himself and in the bank which he represented. Such action would assist him, too, in gaining a knowledge of men. It was this knowledge of men, and the use which he made of it in furthering the bank's interest, which would largely determine his rise in the service of the bank.

Mr. Flashman, of the Westinghouse Electric Company, was our next lecturer. He dealt with electrical engineering as a career, and de-

scribed the great advances made in recent years in the application of electricity to industry. In no other career were such opportunities available to men whose sole capital was their brains. He instanced the case of Steinmetz, who came to America a political refugee, destitute, and a hopeless cripple, who was almost refused admission to the country on the ground that he was likely to become a charge on the community. This man, however, in the service of the Westinghouse Electric Company, had made discoveries of incalculable value, and made his name notable in the scientific world. There was any amount of work to be done in this field at the present time, as the extension of electrical power to the service of industry was just in its beginning.

Mr. Flashman concluded his lecture by displaying a number of interesting and elaborate graphs prepared by the American Bureau of Economic Research, in which were demonstrated numerous economic facts—the relation of wages to production costs; the immigration quotas of different races at different periods; the amount of production in given industries in different countries; and other facts of this nature.

Mr. Gibson, the following week, dealt with "Civil and Mechanical Engineering." He discussed the various methods of entering the profession, and advised those who intended to make engineering their career to

enter the University, if they could. After finishing their course they should go out and get practical experience. A well-paid position, for example, in a drawing office might be open to a man on completing his course, but it was preferable to go

into the shops or into the field, where the engineer could mix with men, study their habits, and learn their viewpoints. He would have to handle men in the future, and if he did not understand them he would be seriously handicapped.

NINE O'CLOCK.

### THE DEBATING SOCIETY.

The Society has experienced another successful year of activity.

Although it cannot be said that the Society has been able to boast of a greater membership, it has been noticeable that a greater interest was displayed by boys from lower forms. This is a very pleasing development.

For the first time in the history of the Great Public Schools Debating Society, a "B" grade competition has been found possible. The scheme has proved satisfactory, and is to be commended, both for the extra practice given to certain students, and for the added interest engendered in the societies of the schools.

Our teams performed very creditably in both the "A" and the "B" divisions.

On affirming "That the attitude of America towards other nations since 1918 is unjustifiable," we were defeated by the Scots' College by a few

points. However, we were successful against St. Ignatius College, who affirmed "That capital punishment should be abolished."

Our second team was successful against Sydney High School, but lost to the Scots' College.

The School was represented in the first grade by Bertie i (leader), Stewart, Woodhill, and Salmon; and in the second grade by Whatmore, Adam, and Keegan.

Another innovation has been the appointment of adjudicators to judge the whole of the debates in the group to which each is attached. This method has proved satisfactory, in that it avoids disappointments caused by the unavoidable absences of adjudicators, and also ensures a uniform standard of marking within the group.

We congratulate Sydney High School on their meritorious win.

### SONNET ON THE END OF TERM.

For ten long weeks our fortune has it been  
To attend the weary summons of the bell.  
Morning and evening we have heard its  
knell

Call us from bed, to meals, to school, I  
ween.

And many a time and often we have seen  
The sergeant-major, with his aspect fell,  
Pursue the loiterers in, or drill us well  
Upon that ground by some miscalled  
"green."

But now at last the end has come in sight.  
And soon upon the homeward track we'll  
be,

The School left far behind, for eight good  
weeks,

Far from the bell, and full of pleasure  
bright,

Bestriding gallant steeds with spirit free,  
Or loitering in the bush by lazy creeks.

L. P. FITZHARDINGE.

### TENNIS.

Two teams from the School took part in a most enjoyable match against the Old Boys on two courts, for the use of which we are indebted to Mr. Turnbull. The Old Boys' first four, captained by Byers, succeeded in defeating our first four in a close match, but our second four proved too good for their opponents. The inter-school competition will take place before the end of this term. Four schools are participating—Grammar, Newington, St. Joseph's College, and Shore. The following have been selected to represent the School:—First VIII: Bishop, Fowler,

Newlands, Tress, Goddard, Campbell ii., Reeve, Herbert. Junior VIII.: Neale, Newman, Molloy, Benjamin, Smith ii., Simpson, Westbrook, Ross. Shore has a strong combination to defeat in Grammar, but our teams should acquit themselves well. House tennis has been responsible for some hard tussels, and has provided many interesting matches. At the time of writing Hodges, Robson, and School are equal, but of these either Hodges or Robson should win, as they have one more match to play before the round is completed.

### ROWING.

This term work began by getting material for the House crews. The numbers available are very satisfactory, and the physique is good. At the time of writing, Robson House appear to have a good first four, while Barry House first four shows excellent promise. The usual weather variations have interfered to a considerable extent, and the standard of rowing, apart from the crews mentioned, is not as high as it might be; but there are sufficient indications of form to enable the material for Christmas Camp to be selected with certainty. The House Regatta will be rowed on Wednesday, December

3, and Thursday, December 4. Christmas Camp will commence on January 24, and will include members of last year's crews, Litchfield i., Hoare, Hipsley, Capel, Cowlishaw, Linton; and from the new material, Bell, Middleton, Plaskitt, Burton, Harkness i., and Harkness ii. appear to be the best. Twenty-four boys will be taken to the Camp, which will commence January 24, and end on February 2.

