**SCHOOL NOTES.**

On February 5, F. C. Taylor was appointed Senior Prefect, T. T. Halstead was appointed a Prefect, and D. L. Carson and H. V. Walcott Sub-Prefects. On February 8, R. S. Miller was appointed a Prefect.

At the end of last year we lost the services of Mr. M. W. Ashton. We welcome in his place Mr. E. B. Lester, M.A. (Melb.), who comes to us from Geelong Grammar School.

At the break on Wednesday, March 27, the Staff gathered in the

Common Room to make a presentation to Mr. Robinson, in view of his approaching marriage.

Two of the keenest and best cricketers whom the School has produced, A. B. S. White and N. Y. Deane, played at the School at the same time. Old Boys will be interested to know that E. S. White and N. G. Deane, who are now playing together in the 1st XI., are their sons. Each already has to his credit performances worthy of his name.

Mr. I. F. Jorics has been granted the degree of M.A.

At the meeting of the Standing Committee of Synod held on February 25, Rev. E. F. N. Cash was elected a member of the Council in place of Rev. F. W. Tugwell (resigned), and Rev. O. G. Dent in the place of Rev. W. G. Hilliard (resigned).

The Boat Club Dance was held this year on Friday, May 3, at the Warringah Hall.

The Drill Squad was successful in winning the Kirby Shield at the annual Military Sports at the Show Ground on April 13. The Squad did not drill by any means up to

practice form owing to the heaviness of the ground after a wet morning, and the difficulty of hearing the word of command owing to the proximity of the band. In spite of this, the win by 169 points to 145 was a very substantial one, and reflects credit on the S.M. and the boys who took part. If one item is to be singled out for praise beyond others, their turn-out deserves special mention. Their names were as follows:—H. H. Braund, R. B. Shetliffe, L. H. Watson, O. Hilbert, T. T. Halstead, H. McIlrath, R. G. Harvey, J. K. Thompson, L. S. Bunnell, G. P. Evans, J. L. Barnes, A. I. Fraser, C. M. Bradford, H. G. Brown, A. Wood, R. E. Evans, J. R. Sheaffe, R. H. Spring, R. R. Young, and W. G. Blix.

### SPEECH DAY, 1928.

Thursday, December 13, was Speech Day. The Archbishop presided, and Sir Henry Braddon was the guest of the day. A large number of parents, Old Boys, and other friends of the School, was present, and a fine day provided the setting for a pleasant afternoon.

The first event of the day was the inspection of the guard of honour, commanded by Captain E. Mander Jones, which was drawn up on the lawn near the Chapel. This was followed by the usual short Chapel service.

After Chapel, the rest of the day's proceedings took place in the marquee on the ground.

The Archbishop spoke briefly opening the proceedings, and welcomed Sir Henry Braddon.

The Headmaster then read the following report:—

**My Lord Archbishop, Sir Henry Braddon,  
Ladies and Gentlemen,**

I extend a welcome to your Grace on behalf of the School. We know that, as President of our Council, you are much more than ordinarily interested in our affairs, and are delighted that you have been able to spare the time to be here.

I also welcome Sir Henry Braddon as one whom the School is proud to claim as an old friend.

I have the honour to submit my report of the activities of the School for the past year. It has been a year of varying fortunes; but the general average has been very satisfactory. If the number of applications for enrolment is any indication of sound service to the community, then we may reasonably feel that we are doing good work. At the beginning of the year we were compelled to refuse a considerable number of applications, and I find myself again in the same position. It is pleasant in one sense, but not without embarrassment. It would be a great help if those who have a relation to the School, such as Old Boys and parents of Old Boys, were to forward applications on behalf of their sons in good time. It is a really worrying embarrassment to be faced with the alternative of disappointing a friend of the School or filling a class beyond its reasonable limit. The number on the roll this year, including those who were enrolled for part of the year only, is 660.

The passes in the Public Examinations were quite up to the standard of past years. Thirty boys gained the Leaving Certificate, and 70 gained the Intermediate Certificate. We did not hope for great things from the majority of our Leaving candidates, but had great faith in the best boys: we were not surprised by the results, for there were, on the one hand, more hard passes than usual, but on the other hand we secured the top place in the examination. T. Dunbabin closed a brilliant school career by sharing the Prize for General Proficiency, which carries with it the John West Medal, the Grahame Prize, and the Aitken Scholarship; in addition, he won the Cooper Scholarship for Classics, and showed his wide range of ability by gaining first class honours in Mathematics. He should have a brilliant University career. We can now proudly claim to have won the first place among male Leaving candidates

for four of the last five years; it is a claim which ought to be made while the average is still good. Passes of high merit were also obtained by D. M. Myers, J. G. Phillips, and R. F. Weisener. Myers secured first class honours in Physics and Mathematics, and A's in his remaining subjects.

The passes in the Intermediate were of distinctly good standard throughout. The boys were of more than ordinary ability, and obtained the results which might have been expected of them. Makinson secured A's in all his seven subjects, and Hole, Thane, and Wood were awarded six A's and a B.

The general standard of work in the School has been satisfactory in many respects, but there is, of course, ample room for improvements in others. There will not be a long honours list in the Leaving Certificate results; however, Bradfield and Barnes are two very sound scholars, and are entirely worthy winners of the chief school prizes. The Intermediate results may be expected to be good. The Upper Fourth Forms deserve praise for the keenness with which they have attacked their work during the year, a keenness which was not solely due to the fact that an examination was ahead of them. The Lower Fourth and Third Forms are very uneven in standard; one can only hope that their "tail-enders" will exceed expectations like those of the English Eleven—the opening batsmen, at least, are quite up to the best standard. The work of the Preparatory School has been well organised by Mr. Walmsley, and there is every justification for confidence in the sound preparation which the younger boys are receiving.

The School's record in sport during the year has been highly satisfactory beyond all question. The first football and athletic teams did not shine, although they held to their tasks with great determination. However, their lack of success was counterbalanced by the good performances in rowing, rifle shooting and cricket, and by the successes of the lower teams. We

won the G.P.S. Premierships in rowing and rifle shooting, and were a good third in cricket. In the second grade competitions we won in rowing, football and rifle shooting, and were a close second in cricket and junior athletics.