The training camp will, probably, commence on March 28, and continue until the heats, on April 29, and the finals, on May 2, are rowed.

The Boat Club Dance will be held

## THE TORCH-BEARER.

on Friday, March 20, at the War-ringah Hall, if this can be obtained. Members of past eights and fours are requested to make a note of this date, as the School is very anxious that this highly successful function shall be made as representative as possible. Out of the proceeds of past dances an eight and a four are to be provided, and a new set of racing oars is required.

The results of the House Regatta were as follows:—

### HEATS.

#### First Fours—

Robson beat School.  
Hodges beat Barry.

#### Second Fours—

Robson beat School.  
Hodges beat Barry.

### FINALS.

#### First Fours—

Robson beat Hodges.  
Barry beat School.

#### Second Fours—

Robson beat Hodges.  
School beat Barry.

This gives Robson House the Rowing Championship of the School, the points being:—

Robson . . . . .	13 points
Hodges . . . . .	8 "
Barry . . . . .	3 "
School . . . . .	1 "

### A BALLADE OF KOSCIUSKO.

That man might just as well be dead  
Who has not breathed the mountain air;  
To think of how we slept and fed,  
And how we lived when we were there!

The mountain summits, bleak and bare,  
Hold everyone that to them goes,  
A willing captive in their snare.  
What sport we had upon the snows!

As down the snow he smoothly sped,  
Who could have had a thought to spare  
If he should land upon his head,  
He'd only give the girls a scare!

His ski might break beyond repair,  
He'd plough the snow with scraping  
nose—  
He'd rise with exultation rare—  
What sport we had upon the snows!

With limbs so active, blood so red,  
What feat was there we would not dare?  
That jealous time, too quickly fled,  
Was all the grief we had to bear.

The lists were set, the field was fair,  
We settled with our friendly foes;  
Our enemies did well beware.  
What sport we had upon the snows!

#### (Envoy.)

My friends, who chanced that joy to share,  
You know, and there's no other knows;  
There's nothing like it anywhere!  
What sport we had upon the snows!

## THE G.P.S. ATHLETIC SPORTS.

The All Schools' Athletic Meeting of 1924 will be remembered for the great fight we made with the King's School for the premiership, and the high standard of the sport, the times being of the fastest. The result of the competition was in doubt up to the last event—the 440 yards Team Race and Championship. Although we won both the Championship and the Team Race, the King's School's third place in each event enabled them to gain a total of points exceeding our's by two. St. Joseph's were an excellent third. We congratulate King's on their victory. Stuart must be congratulated for two fine runs. Early in the afternoon he easily won the 880 in 2 min. 2 4-5 secs., and later won the championship division of the 440 in 52 4-5 secs. The latter win materially helped us to carry off the 440 yards Team Race.

Warden had a strenuous afternoon. He participated in no less than four events, and obtained points for the School in each one; he tied for third in the 220, came fourth in the 100 yards, fifth in the Broad Jump, and finished the day by winning brilliantly the third division of the 440 yards Team Race in 54 secs.—an excellent series of performances. Litchfield and Davis ran third in the first and second divisions of the 440 respectively.

In the Mile Team Race and Cham-

pionship, our representatives did not reproduce the form they had shown in training. Down ran fifth in the first division, McCausland won the second division by fifty yards in 4 min. 57 secs., Tress came second in the third division, and Lyne was third in the Championship. The position of the team was third to Scots' College and Sydney Grammar School.

In the Hugh Jump, Sautelle cleared 5ft. 6in., and came fourth. Commins gained third place in Putting the Shot.

S. M. Smith's good third in the Hurdles was a most meritorious performance. Up to the Monday before the meeting he had been training for the Mile, but when Booth became sick, Smith had immediately to take his place as our representative in the Hurdles. He came in three yards behind Rylance in 17 secs. was very good indeed.

In the junior events we were not very successful; we lost to The King's School the Junior Athletic Shield. Among the juniors, F. Baylis put up an excellent performance, winning the Hugh Jump under 14 with a jump of 4ft. 11½in.—a record.

The events in which our representatives gained places were as follows:—

220yds. Championship (under 14), P. Hemery, 3rd; 220 yards. (open), D. A. War-3rd; High Jump (under 14), F. Baylis,

1st (4ft. 11in.—record); Half-mile Championship (open) C. S. Stuart, 1st (2, 24-5); High Jump (under 16), T. F. Cowdroy, 2nd; Putting the Shot, G. Commins, 3rd; 100yds. Championship (under 14), P. Hemery, 4th; 100yds. Championship (open), D. A. Warden, 4th; High Jump (open), G. C. Sautelle, 4th; Broad Jump (open), D. A. Warden, 5th; 120 yards Hurdles (open), S. M. Smith, 3rd. The team for the Mile was made up as follows: J. E. Down (1st Division, 4th, V. L. McCausland (2nd Div., 1st, time 4, 57 3-5), F. B. Tress (3rd Div. 2nd). M. T. Lyne (4th Div., 3rd). The team for the 440yds. Team Race and Cham-

pionship consisted of the following: D. R. Litchfield (1st Div., 3rd), L. Davis (2nd Div., 3rd), D. A. Warden (3rd Div. 1st; time 54 secs.), C. S. Stuart (4th Div., 1st, 52 4-5 secs.)

The final points were as follows:—  
The King's School, 47½ points;  
S.C.E.G.S., 45½; Scots' College, 42;  
Sydney Grammar School, 34; St. Joseph's College, 31½; Armidale, 9½;  
High School, 1½; St. Ignatius, 1;  
Newington, 0.

### THE LIBRARY.

During the past term, the popularity of the library has steadily increased. Section B (general fiction) has been greatly increased, and all the new books have been out since they were put on the shelves. The library is now in excellent working order; and boys have no difficulty in finding the books they desire.

The new system of direct access to the book-shelves has been a distinct success. By having direct access to the shelves, the attention of boys from all forms has been directed to the historical, critical, and travel sections, and increasing numbers of these books have been taken out. At first it was thought that this system would increase the damage to the books, but this has not been the case, except in Section A (juvenile fiction), which is mainly used by the smaller boys.

The success of this experiment has led the committee to decide to introduce a new system of issuing books. Each book will have a card placed in a pocket at the end, and when the book is taken out, this card will be removed and the name of the borrower will be written on it. By this system it is hoped that a closer check will be kept on all books issued, and the committee will know as soon as a book is overdue. It is also hoped by this system to prevent the loss of books. This system will be introduced during the coming vacation, and should be in full working order next year.

The committee has done excellent work during the term, but has been hampered by Leaving Certificate work. The reading room has maintained its popularity, and there is now an excellent stock of periodicals.

Many new books have been added during the term, including "A History of Australian Land Settlement," "The Conquest of the River Plate," "A Short History of the Near East," "The Boys' Book of Wireless" and "Practical Radio," which were recently added, have been in great demand. To Section L (travel) "Head Hunters of the Amazon," and "Beasts, Men and Gods" have been added. Section D (poetry and criticism) has been increased by "The Classic Myths in English Literature," "The Gentle

Art of Authorship," and "On the Arts of the Theatre." The following have also been added: the complete works of Joseph Conrad (20 vols.), the complete works of Rudyard Kipling (20 vols.), the works of P. F. Wodehouse (6 vols.), the works of John Buchan (6 vols.), and also "General Bramble," "Scaramouche," "The Sea Hawk" and "Command."

A very fine bookcase has been presented by Mr. A. W. Moffatt, and for this the committee thank him. It will be a fine addition to the library.

### THE ATHLETIC SPORTS MEETING, 1924.

The thirty-third annual meeting took place on the Memorial Grounds, Northbridge, on Tuesday, August 26. Early in the morning there was a downpour, but before the first event the rain cleared away and, but for bad gusts of wind, the afternoon proved quite agreeable. There was a large attendance of parents and friends and Old Boys, and great interest was taken in the various competitions. The high jumps, in all grades, were particularly good.

The Senior Shield and Headmaster's Cup were won by C. S. Stuart (37½ points); the Junior Shield and Randal Carey's Cup by B. S. McDonald (17 points), and Mr. J. P. Hardy's Cup for the best athlete under 14, by G. G. Moore. (10 points).

The officials were as follows:—

**Committee:** The Headmaster (President)

### RIFLE SHOOTING.

The usual shooting "camp" was held at Taormina, but owing to the militia camp taking place in the second week of the holidays, the shooting camp began ten days earlier than usual. The shooting under the new conditions (service rifles and

sights, "tin-hat" targets) was of a high standard, higher in fact than that which was reached by any team in the actual matches.

The latter were held at Randwick on 16th and 17th September, and as T.K.S. S.G.S., and S.C.E.G.S. each

won a match, a second place and a third place, tying on points, the premiership was decided on the aggregate of the scores, hits in the Buchanan Shield counting as two points each.

T.K.S. came first with 712 points, S.C.E.G.S. second with 710 points, and S.G.S. third with 708 points.

We heartily congratulate T.K.S. upon their second win in succession.

The following were the scores in the individual matches.

**RAWSON CUP.**

7 shots at 200 yards and 300 yards, small tin-hat target.

1, T.K.S. . . . .	381
2, S.G.S. . . . .	367
3, S.C.E.G.S. . . . .	361
4, N.C. . . . .	335

**School.**

W. K. Cowlshaw . . . .	26	24	50
E. Siddins . . . . .	23	13	36
G. M. Taylor . . . . .	26	22	48
G. Mander Jones . . . .	25	20	45
G. Commins . . . . .	26	17	43
E. F. Fowler . . . . .	24	23	47
R. Heane . . . . .	23	21	44
E. K. Holden . . . . .	26	22	48

Totals . 199    162    361

**N.R.A. SHIELD.**

10 shots at 500 yards, large tin-hat target.

1, S.G.S. . . . .	247 (12 centrals).
2, S.C.E.G.S. . . . .	247 (10 centrals).
3, T.K.S. . . . .	235 (17 centrals).
4, N.C. . . . .	222 (11 centrals).

A particularly fine finish. S.C.E.G.S. finished last owing to delays in

marking, and the last two men, Heane and Holden had to make 70 to win, a formidable task, as 36 was the top score of the match, and owing to the delay they only had 15 instead of the full allowance of 20 minutes. Heane made 34 and Holden 35, tying in score with S.G.S., who won on a count out by 12 central bulls to 10.

**BUCHANAN SHIELD.**

Eight exposures of 6 seconds each, 300 yards snaphooting at tin-hat disc.