The cricket team did not find its best form in the first term, but performed better in the third term. Of the fourteen competition matches, five were lost and nine won. The second team won seven matches, lost two, and two were drawn very much in their favour. Both teams were of good standard. The cricket of the lower teams was very fair, but not as good as usual.

The First Fifteen again had a disappointing season, and their results were not a true indication of the keenness with which they played. They won one match and lost five; they showed fine form against two of the leading teams, but failed against some of the weaker ones. Their record was to some extent counterbalanced by the fine performance of the Second Fifteen in winning the Second Grade Competition without losing a match. Throughout the season they set a fine example of "team spirit." The Third and Lower Fifteens were also of distinctly good standard.

The Regatta of 1928 has passed into School History, and, except as a formal record, it is unnecessary to give the results. The School's success in scoring five wins on the one day is unprecedented, and adds further strength to our already fine rowing tradition. Many factors contributed to the success, but the spirit of the camp was the most important. This was partly a legacy from Bell, the popular captain of the previous year. He left on the walls of the shed in large type an expression of his creed, which was no doubt a modern's attempt to render the School motto. I place it on record without emendation, but with hearty commendation. It is to the effect that "you can't lick a crew that won't be licked." The crews took the advice to heart, and went to work with confidence and deter-

mination. The Eight's win in its heat was not so spectacular, but was probably a better effort than the win in the final; the conditions were very strongly against them, but they coolly maintained their length and exhibited really good form in the rough water. The First Four deserve special praise for their magnificent effort in the final, when they pulled up from behind and showed fine grit. The Second Four had no need to show qualities other than good rowing, because they were much better than their opponents. The Third and Fourth Fours also deserve a full measure of praise. They were compelled to do most of their training on the almost impossible water of Barry's Bay, which is nowadays often like the open sea. However, they had made up their minds that their task was to give encouragement to the Regatta crews by winning in the morning. I firmly believe that they cared much more for this than for winning for their own sakes. I think this is a fine spirit, and commend it heartily to all junior teams. The most pleasing feature of our wins, is that they were obtained by good rowing, though it may not appear very modest on our part to say so. We have always had the reputation of turning out good crews which have tried to master the art and science of oarsmanship: for it is both an art and a science. It is sincerely to be hoped that we may in the future guard jealously our tradition of style, for the rhythmic joy of rowing can only be experienced when a reasonable measure of perfection has been attained.

The results in athletics were all that could be expected from the ability of the team. There were few naturally good senior runners, but they were well trained; they occupied fourth place. The Junior Team was a really good one, but was beaten by a better team from Newington. The School sports were quite successful. It is unfortunate that so many heats must be run off beforehand, because only a limited number can take part on the sports day; however, it would be impos-

sible to manage the events otherwise. Very successful challenge tests were arranged for training purposes with Newington College, the University, and Knox Grammar School. In all our own meetings the organisation was very good, and the master in charge and the sub-committee deserve our thanks.

The rifle shooting teams had a very good year. The First Team won the Rawson Cup and N.R.A. Shield, gaining the G.P.S. Premiership. The Second Team tied with The King's School for first place. The consistently good results in shooting during the last few years are due to keen practice and to expert coaching. Shooting makes far more demands upon time and unselfishness than many realise, as practice has to be carried out at such times as may not clash with other fixtures.

The standard reached by the tennis teams was good. The annual fixture with Sydney Grammar School was held on Eight-Hour Day at "Fairwater." We thank Lady Fairfax for her hospitality, the more as we realise the trial through which she had passed not long before. By winning the match, the School regained the Fairwater Cup. Various tournaments have been conducted, and have been keenly contested.

Swimming and boxing have each had their place. The carnival was held in March, and the boxing tournament a few days ago.

The House competitions have been carried out as usual. An alteration was made in the scheme of football by excluding members of the first four School teams from participation in House football. The result was beneficial, as the practice of the School teams was freed from interruption, and younger boys were given a greater incentive to enthusiasm. The football was won by Barry House, cricket by School House, rowing by Robson and School Houses, athletics by School, shooting by Barry, swimming by Robson, and boxing by Robson. The Simpson

Cup for the Premier House was won by School House.

The East Window arrived from England in November, and was at once placed in position in the Chapel. A great deal of time and trouble has been expended in securing a fitting design, and in arranging for its execution. The final result is a work of art of undeniable beauty, worthy of the purpose to which it will be dedicated, namely, the commemoration of the services of Old Boys of the School to the Empire. It is the work of Edward Woore, of Hammersmith, and is the only example of his work in Australia. The placing of the order and the supervision of the manufacture were entrusted to Mr. Matthew Dawson, an Old Boy architect of considerable artistic reputation in England. We cannot place too high a value upon the service which Mr. Dawson has rendered to the School; it has been evident from his letters that he has taken the deepest interest in the matter, and that he has given an enormous amount of his own time. This he did freely as a gift to the School, and a most valuable and acceptable gift it has been. The Chapel has already made a deep appeal to the boys who have passed through the School since it was built. The success of the window is to be measured in terms of the strength which it adds to this appeal, and I believe that in this sense it will add something of incalculable importance to our life. The dignity of the design and the loftiness of the theme cannot fail to awaken noble thoughts and inspirations. We should like those who contributed a few years ago—and not the least of these is Mr. Davies himself—to know that they have rendered a very great service to the School. The carving of the remaining stone work was also completed by the School Council during the year.

Apart from the usual daily services, many special services have been held. The Open Sundays have been held as usual, and our accommodation has been taxed to the limit. Special services were

held on Anzac Day and on Armistice Day, and week day addresses have been given on missionary and other topics. On many occasions the addresses have been of a very high quality indeed, and have left a lasting impression; we owe our thanks to the various visitors who have honoured us by taking the opportunity so seriously. Confirmation was given by the Bishop Coadjutor to 78 candidates on October 26; the preparation was well conducted and attentively received, and the service was impressive as could have been wished.