1, S.C.E.G.S. . . . .	51 hits
2, T.K.S. . . . .	48 hits
3, S.G.S. . . . .	47 hits
4, N.C. . . . .	28 hits

Commins, Heane and Merewether shot particularly well, putting on 10, 9, and 9 hits respectively.

The combined G.P.S. Rifle Team fired against the 1st Divisional Engineers at Long Bay on 20th September, the conditions being the same as those of the Buchanan Shield and the N.R.A. Shield. The Engineers won by 29 points. S.C.E.G.S. had four representatives: W. K. Cowlshaw, R. Heane, E. K. Holden, G. Commins.

The following rifle shooting awards were made:—

Colours.—W. K. Cowlshaw, E. K. Holden, R. Heane, G. Commins, G. M. Taylor, E. F. Fowler.

1st R.—G. Mander Jones.

School Blazer.—F. W. Merewether, E. Siddins, B. S. Croft, D. K. Donald, F. H. Hinder.

“SPARE THE ROD AND SPOIL THE CHILD.”

It was old King Solomon  
Who once to men did say:  
To spare the rod and spoil the child,  
Is true, you'll find one day.”

Not only is this proverb  
Meant as literally as said,  
But in many other cases,  
Of which you must have read.

To begin with, take a baby,  
If it's not taught to be good,  
Fairly strictly, when it's younger,  
Soon it won't do what it should.

Or even take some class-room,  
Where the master is not firm,  
There the boys will all be spoilt,  
For they'll get the lazy germ.

An army, where the discipline  
Is not kept well at first,  
Will eventually be worthless,  
As a Mills' bomb that has burst.

So, hearken to this proverb,  
All of you who understand,  
That the future's of more value  
Than the present you've in hand.

### BOXING.

On the 12th, 13th and 15th August the School Boxing Tournament was held in the School Hall. Mr. Taylor, of the Dupain Institute, acted as referee.

The Open Championship was won by M. T. Lyne (Hodges House). His opponents were unable to meet him, but Hinder fought three rounds with him, in which, as he expected, he was quite out-classed, but showed himself a glutton for punishment.

T. M. Scott (Hodges House) won in the under 11 stone class; F. Bell (Robson House) the under 10 stone 7 lbs.; R. M. Swire (Barry House) the under 10 stone. In the under 9 stone 7 lbs., Sheaffe (School House) and Allerton (School House) fought what was perhaps the most desperate

battle of the competition. After four exhausting rounds, the fight was declared a draw.

The other events and winners were:—Under 9 stone, De Groen (Robson House); under 8 stone 7 lbs., Scott (Robson House); under 8 stone, Carson ii. (School House); under 7 stone 7 lbs, Millyard (Robson House), Heath (School House)—a draw; under 7 stone, Miller (Robson House); under 6 stone 7lbs., Ross (School House); and under 6 stone, Kearney (Barry House).

Robson House won the competition with 64 points; School House was second with 45 points; Hodges House was third with 39 points; Barry House gained 26 points.

### CRICKET.

#### 1st XI.

The year has again been a very successful one. At the present time, at the end of the competition matches, the School is in line with Sydney Grammar School, and a play-off will again be necessary. One only of the seven competition matches was lost. The team has performed satisfactorily during the whole year, compiling a total of 1239 runs in the competition matches at 25.3 runs per wicket, as against 1056 runs at an average of 12 runs per wicket scored against us. One of the seven

matches was won by an innings, and two others by ten wickets.

The bowling has rather lacked variation, and the team has been without a true slow bowler in the second half. Allen and Smith, both left-handers, have carried out most of the attack, while latterly Salmon has obtained a fair number of wickets. The batting generally has been sound, and the "tail" has greatly improved. Salmon, together with T. Egan, of T.K.S., found places in the N.S.W. 2nd XI., and performed well. The School congratulates these two.

In the trial match between N.S.W. 1st and 2nd XI's Salmon made 95 (not out), and on the northern tour 13 and 27 (not out) v. Queensland; 18 (retired) v. Northern Rivers; and 51 v. Newcastle.

### COMPETITION MATCHES.

v. **The King's School.**—Played at Par-ramatta on Saturday, October 25, and Monday, October 27, and lost by 154 runs on the first innings. Maurice won the toss, and King's had first use of an excellent wicket. B. Egan and G. Hogg opened the innings to the bowling of Smith and Salmon. The start was sensational, and three wickets were down for 12 runs, and 4 for 65. J. Hogg and T. Egan then became associated in the partnership of 158 runs, which really won the match for King's, as it tired the bowling, and gave the tail a chance of making runs. J. Hogg's 115 was a very fine innings. T. Egan batted very soundly for 69, and his innings was invaluable to his side. The rest of the team all made runs, but might have punished tired bowling more than they did. The innings closed for 354. The fielding, on the whole, was good. Salmon (5 wickets for 77) bowled very well, and was always dangerous. Scott and Merewether opened the innings for the School with a little over an hour to play. At the end of the day the score stood at 1 for 9. The match was continued on Monday. Merewether did not increase his score of 37, but Tyrrell batted till the last man was in for 90, when he was bowled on a ball that kept low. His innings was a great effort to save the game. He was slow, but his runs were made without a chance. Hattersley (21) was the only other to offer much resistance to the bowling. T. Egan, 5 for 69, was the most successful bowler for King's, but did not appear as dangerous as he was last year. J. Hogg, 2 for 45, really bowled very well, and used his head, breaking sharply from the off, and changing his pace very well. He should go a long way in cricket. He is a fine bat, a sound field, and a very promising bowler. The innings closed for 200, a low score for a team which really has some very good batsmen. King's field-

ing was good, but not as good as last year, when the fielding of both sides in the play-off was brilliant. Scores:—

v. **The Scots' College.**—Played at North-bridge on Saturday, November 1, and Monday, 3rd, and won by ten wickets and three runs.