The School Fete was revived this year with results which exceeded the hopes of the most optimistic. We have always considered ourselves fortunate in possessing a body of supporters of exceptional energy and keenness. However, this year they rallied to the School in a manner almost beyond thanks. The preparations for the Fete went forward quietly but continuously for some months beforehand, and the day itself was a revelation. The proceeds in cash were £1,805—a record far in advance of the previous best. Moreover, this year more than ever before, it was realised that the value of the Fete to the School is not financial only. It provides an opportunity for parents of past, present and future boys, and for all who value the School, to meet on a ground of common interest. The good which this intercourse brings to the School is not easy to estimate, but is considerable. We owe a heavy debt of gratitude to the executive officers, the stall-holders and their helpers, and especially to Mr. Russell Sinclair, Mrs. Esplin and Miss Rhodes, whose organisation at the centre of things was flawless. I express my own appreciation of the assistance given by the masters before and during the Fete; all undertook tasks—some of them of considerable magnitude—and I appreciate highly the keenness with which they carried them out. The boys also deserve mention. It is a day of fun for them, and a little license might perhaps be tolerated; not only was none taken, but they helped before, during, and after the Fete with a

willingness and enthusiasm which caused me to appreciate their good points even more than I generally do.

The proceeds of the Fete will again be devoted to the Ground and the Boat Shed. The improvement of the main oval during the last few years has been very great, as a result of heavy top-dressing and constant work. It is now proposed to treat the lower flat, bit by bit, in a similar manner. Indeed, the work was begun two months ago. The results of a quite considerable expenditure are not soon noticed in this kind of work, and are dependent largely upon the weather. If we have the same luck as with the main oval, we shall do well. The work is not being undertaken before it is needed, as the lower ground was in poor condition this winter. In other respects the ground is making steady progress. The work of maintenance and repair is, of course, quite a considerable one. The Boat Shed has been improved by a few minor additions; here also repairs to the structure make a constant call.

The health of the boarders during the year has been, on the whole, good. We have not been free from the epidemic diseases which seem to have been very severe throughout the State, but the number of cases has been relatively few. We had cases of mumps and measles in Second Term, and a very few cases of mumps this term. The more serious troubles have fortunately passed us by, and, on the whole, I think we have escaped lightly. In every case great care has been exercised, and the spread of the disease checked as well as could have been hoped.

The work which the School has undertaken in connection with Holy Trinity, Erskineville, has progressed continuously. Mr. Backhouse has given a very great deal of time to the work, and has been freely assisted by other masters. The number of volunteers from among the boys has been so great that it has been found possible to carry out similar work at St. Matthias', Paddington. Several

Old Boys who were interested in the Club while at School continue to visit it on Friday nights.

The School team met with very fair success in the inter-School debating contests. In the first round two debates were won, and that against The King's School was declared a draw. In the semi-final which resulted, the decision went to our opponents by the narrowest of margins. The boys concerned deserve great credit for the enthusiasm which they displayed and the improvement which they made.

The military training which is carried out at the School is ably handled by masters, under the command of Major Harris. The discipline maintained has very real effect on the discipline of the School, and trouble is taken to make the work interesting. The boys from the School who attended the militia camp in September won high praise for their efficiency, and carried off the honours in a field firing competition. A squad was entered for the drill competition at the Annual Military Sports in April, and again won the Kirby Shield; indeed, we have won this competition nearly every year recently. The guard which was on parade this afternoon is another example of the provision of an incentive for keen work; their efficiency is good considering the limited opportunities which they have had for training. The School has every reason to appreciate the valuable work done by the officers concerned.

In recent years complaints have often been made that the date of the Intermediate Examination is a most unsuitable one. It is commenced about a month before, and completed about a fortnight before the end of the last School term. The time which remains after the examination is too short for the breaking of fresh ground, and much too long to be wasted; accordingly boys who have done the Intermediate finish the year in such conditions that it is hard for them to feel a keen interest or incentive. The general result is distinctly bad for them. A

few years ago the number who treated the examination as the end of the year was considerable, and an appeal is now made to parents before the examination each year to co-operate with the staff in seeing that the remaining time is put to good use. The request meets in general with the satisfactory response which might be expected. Even now, however, there are more absences during this last fortnight than can be explained in a reasonable way. These absences, though they may seem of little account from the point of view of the individual, are a serious interference with the work of the classes. I shall not have to make this small grumble for more than one year more, as the Board of Examiners has decided to change the date of the examination from the year 1930 onwards. The unfortunate fact is, however, that instead of putting it at the end of the year, they propose to put it in September—an even worse time than the present date from our point of view. The reason given is that the work of administration cannot be handled in the time available at present. No doubt the Board must consider first the interests of the Department. There are three courses open to us. We may prepare boys for the examination in September, or we may cease to send any candidates, or we may hold an examination of our own. The first alternative would mean our altering the arrangement of the entire School year, for the reason, among many others, that our holidays are in September. I am not in favour of abandoning entirely an external examination at the half-way stage represented by the Intermediate: for one thing, it is good for boys at this stage of their work to have a high hurdle to take. The Headmasters of the G.P.S., after considering the whole question, decided to exploit fully the third alternative. They accordingly have in mind the holding of an examination similar in standard at the very end of the year, commencing in 1930, and have invited the Headmasters and Headmistresses of other non-departmental

schools to join them. If the scheme can be carried out—and there do not appear to be any insurmountable difficulties—it will bring with it many advantages.

The year's work in the Preparatory School has been successful in every important respect. Since its establishment, enthusiasm has been most marked in every activity, and this year is no exception. The standard of work attained has been highly satisfactory, and the conduct of the boys both in and out of School hours has been such as to show the real value of a share in the tradition of the School. Games have been carried out as usual, both in the quarter competition and against other Schools. Physical drill takes place daily under the Sergeant-Major, and reaches a very high standard for such young boys. Those who witnessed the display of drill at the Preparatory School Sports were, I think, impressed alike by the value of the work and by the standard attained. We are so assured of the usefulness of physical drill and of games in this section of the School that they are held to be part of the regular curriculum, and absence is only excused on the ground of illness. The results of the quarter competitions for the year placed Davies as the premier quarter; the individual competitions were won by Linton in cricket, Davies in football, athletics and swimming, and Baker in drill.

The branch of the Heralds of the King has been maintained as well as usual, the 120 odd boys having contributed regularly by denying themselves little things here and there, and have at the end of the year well over £50 to distribute to charitable funds. In every respect Mr. Walmsley and the masters have cause for great satisfaction with the year's work.