Crighton-Smith won the toss from Salmon, and elected to bat on a wicket which

was easy after rain. After a little over an hour's play rain fell heavily, and the game was postponed till Monday. The score stood at 1 wicket for 38. On Monday the wicket was easier than it was on Saturday, but the batsmen mistook a batsman's for a bowler's wicket, and the Scots' team was out for 54, nine wickets falling for the addition of 16 runs. Salmon, 6 for 25, was again responsible for the dismissal of the team. He bowled very accurately, and swung and broke both ways. Peters, 21, was the highest scorer for Scots'. He is a sound bat, and has lately played very well in All Schools' 2nd XI. against the N.S.W. Cricket Association. Merewether and Smith, both 26 not out, cleared the score without loss of a wicket, and the game was finished before lunch. For Scots', Taylor bowled well. He shows considerable promise as a bowler, and had both batsmen in difficulties. The fielding of both sides was sound. Scores:—

**v. St. Ignatius College.**—Played at River-view on Saturday, November 9, and Friday, 15th, and won by 153 runs on the first innings.

Owing to heavy rain on the Friday night, play did not start till 1.30 p.m. on Saturday. St. Ignatius won the toss, and sent the School in to bat. The wicket was difficult, but Merewether and Smith put on 42 before being separated. Allen's innings of 72 was faultless, and, as at King's School, he was very unlucky in being out to a good shot on the leg. He is a good wet-wicket bat, and punished the bowling. Salmon, 43, played well after a rather uncertain start, but fell a victim to a ball well off the leg stump in trying to hit it out of the ground. He showed more sparkle than in any other innings of the term. Tyrrell was again solid with 20. He should develop into a first-class batsman if given an opportunity to remain in the city. For St. Ignatius, Westfield bowled very well, although he only got one wicket. As a slow bowler he is very promising. He keeps a good length, and fights the ball well. St. Ignatius began its innings with just over an hour to play, and at the end of the day had lost 4 for 33. The game was continued on the following Friday at 3.30 p.m., when the innings was finished for 87. Quilter, 23, and McAlan, 18, were the chief run-getters, but neither was enterprising; their batting was very slow. Merrett, 3 wickets for 2, bowled very well indeed, breaking from the off, and swinging away. Salmon and Allen both bowled well. Scores:—

**CHARACTERS OF THE XI.**

**B. M. Salmon.** captain: 1923-1924, has managed the team well, and made the best use of his few bowlers. The greatest left-hand batsman the School has yet produced. A magnificent outfield and cover-point, and rapidly improving bowler, who makes the best of a new ball, swings and breaks both ways, and knows the meaning of length. Captain of All Schools' 1st XI., 1923-1924; All Schools' 1st XI., 1922-3-4; Colours, 1920-21-22-23-24; N.S.W. 2nd XI., 1924; Captain of Cricket, 1923-1924.

**J. H. Byers.**—A very fine left-hand bat, who has left school too early. He should have kept to the game, when a great future was open to him. The call of the country has caused the loss of another great cricketer. A good slow bowler, who bowled with his head; a very safe field. All Schools' 2nd XI., 1922; 1st XI., 1923; Colours, 1922-23-24.

**G. N. Mackellar.**—Wicket-keep. Has kept wickets constantly well, and at times brilliantly. A sound right-hand bat, with shots all round the wicket. Has greatly improved his play in front of the wicket. A very fine slip-field. All Schools' 2nd XI., 1922-23; 1st XI., 1924; Colours, 1922-23-24.

**S. M. Smith.**—Medium to fast left-hand bowler, who swings both ways, and varies his pace. More use could be made of his slow ball. A vastly improved batsman, who has generally opened the innings with success. A good field. All Schools' 1st XI., 1923-24; Colours, 1922-23-24.

**P. H. Allen.**—A very successful left-hand bowler, who has bowled consistently well, maintained an excellent length, and breaks both ways. A greatly improved batsman, and one of the most useful members of the team. A safe field. All Schools' 2nd XI., 1924; Colours, 1924.

**F. W. Merewether.**—A sound opening batsman, who has had considerable success; rather weak in forward play; a good field. All Schools' 2nd XI., 1924; Colours, 1924.

1st RIFLE TEAM.

Back Row (left to right): G. Commins, G. Mander-Jones, G. M. Taylor, R. Heane.  
Front Row: E. K. Holden, J. R. O. Harris, Esq., W. H. Cowlshaw (Capt.), E. M. Bagot, Esq., E. F. Fowler.

**F. Tyrrell.**—A very sound and vastly improved right-hand batsman; is rapidly improving his play in front of the wicket; his back play is safe. A very useful all-round member of the team. All Schools' 2nd XI., 1924; Colours, 1924.

**C. D. Cadwallader.**—A hard-hitting right-hand batsman and change medium pace bowler; rather a weak starter, but when going makes the best use of his time at the wickets. A very fair field. Colours, 1924.