The prefects have done their work very well during the year. They have their routine duties, of course, but their chief task is to carry out the promise which they make at their appointment "to do their best to maintain the good name of

the School, both, by their own example and by their influence over others." Their responsibility is no light one, and upon their view of it the tone of the School depends to a very great extent. They have been boys of entirely sound character, and, in some cases, of strong personality. One has felt that the interests of the School have meant much to them, and have been safe in their keeping. They will have their reward in the increased strength of character which comes with the exercise of responsibility.

There will be only one change in the Staff for next year. Mr. Ashton is wisely taking advantage of an opportunity of going to Oxford, and will carry our best wishes with him. He will be replaced by Mr. E. B. Lester, a Master of Arts who graduated with Honours at Melbourne University, and has been on the staff of the Geelong Grammar School. Mr. Harris, who has unfortunately not enjoyed the best of health recently, is relinquishing the charge of Robson House. He has not spared himself in the service of the School, and is one of its mainstays. All friends of the School will unite in wishing him better health in circumstances which will make less exacting demands on his energies. Mr. Dixon will take charge of the House next year.

This year I owe specially warm thanks to the Staff. Several of us, including Mr. Dixon and myself, have been forced to ask for sick leave at various times. The extra work has in every case been shouldered willingly and efficiently. The routine duties which occupy School hours are only a small part of the tasks which fall upon a schoolmaster. Success depends upon disinterested service, and such service has been freely given.

To the School Council, my colleagues and I express our thanks for wise and careful government, and for the keen interest which they have taken in all the affairs of the School.

At the conclusion of the Headmaster's report, Sir Henry Braddon spoke briefly, stating at the beginning that he had the comments of his own sons to guide him in the length and quality of speeches suit-

able to the occasion. On the conclusion of his speech he distributed the prizes.

At the end of the ceremony the company was entertained at afternoon tea.

**"BOARDERS' WEEK-END."**

School drags out its weary days, and the days turn slowly into weeks which creep heavily through the heat of summer, until like a welcome southerly after a hot day comes "Boarders' Week-end."

Few boys who have not been boarders can possibly imagine the relief of thinking that, for once in a while, one can relax from the stern discipline of School life and do as he pleases for some short time, however brief its duration.

The School on such an occasion seems somewhat desolate and lonely, and the life and interest seem to have left the old asphalt quad and cricket pitches. The class rooms and buildings are strangely silent, where a few hours before noise was

the main object of a hundred boys.

The Masters are few and far between, and walk abstractedly about in fruitless search of some wrong-doer on whom they can vent their pent up feelings. But in vain! Not a soul appears, and they wander dolefully back to the silent common room. But however melancholy the School and grounds may become on such an occasion, the boarders or masters could not go on without some lessening of the strain on nerve and body, and so that week-end of week-ends remains a hallowed space of time which both master and boy looks forward to with a joy that inspires the pupil to greater efforts and the master to kinder deeds.

**PLAY READING SOCIETY.**

The Play Reading Society did not commence to hold its meetings till late in the term, and as a consequence only two plays have been read.

The first, Gilbert's "H.M.S. Pinafore," was read by those who attended with much enjoyment, as was Shaw's "Androcles and the Lion" a fortnight later. In addition to these plays, it is intended to read Barrie's "What Every Woman Knows" and Gilbert's "The Mikado" before the end of the term.

The one regret in the plays so far was that there was not a greater attendance, as in both cases members, of necessity, each took several parts.

No collection has been taken this term, as there is still a balance of £1 in hand, which may at any time be used to increase the Society's rapidly growing library.

In conclusion, we extend a special invitation to all Fifth Formers to attend during the Winter Term. They are assured of a most pleasant and instructive evening.

### CHAPEL NOTES.

The Corporate Communion was celebrated on December 9 and on March 24. There were 95 communicants on the former occasion and 96 at the latter.

ham, the Bishop of Riverina, the Rev. G. Portus, the Rev. Dr. Fritchard, and the Rev. J. Kirkley (Brotherhood of the Good Shepherd).

Addresses have been given by the Headmaster, the Rev. N. A. B. T. Backhouse, the Rev. C. T. Deben-

The Chapel Committee beg to acknowledge with many thanks donations from Beryl Ida Pearce and Lindsay Stewart Hudson.

### LIBRARY.

The Library has been as popular as usual during this term, as well as the Reading Room. The Committee is doing its work well and collecting fines wherever possible. Many boys have been lax regarding the rule that no book may be kept for more than a fortnight. Boys in the Fifts and Sixths have not taken enough care during this term of those reference books which they are allowed to remove to form rooms. Many of the books have been found lying about the form rooms, and if more care is not taken these books will not be allowed out of the Library.

The following books have been purchased and added to the Library: "Story of the Southern Cross" (Kingsford Smith and Ulm), "The Small Bachelor" (Wodehouse), "Money for Nothing" (Wodehouse), "Flying the Arctic" (Wilkins), "Undiscovered Australia" (Wilkins), "The Complete Sherlock

Holmes Short Stories" (Conan Doyle), "The Case Book of Sherlock Holmes" (Conan Doyle), "Horrors, and Mysteries" (Sayers), "The Snare" (Sabatini), "The Fetters of Freedom" (Brady), and "The River of Stars" (Edgar Wallace).

Many books on the list, but worn out or lost, have been replaced; also, several large volumes of English History and a large number of French novels have been added for the use of those boys taking History and French Honours. As the cost of purchasing these books has been very great, it is to be hoped that boys will make use of them, and at the same time take care of them.

Covers have been made for the "Illustrated London News," "Graphic," "Punch," and "Illustration."

Books by Sabatini and Edgar Wallace have been most in demand, while those by Wodehouse have been very popular.

**THE SYDNEY UNIVERSITY APPOINTMENTS BOARD.**

It may interest boys who are going up for the Leaving Certificate to know what avenues the University opens to employment.

Some men, of course, when they go up to the University, have a definite profession in view, and take a course which will fit them directly for that chosen profession. The courses which lead directly to a profession are Law, Medicine, Dentistry, Veterinary Science, and Architecture. Armed with a degree in one of these faculties, the professional man may join battle with the world as an individual combatant, and may try to prevail on it to supply him with bread and butter in return for the exercise of his skill.