**H. Hattersley.**—A hard-hitting and greatly-improved right-hand bat; is rapidly making his defence sound, and shows considerable promise; a change slow bowler. Colours, 1924.

**T. M. Scott.**—A much-improved batsman with a sound defence; has greatly developed his forcing shots, and uses his feet well. A very safe slip-field. Colours, 1924.

**E. Merrett.**—Medium to slow right-hand bowler; keeps a good length, and breaks back; makes good use of a new ball. A splendid field at cover-point. All Schools' 2nd XI., 1923; Colours, 1923-24.

**G. J. Wilkinson.**—A young right-hand bat of promise. At present his foot-work is weak; when this is corrected he should become a very forcing bat. A very good field. 1st XI., 1924.

### 2nd XI.

This term we have lost five and won three matches. The chief factor contributing to these losses has been poor fielding, not merely in dropped catches, but in a lack of sure, clean picking up and anticipation. A fieldsmen must be on the alert all the time, moving in quickly to meet the ball, and returning smartly. That this can be done was shown occasionally. There is plenty of good material in the team, which was as keen as

usual; the bowling and the batting in particular improved greatly in the last month.

We came level with T.K.S., and in the play-off T.K.S. beat us by 169 runs after a most interesting game, which ran into the third day. In all, 987 runs were scored, which must be nearly a record for a 2nd XI. match. Twice we seemed to be well on the way to winning, when first our opponents lost seven wickets for 49 in the first innings, and again when we had four of their wickets down in the second innings, and still were seven runs ahead. At this point T.K.S. played forceful cricket, and, taking advantage of many dropped catches, and several which with a quick movement might have been made, they put up the big score of 376, leaving us to make 315 to win. Murdoch and Carey put on 113 for the first wicket in the first innings by really good batting, while Lane and Williamson did well in the second. Hoare, Williamson, and Pitt got most of the wickets. Pitt sends down far too many short ones for a slow bowler. Allerton came in as wicketkeeper, and performed very well, both behind the stumps and with the bat for a first appearance.

Williamson proved a keen, energetic captain, setting a splendid example to the team for general all-round hard work.

### G.P.S. OLD BOYS' UNION AT MURWILLUMBAH.

On Saturday, October 11, the Murwillumbah G.P.S. Old Boys' Union held their second annual dinner on the occasion of the G.P.S. Sports being held in Sydney.

Arrangements had been made to have a telegram sent to the President (Dr. McEvoy) as soon as the results were known. This was received during the course of the dinner, and after the royal toast had been honoured, the president announced that The King's School had won both Senior and Junior Championships.

The following extract from the *Tweed Daily* (Murwillumbah) 13/10/'24, gives a brief account of the evening:—

It was the occasion of the Murwillumbah G.P.S. Old Boys' Union's second annual dinner, when some 25 Old Boys ranging in ages from middle age to youth, who had left the school within the year, met at the Paramount Café, Murwillumbah, on Saturday night. The dinner had been arranged for the night of the athletic sports, which were the principal topic of conversa-

tion. For two brief hours the humdrum affairs of everyday life were laid on one side, and the glorious, care-free days of school life, enhanced by the distance of years, were lived again.

Eager eyes watched the President as he produced a telegram containing the result of the races, forwarded by Dr. Goldsmid, an Old Boy at present in Sydney.

"It's King's!"

"King's! Good on them."

How pleased they seemed. True to their great School traditions, these Old Boys knew how to take a beating, and be the first to congratulate the winners.

The five King's School Old Boys present, proud that the present generation was maintaining the Old School's traditions, bore their honour modestly. And so the evening progressed all too swiftly.

Proposing the toast of "Our Union," Dr. McEvoy (St. Ignatius' College) said their aim must be to make the Union a live body. He was pleased to see so many Old Boys present, particularly the younger members. The attendance was even better than at last year's dinner, and he hoped that it would get still better year by year.

Mr. A. R. Hynes (St. Joseph's College) proposed the toast of the winners of the Public School Sports. He congratulated The King's School on winning both the

Senior and Junior Championships. Referring to the Murwillumbah Union, Mr. Hynes said it was almost unique. While in many country towns Old Boys of a particular school had their Union, in very few towns was there a Union such as they had in Murwillumbah, where the Union comprised Old Boys of all the Great Public Schools. Functions such as their annual dinner should be encouraged.

They would overcome the paltry spirit of pettiness and sectarianism that was retarding the community's progress, and would foster the spirit of comradeship and the ideal progress of the nation as a whole and not as a section. He was sure that the healthy rivalry that existed between the schools would not prevent everybody from cheering the winners of that day's race.

Mr. G. T. Glennie (The King's School) responded. He had thought that King's School would go close to winning, and he was not surprised at the result. He felt pleased that the school he went to many years ago came out on top.

The toast of the Great Public Schools was proposed by Mr. Goldie (S.G.S.). These schools, he said, stood for all that was best in sport and other things, and he hoped that they would continue so. He was certain that on the Sports Ground

that day the winners would be cheered as heartily by those that were beaten as by those that won, and that was the spirit they wanted to encourage.

Mr. G. S. Taylor (S.C.E.G.S.) responded.

At the conclusion of the dinner, members attended the School of Arts pictures at the invitation of the president.