Other courses do not lead so directly to immediate occupation. The public does not generally encourage newly fledged engineers to practise as consultants, nor does it place them at once at the head of large enterprises. The Engineering Graduate must seek an opening in the service of a firm or public body.

Courses in Arts, Science, Econo-

mics, and Agriculture do not lead directly to professions. However, in trade and industry there are numerous openings for graduates in Science and Economics, and there is a real though limited field for graduates in Agriculture. In Arts, too, there are many openings quite apart from the teaching profession, which suggests itself as obvious. Those who take up Arts without any clear intentions as to their future career would do well to consider these alternative openings.

It is to assist students in the solution of their difficulties in these matters that the University has established an Appointments Board, which will serve to eliminate much of the trial and error in finding a position. It is the University leaflet dealing with this subject for the information of freshmen that has suggested these remarks. Those who intend going up to the University would do well to consider them, and to make themselves acquainted with the information put out by the University itself.

**ERSKINEVILLE CLUB.**

The Club picnic at the end of Third Term, 1928, was a very enjoyable ending to a successful year.

About fifty boys were conveyed in cars driven by senior Shore boys to the School grounds. The boys

saw the Memorial Window in the School Chapel, and were taken up the School tower.

At 12.30 p.m. the cars and the School Bus left for Collaroy Beach. After lunch in a park near the beach,

the boys surfed and played cricket. At 4.30 p.m. the cars returned to Erskineville, some by way of Fig Tree bridge, others by ferry across the Harbour.

This term, the addition of a tug-of-war rope and single-sticks outfit has provided a new outlet for the overflowing energy of the Erskineville boys. The tug-of-war rope slung over a cross-beam is also used for climbing exercises, which are very popular. By means of the rope, and with the help of several

Shore boys as corner posts, a ring is formed in which single-sticks combats are held. The helmets prevent serious casualties.

The parallel bars from the School gymnasium are also in commission at the Club, and will be freely used, as the boys like plenty of exercise.

The Prefects are actively supporting the Club. One evening five Prefects, including F. Taylor, Senior Prefect, were present.

Croft is O.C. this term.

## TENNIS.

### 1st Term, 1929.

It is always with a feeling of regret that the Tennis Club enters upon a new year, as it always sustains the loss of some of its members who have completed their school course.

This year our loss has been particularly heavy, as we are without Goddard and Rice.

Goddard was one of the outstanding figures of G.P.S. tennis for some time, and was Captain of Tennis in 1927-8. He did much for the Tennis Club, both by his play and also his very keen interest. In 1926 he won the Schoolboys' Doubles Championship of N.S.W. with Simpson, while he again won it in 1928 with MacDermott. In the same year, he was runner-up in the Singles Championship.

This year, MacDermott has been elected Captain of Tennis.

The G.P.S. Tennis Tournament, which was held on Thursday, 11th inst., at Ruscutters Bay, produced some excellent tennis, and perhaps one of the best finishes that have ever been seen in G.P.S. tennis.

In the seniors, Shore played St. Ignatius', while T.K.S. played T.S.C. Shore defeated St. Ignatius', while T.K.S. prevailed over T.S.C.

Thus T.K.S. and S.C.E.G.S. met in the final. In the singles the sets were equal, but T.K.S. led by four games. In the doubles the sets were again equal, but T.K.S. again led by two games, thus beating S.C.E.G.S. by the narrow margin of six games.

In the juniors, Shore A played

T.S.C., while Shore B played T.K.S. Both Shore teams won, and thus the final was contested between Shore A and Shore B, when Shore A won by 11 sets to 1.

Scores:—

**T.K.S. beat S.C.E.G.S.**

(93 games to 87.)

**Singles.**

Falk v. McWilliam, 5-10.  
Litchfield v. Booth, 9-6.  
MacDermott v. Treweeke, 10-5.  
Swain v. Mack, 4-11.  
Farey v. Gee, 10-5.  
Ifould v. Lister, 5-10.

**Doubles.**

Falk and MacDermott v. McWilliam and Booth, 8-7.

Falk and MacDermott v. Mack and Treweeke, 5-10.

Swain and Litchfield v. McWilliam and Booth, 6-9.

Swain and Litchfield v. Mack and Treweeke, 7-8.

Farey and Ifould v. Gee and Lister, 9-6.

Farey and Ifould v. Gee and Lister, 9-6.  
**Juniors—S.E.E.G.S. (A) v. S.C.E.G.S. (B).**

**Singles.**

White v. Barnes, 7-8.  
Smith v. Kent, 9-6.  
Rae v. Nash, 8-7.  
Harding v. Balmain, 12-3.  
Rosengarten v. Jones, 8-7.  
Cohen v. Witters, 12-3.

**Doubles.**

White and Smith v. Barnes and Kent, 11-4.

White and Smith v. Nash and Balmain, 10-5.

Rae and Harding v. Barnes and Kent, 11-4.

Rae and Harding v. Nash and Balmain, 11-4.

Rosengarten and Cohen v. Jones and Witters, 8-7.

Rosengarten and Cohen v. Jones and Witters, 9-5 (unfinished).

The Tennis Club has this year decided to begin the tournament during the first term, in order to get it completed and allow the prizes to be presented before the end of the year. Thus the Club, which was usually formed at the beginning of each year, will be postponed until the last term.

In the Schoolboys' Championship, which was held at the White City Courts by the New South Wales Lawn Tennis Association recently, there were several entries from the School. After some very good tennis, MacDermott reached the final of the Singles Championship, while Swain and Falk were runners-up in the Doubles Championship. We congratulate these players on their success.

A series of House matches were played this year in the House Competition for the Ogilvy Cup.

## BOXING.

The 1928 Boxing Tournament was held on December 6, 7, and 10. A large audience attended on each oc-

asion. Many bouts were very hotly contested; some of the competitors displayed a considerable

degree of skill, others a capacity for taking punishment. The results were as follows:—

#### Preparatory School.

Under 5 st.—Burke ii. and Burke iii., equal.

Under 5 st. 7 lbs.—F. W. Walton.

Under 6 st.—J. W. Walton.

Open.—R. O. Moodie.

Under 6 st.—J. C. Sheaffe iii. (S.).

Under 6 st. 7 lbs.—W. T. Cracknell (H.).

Under 7 st.—Swift ii. (S.).

Final totals: Newington College, 61½ points; S.C.E.G.S., 98½ points.

### SWIMMING CARNIVAL.

The annual Swimming Carnival was held on March 21 at The Spit Baths. The afternoon was fine, and there was no tiring delays, for the programme was put through most expeditiously.

Three events had been held previously—the backstroke, breaststroke, and 440 yards championship. The results of these were:—

**Backstroke.**—1, E. S. Crane; 2, N. L. Newman; 3, A. T. Muston.

**Breaststroke.**—1, A. B. Moran; 2, E. S. Crane; 3, R. J. Singer.

**440 Yards Championship.**—1, N. L. Newman; 2, J. K. Macnaughtan; 3, N. U. Curlew.

The results of the other events were as follows:—

## CRICKET.

### 1st XI.

The first half of this year's competition is over, and the School finishes equal with S.I.C. in second place, one point behind S.J.C. This term the performances of the XI., in common with most other schools, have been remarkable for small scoring. This, to a large extent, has been due to the variety of wickets; frequently after practising on soft pitches, Saturday's wicket would turn out hard, or vice versa.

Team work has been an outstanding feature. It must be some time since our bowlers were supported by fielding of such a consistently high standard. Mistakes, of course, were made, but these were few and far between. In all out of 86 wickets that have fallen, 48 have gone to catches, many being brilliant. There is room for improvement in

returning, both in the actual throwing and in judging the best end. To pick out the best fieldsman would be a difficult task, but mention might be made of the excellent work done by MacDermott at silly point and silly leg, for in these positions he helped the side immensely both directly and indirectly.

The bowling honours fell in the first place to White, who thoroughly deserved his success. He varies his flight and pace, while maintaining a splendid length. Deane came up from the 4th XI., and fully justified his promotion; at times he bowled brilliantly. Barnes is a heady bowler, and in the near future should do very well. Halstead has greatly improved. Larke, too, has been of considerable help.

Only once was the two hundred passed. Several useful innings

were played, but no one batted consistently. The form shown at the nets suggested much bigger scores. These surely will come in the second half of the competition when batsmen realise the necessity of a straight bat to a ball on the leg stump, and when they will not hesitate to use their feet and jump right out to the **pitch** of a ball as they so often do at practice. In this respect an object lesson was given in the last match, when the five who scored used good judgment in getting out either to hit or smother slow breaks.

Taylor handled his team very well, being quick to see points and a source of inspiration to an exceptionally keen and happy team.

v. T.S.C.—Played at Bellevue Hill on February 16, resulting in a win for us by 107 runs on the first innings. The wicket was slow and easy, but at no time difficult, having made a splendid recovery after heavy rain. T.S.C. won the toss, and decided to bat. Our fielding and catching were very good; these were the chief factors that got rid of our opponents. Deane made a good start with 5 for 14, and White bowled very well with not much luck. Halstead and Taylor opened for us; both went well considering the lack of practice, and gave the side a good start. After Hunt and Payne had gone for no addition to the score, White played vigorously, and, with Halstead, took the total to 70. McCloy and MacDermott added useful runs in good style. T.S.C. did better in their second innings, but could do little with White, who bowled really well. When time came T.S.C., with the last men in, were four runs ahead of our first innings total. v. N.C.—Played at Northbridge on February 23, resulting in a win for the School by 10 runs. The wicket was hard, but hardly fast; it was perfect from a batsman's point. Taylor won the toss, Halstead and Payne opening. With the score at 33 Caldwell bowled, and in his initial over got rid of our first three batsmen. White and Barnes partially stopped the rot, getting in some good shots. MacDermott also did well, while Deane and Thompson added an invaluable 20 for the last wicket. On a heavy ground, and with the grass still long after the recent heavy rains, the score of 115 was more than it appeared on paper. Newington fielded well. The first N.C. wicket fell at 13. White and Barnes were hard to score off, and wickets fell at intervals till the total was 60 for 6 wickets. Here Mitchell, who had been batting well, was joined by Pratt, and a solid stand began which was steadily turning the game in N.C.'s favour, till it was broken by Larke bowling Pratt. Four runs later White got Mitchell, and shortly afterwards the innings was over. White bowled a fine length for 24 overs, and wound up with the very fine average of 7 for 46. Barnes, playing his first match, ably supported White. Thompson was not up to his usual form at the wickets, otherwise there were few mistakes in the fielding. Taylor's leadership was also a big help to our victory. Scores:—

v. S.I.C.—Played at Northbridge on March 2, resulting in a win for the School by 39 runs on the first innings. S.I.C. won the toss, and sent us in on a wicket which proved easy and quite slow at the start. Later on it was not so easy, as it slowly dried. Payne and Halstead

gave us a splendid start, playing the right game for the wicket. Both were out with the score at 70; thereafter wickets fell fast, a few minutes after lunch the last man being out. T. Parsonage bowled well. The wicket was much the same when Moses and T. Parsonage opened for S.I.C. White immediately dropped into his length. The two batsmen scored off all loose stuff, though both were missed off White. At 48 Moses, who had never been comfortable to White, put one up off that bowler to MacDermott at silly leg. In the next over Parsonage went, caught in a similar way off Deane. From this point the whole aspect of the game completely changed, the fascinating uncertainty of cricket once again asserting itself. There was a rapid procession; two men were out at 50, while the next four went for the addition of one only, and with two more runs the innings was finished. Thus in about about half an hour eight wickets fell for five runs. White again bowled splendidly through the innings, and Larke, too, did very well. Except for the two misses referred to, there was not a mistake in the fielding; the excellence of the catching finished off the bowlers' efforts. We began a second innings in showers that made it hard for bowlers and batsmen to keep their footing. Four wickets had fallen for 34, of which Hunt made 17 well, when play ceased. Scores:—

v. S.H.S.—Played at Northbridge on March 9. The wicket was very hard and fairly fast when we opened with Halstead and Payne. High maintained a steady attack for the most part with length bowling, while our batting was somewhat unenterprising. McCloy played a very sound innings for 58, and was there while 137 runs were added. White batted well, but went all too soon. Deane contributed 59 by good, forceful cricket, and his innings put us in a far