All the G.P.S. were represented except the Scots' College. Shore's honour was upheld by four: Mr. Charles, G. S. Taylor (Secretary of the Union), A. H. Witts and F. H. Ellerton, and it was decided by these that an account of the Union in Murwillumbah be sent to the *Torch-bearer*, not only to show the interest taken in the schools by the Old Boys Union here, but in the hopes of starting similar movements in other country centres.

In these gatherings the spirit of comradeship learnt on the playing fields of the G.P.S. is brought into the citizenship of Australia, and it is forming a healthy foundation on which the country is being steadily built.

The Annual Meeting was held at the School on September 26th. In the afternoon the usual cricket matches were played against the School—an account will be found in the cricket article of this issue. In the evening there was a very large gathering of Old Boys at tea, which was kindly provided by the Headmaster and the School Council. The only speeches were by Mr. R. C. M.

Boyce, who proposed a vote of thanks to the Council and Headmaster, and the Rev. Canon Charlton, who replied on behalf of the Council. The Rev. D. Davies also said a few words about his forthcoming resignation. There was again a large attendance for the Annual Meeting in the School Hall. The annual report was read by the Hon. Secretary, and the annual balance sheet by the Hon. Treasurer. Both are printed in this article.

The result of the elections was as follows:—

**President:** L. C. Robson.

**Vice-Presidents:** I. D. Armitage, R. C. M. Boyce, R. W. Carey, A. H. Moseley, F. G. A. Pockley, D. Williams and A. B. S. White.

**Hon. Treasurer:** D. Davies.

**Hon. Secretary:** S. W. Crane

The result of the post ballot for the election of Committee resulted in the following being elected:—L. L. S. Barr, W. N. Cadwallader, J. R. O. Harris, R. G. O. Harris, A. A. Heath, N. D. McIntosh, D'Arcy F. Roberts, V. H. Treatt, G. C. Turnbull.

#### OLD BOYS' UNION ANNUAL REPORT.

Gentlemen,

Your committee has pleasure in submitting its report for the past year.

Since last Annual General Meeting, 17 life members and 145 ordinary members have joined the Union. We now number 681 financial members, of which 164 are life members. In addition, 199 have not paid their subscriptions for the current year, and 57 have not paid for 1924. Most of these will come back.

The tea given to members of the Union last year by the Headmaster and the Council was attended by about 200 Old Boys. We ask our hosts to accept our sincerest thanks.

The Annual Dinner was held on May 2nd, and was poorly attended. So long as members preserve their lethargic attitude to the Union's activities, its usefulness is considerably impaired. Last year forty members attended without advising those in charge, while in the year under review 35 who had expressed their intention of being present did not attend. This makes it impossible to make proper arrangements. Next year it is proposed to have the dinner on the Wednesday prior to Good Friday, and to have a musical programme after the function. A theatre evening was held in July, sixty members and friends being present.

The annual cricket match against the School was drawn, the Old Boys winning the football match. Last Saturday a team of twelve Old Boys played the School tennis, the result being a win for us by 13 sets to 11.

The annual dance was held at the Wenworth on June 12th, and was well attended.

#### THE MEMORIAL GROUNDS.

During the year steady progress was made in the improvement of the grounds, for particulars of which members are referred to the annual report of the Grounds Committee, as published in the last *Torch-bearer*.

The Fête continues to be the main source of revenue to that Committee, and the Old Boys as a whole certainly cannot pride themselves on the assistance they give the hard-working and enthusiastic Fête Committee in the very excellent work they are performing.

The Old Boys' Union scholar is M. T. Lyne, who is the first son of an Old Boy to be awarded our scholarship. He is a member of the 1st XV., won the mile race

at the last G.P.S. sports, and won the School heavyweight boxing championship.

The Committee takes this opportunity of congratulating the following Old Boys:—

O. C. Crossman, who represented the State in international football, and also won the Rugby Union 100 yards championship.

B. W. Windeyer, who was a member of the 1st University XV., which won the Shute Shield.

N. Peach, R. Spencer, A. H. Berckelman and N. D. McIntosh on their wins at various tennis championships.

R. B. Minnett on his election as one of the three State cricket selectors.

E. H. Manning, M.C., on his being awarded the D.S.O. for services in Kurdistan.

E. Mander Jones on obtaining first-class in Greek and second-class Honours in History.

W. N. Little on being equal first for the Clipsham Memorial Prize for Operative Surgery and Craig prize for Operative Surgery and Surgical Anatomy.

F. C. Stephen, on being *proxime accessit* for the Pitt-Cobbett prize for Public International Law.

During the year the School and the Union have suffered a very great loss by the death of Mr. A. D. Hall. Everyone knows his wonderful work for the School in every way, and as one of our committeemen his advice and experience were of very great value.

The Old Boys' Club was formed during the year under the auspices of the Union, and is making good progress. The members at present number over 400, but it is hoped that many more will join as the Club fills a long-felt want and fills it very well.

After prolonged negotiations with the Standing Committee of Synod, regulations were formulated which empower the Union to elect five representatives to the School Council. The first election, however, was for three only, as previously explained by

circular to members, A. H. Moseley, G. A. Pockley and Dudley Williams being elected.

### SCHOOL SPORT.

On the whole, the School has had a successful year with its various sports. The athletic team rose to the occasion in a remarkable manner, and confounded the critics by winning the Athletic Shield by a good margin of points. We heartily congratulate them.

In cricket, we were level with The King's School at the end of the competition and in the play-off, during which the advantage was constantly shifting, we were defeated.

The eight this year again did well on the first day, and put up a great race under adverse conditions on the second day, losing by half a length.

The second four, by sheer doggedness, won their race and have our congratulations.

The School's football results were not as good as those of last year, being due very largely to lack of combination in the backs, as the forwards at least held their own with any of the other School packs.

We congratulate the rifle team on dividing the premiership with S.G.S. and T.K.S. and on winning the Buchanan Shield. We tied with S.G.S. for the N.R.A. Shield, but lost on the count out.

The eights race was won by Sydney Grammar School, while the football premiership was divided between T.K.S., S.G.S. and S.J.C., to whom we offer our congratulations.

The fund for the East Window in the Chapel is still considerably short of the amount required, at least £250 still being wanted.

Once more we tender our thanks to Messrs. Brooks and Deane for the use of their office for Committee meetings.

During the year there were nine Committee meetings, the attendance being as follows:—Rev. D. Davies, J. R. O. Harris,

N. D. McIntosh, G. C. Turnbull, A. B. S. White, S. W. Crane, nine; Rev. J. D. Armitage, R. C. M. Boyce, R. W. Carey, N. Y. Deane, R. G. O. Harris, seven; A. H. Curlewis, F. G. A. Pockley, L. C. Robson, D. Williams, six; A. H. Moseley, five; A. A. Heath, four, F. D. Hixson, three; G. Black, W. A. Purves, one. The following held office for portion of the period only:—H. H. Dixon, A. D. Hall, four; G. R. Hamilton, J. K. Eaton, three; R. S. Read, two; R. C. Anderson, one.

In conclusion, gentlemen, the committee hopes that the coming year will be a most successful one, both for the School and the Old Boys' Union—the results for the latter very largely lie in your hands, for without your co-operation we can do very little.

For the Committee,  
S. W. CRANE.

K. E. Miller has been granted his L.L.B. degree.

H. F. Wilson was the stroke of the victorious St. Paul's College crew at the recent collegiate regatta.

Despite rumours to the contrary, Jack Gregory's leg seems to be quite well, and we trust he will again distinguish himself in the forthcoming cricket tests.

A team of twelve Old Boys recently played tennis against the School and won by thirteen sets to eleven (after a most enjoyable game).

L. S. Dudley is returning to his missionary work at Hyderabad, India, early in January. He will preach in Chapel on Sunday, December 7th, at 8 p.m.

V. H. Treatt has been elected sub-warden of St. Paul's College, as from the beginning of this year. Old Boys of the School have held this position since the end of the war, the two previous being L. B. Heath and K. B. Voss.

G. N. Mackellar has been elected Old Boys' scholar. Mackellar was a member of the 1st XI., 1922-23-24, with colours each year. He played in the G.P.S. 1st XI. in 1924, and for the 2nd XI., 1922 and 1923. He obtained 1st XV, colours in 1924. He represented the School in the G.P.S. Junior Athletics in 1923. He was made a sub-prefect in 1924.

Congratulations to O. D. Meares on winning the country golf championship of N.S.W. for the third time.

**S.C.E.G.S. OLD BOYS' CLUB.**

The Club has now been opened to members since the 21st of January, 1924. The present membership is 436. The next financial year begins on the 21st January, 1925, and it is hoped that Old Boys who have not yet joined will do so, so as to become members in the new year. The subscription is £1/1/-, and entrance fee £1/1/-, and may be sent to the Honorary Secretary, Mr. G. C. Turnbull, S.C.E.G.S. Old Boys' Club, "Cromer," Phillip Street, Sydney. Old Boys who join within three months of leaving School can join without paying an entrance fee.

During the year there has been a very pleasing increase in the membership of the Club, and in the number of members who are making a constant use of the club.

The club has now acquired a new room, which will be furnished in such a way that members can have their lunch there, and so that it can also be used as a dressing-room and card-room. The committee hope to arrange with some firm to supply a light luncheon in the new room early in the new year, and members will be notified when this has been done.

The last year has been occupied to a great extent in settling down, and the committee hope to extend the club activities very considerably next year. It is hoped to make arrangements to play the School in cricket, football and tennis.

It is also proposed to invite the School to hold a debate against the Club; also to hold club debates as well.

The club held a dance at Sargents, Market Street, in September 12th. Although it was a most successful dance, about two hundred being present, it was disappointing that more members did not endeavour to be present, as these functions must have the hearty co-operation of members to ensure their success.

The club has its own brand of cigarettes, which are on sale at the following prices:—A grade, boxes of 100, 8/-, boxes of 50, 4/-, boxes of 18, 1/6; B grade, boxes of 100, 5/-, boxes of 50, 2/6, boxes of 20, 1/-. Many country members have written down for the large boxes, and the Hon. Secretary would be glad to forward any orders for these cigarettes on application to him. (Postage, 6d.).

A cigarette machine has been installed at the club.

A club evening is held on the first Tuesday of every month, and has proved a success, about forty members usually attending.

Mr. Bagot represents the club at the School, and has done the club excellent service by enrolling new members from amongst the boys leaving school.

The following are members of the club:—

**President:** Dudley Williams.  
**Vice-President:** N. Y. Deane.  
**Hon. Secretary:** G. C. Turnbull.  
**Hon. Treasurer:** N. D. McIntosh.