better position. Our opponents were unable to do much with our bowling, particularly with that of White, who again bowled excellently. The fielding, too, permitted no liberties, and the returns to the wicket were accurate. In our second innings Payne batted well. Starr caught five behind the wicket. Scores:—

v. S.J.C.—Played at Hunter's Hill on March 16, and resulted in a win for S.J.C. by 37 runs. Play started at noon owing to heavy rain having affected the wicket. Taylor won the toss, and sent S.J.C. in. The wicket was soft at first, but before lunch showed signs of getting tricky. Wickets fell fast, White being in splendid form, and work in the field excellent. A stand of 24 was made for the last wicket. When we went in the wicket seemed to have rolled out well, but Cluff managed to make the ball kick a good deal. Our batting failed miserably, and we were all out for 19. The second innings of S.J.C. lasted about one and a half hours. Once again the work in the field was very good, and the bowling accurate. Deane got the best figures with "swingers," and White did the "hat trick." We were left the impossible task of getting 90 in 25 minutes; an attempt was made to retrieve the match, but in vain. v. T.K.S.—Played at Northbridge on March 23, and resulted in a loss for us. Having won the toss, we opened on a perfect wicket. Disaster came immediately, Halstead and McCloy being out in the first over with the score unopened. Payne stayed on, but no one could remain with him, and the innings closed in time to give T.K.S. six minutes' batting before lunch. In Deane's first over Gee was out. T.K.S. batted the rest of the afternoon, but at no time collared our bowling, which was steady, but seemed to lack venom. Halstead got the best results. When play ended Giblin was not out, after steady but unenterprising batting. Scores:—

v. S.G.S.—Played at Northbridge on April 6 and 10. Having won the toss, we opened with Halstead and Payne on a perfect wicket. Once again there was an inauspicious start, five wickets being down for 37. From this on a good recovery was made, first by White and MacDermott, who each played an invaluable innings. Taylor struck his best form this term, though he was not well. The biggest stand, however, was put up by Robinson, playing for the first time, and Thompson for the last wicket. None of those who made runs was afraid to use his feet and jump out. The last five wickets, by adding 185, put us in a far better position than seemed at all likely at one time. The innings lasted about four and a quarter hours, which was not a slow rate of scoring, as our ground is now very heavily turfed. S.G.S. opened with Guest and Wood; the former soon fell l.b.w. to Deane. The light failed rapidly, and stumps were drawn about 5.30 p.m. with S.G.S. 32 for one wicket.

At the resumption of play on the Wednesday, Lee and Wood continued to bat steadily, though they could not get the bowling away much. After 80 minutes' play Wood, who had given two chances, put one off White into MacDermott's hands at silly leg. The partnership having been broken, as so often follows, in the same over Lee was out. A rot set in, and within half an hour the innings closed, the last eight wickets adding 22 runs. In their last six overs respectively, Deane took 5 wickets for 9 runs and White 4 for 11. Robinson, McCloy, and Thompson made excellent catches. Scores:—

2nd XI.

During the term rain interfered with practice considerably, and with most matches. This was particularly unfortunate, as the team was rather a young one and very inexperienced. However, only The King's School match was lost, and we finished the term second on the competition table.

The batting at the beginning of the term was very weak, and it was only by accurate bowling, backed up by splendid fielding, that the earlier matches were won. Indeed, our totals in the first two or three matches would have been deplorable only for the consistency and doggedness of Falk, who made the highest score in every match that he played for the team. His average for the term was 46.

The bowling was better all round than the batting, though here, too, one boy stood head and shoulders over the others. This was Robinson, who, in 64 overs, secured 32 wickets for 132—an average of 4.3. Both he and Falk were taken into the 1st XI. for the Grammar School match. Of the other bowlers, Harvey was the best, and secured 15 wickets at an average of 9.9. Roberts was very promising, but the soft wickets that he had almost every Saturday did not suit his style of bowling.

The fielding was of a high standard in most matches, but errors in this branch prevented us from winning against Grammar. Harvey's work was consistently good, and others almost as prominent were Falk, Turton, Robertson, and Roberts.

Litchfield was an excellent captain, and also performed very well behind the wickets.

The improvement in batting towards the end of the term would seem to promise a good term for the

team in the last term of the year.

HOUSE CRICKET REPORTS  
FOR 1929.

## ROUND I.

Despite much wet weather at the beginning and the end of term, the House Competition has advanced much further than last year, and this should make things easier in Third Term. If there is any lesson to be learnt from the series so far, it is that there is only one thing to do on a wet wicket—that is, win the toss, go in, and hit hard at everything from the start. This will mean that you bat in bad conditions, but the other fellow bats in much worse.

### G.P.S. REGATTA.

The news of the Regatta must necessarily be brief, as the "Torch-Bearer" is in the press as these lines are written. For record purposes, the detailed results will be published in the next issue. However, the crews have made history this year, not in so brilliant a fashion as in 1928, but in a manner which is perhaps just as remarkable, and it is most desirable that some description should be given, however hastily it must be written.

The training period this year has been as happy as ever, and as successful in every way. The Christmas Camp was slightly longer than usual, but none felt that it was too long, and to all concerned it provided perhaps the most enjoyable ending possible to the holidays. The Eight and the First and Second Fours worked on continuously during the Term, and, as usual, Third and Fourth Fours were selected to work at Berry's Bay. A great im-

provement in arrangements was made during the last month by bringing the latter two crews to Gladesville. They were thus able to enjoy more fully the last portion of their preparation. In addition to these crews, two crews of cricketers and others have been working in "clinker" boats at Berry's Bay since the end of the cricket season. By all accounts, they have enjoyed thoroughly their aquatic experiences, and have taken to the new element with enthusiasm. At the time of writing, they have not come under the critical eye of the approved "wet-bobs."

All crews proved exceedingly satisfactory in training, and the fours seemed to be quite up to the crews of 1928 by any standard of comparison. It is easy to say that the Eight seemed to be better than that of 1928, but the statement might not carry conviction in view of the fact that they were not tested. However, it is only fair to them to say that, judging by times, and performances against other crews, they were at least the equal of last year's winners. Their rows on the Friday, Saturday, and Monday preceding the race were exceedingly good, and the camp on Monday night was most happy and hopeful.

On Tuesday morning, the day before the heats, the first event of a regular chapter of accidents occurred, when Mackay was found to have a feverish cold, and Commins also had to report sick. Mackay

spent the day in bed, but his temperature disappeared on Wednesday morning and he was able to row in the afternoon. Commins was also apparently better, and took his place in the Second Four. During the day, however, Miller and Harris were both far from well, but had no signs of identifiable illness.

The heats passed satisfactorily for all but the Second Four. Commins rowed most gallantly, but was physically unable to do himself justice. The crew came last, but in finishing within four lengths of the winners under the conditions they did remarkably well. The First Four rowed into second place by a narrow margin. The Eight rowed really well, but as three members of the crew were not entirely fit, they were content to qualify with a low rate. Newington, rowing from 32 to 33 down the course, won by half to three-quarters of a length from our crew, which rowed from 28 to 29 throughout; the other starters were well behind.

The wisdom of a steady race was evident when the crew came in, as Miller and Harris both showed clear signs of a fever similar to that of Mackay. As the latter had quite recovered, there was no reason for a serious view of the trouble at the time. Both went to bed, but the illness persisted. In any case, it was too rough to row on Thursday or Friday, so that it was not possible to consider trying out a crew with substitutes. On Friday morn-

ing it became clear that Harris could not row, and in the same evening Miller's fate was similarly sealed.

A word about the spirit of the crew under these misfortunes is no more than their just due, and is indeed necessary if the School is to gain inspiration from their sterling example. There was, of course, a sinking of the heart, but it was at once replaced by a cheery and buoyant determination which should make us all proud. It was determined that bow and 2 (Menzies and Mackay) would row 7 and stroke, that Lincoln (3) would go to bow, and Vivers and Finley, of the Second Four, would row 3 and 2. It should be recorded that these selections were made not in order to preserve the First Four intact, but because they were considered to be the most suitable. Without rowing experience, it is difficult to realise what these changes involved. It is a tremendous task to row stroke or 7 in an eight for the first time, and an even more difficult one to accommodate oneself to the speed of an eight after rowing in a four. Menzies and Mackay had scarcely ever rowed elsewhere than at bow and 2, and Finley and Vivers had never even sat in an eight before. Add to these facts the additional one, that owing to rough water, only a ten-minute trial of the new crew was possible on Saturday morning, and it will readily be understood that no one but the crew itself expected the eight to be within lengths at the

finish. The crew, however, never allowed themselves to be down-hearted for a moment. To make matters worse, Mahoney (bow of the First Four) developed the same wretched complaint on Saturday morning, and it was judged unwise to row him. Eastaugh was moved up from the Third Four, but the crew, if they caught the infection of 'flu from the Eight, also were infected with the same buoyant spirit.

The wind in the afternoon was a very boisterous southerly, and the coaches spent an anxious time wondering what might befall their scratch crews. The Eight had drawn the worst possible station on the northern bank, and it was thought quite possible that they might encounter trouble with the rough water. However, fortunately they were able to tow the boat up safely, and the wind moderated a little for the race.

All fears were dispelled as the races proceeded. The First Four rowed into third place, and showed grit and determination which deserve the highest praise. The Eight rose to the occasion in a really wonderful manner. At Putney they were approximately level with High and Grammar, although Newington at this stage had a three-quarter length lead. As they moved down the course, it was expected that they would fall away. However, although for obvious reasons they could not hit as high a rate as the other crews, they held to them mar-

vellously. After a mile Newington and High had moved comfortably ahead, but they still continued to lead Grammar. In the last half-mile they actually managed to maintain a sprint, but they were not able to keep Grammar behind them in the last hundred yards. The race was won by High by three feet from Newington, with Grammar two and a half lengths behind, and Shore six feet behind Grammar.

This hasty description might easily be interpreted as an excuse for defeat, or a detraction from the performances of the placed crews. If so, it would be an unfortunate misrepresentation of the feelings which have been expressed in the School. The performances of the 1929 crews under adverse circumstances rank among the very best performances of our past teams and crews, and it is only right that the "Torch-Bearer" should place on record at once an appreciation, and that past and present boys should be able to realise that defeat as well as victory may have its glories. A letter from an Old Boy may be quoted, and its sentiment will find an echo in the minds of many who saw the race. He writes: "I have seen nearly all of the Schools' boat races since 1891, and have cheered with much joy when we have won, but I was never more thrilled than by the wonderful defeat which our crews suffered yesterday. It was magnificent. The School and crew can always look back on that

mighty, plucky effort with the greatest pride, and it will be an incentive for future generations to live up to the tradition which has been set. Well did they all perform their task and carry on the flaming torch down the line of the School's history. When we sing the old song together, the verse, 'Here's to the fellow who never says die,' will always recall to my mind the great race of 1929."

#### Results of the Regatta.

**Third Crews**—1, St. Ignatius' College; 2, Sydney High School; 3, St. Joseph's College; 4, The Scots' College.

**Second Crews**—1, Sydney High School; 2, Sydney Grammar School; 3, Sydney Church of England Grammar School; 4, Newington College.

**First Crews**—1, Sydney High School; 2, Newington College; 3, Sydney Grammar School; 4, Sydney Church of England Grammar School.

To Sydney High School, Mr. Saxby, and Mr. Hancock (S.H.S. coach) we offer our hearty congratulations on winning the First and Second Crews' events and coming second with their third crew; to St. Ignatius' also, and Mr. Williamson, on the result of the Third Crews; to Newington and Mr. Litchfield, and to Grammar School and Mr. Bullock congratulations on gaining the second places in the First and Second Crews.

Young, A. R., "Darouble," Coonabara-  
bran, N.S.W.

F. M. Osborne has been selected  
as a member of the University  
Eight.

O. C. Crossman, who was recently  
married, is to play football again  
this year with Randwick.

Dr. R. H. Russell, of Bega, has re-  
cently been spending a holiday in  
Bathurst, Sydney, and Newcastle.

Peter Bell has recently left Long-  
reach for a trip to England.

R. E. Smith is still in London,  
where he varies the monotony by oc-  
casional trips to the Continent.

E. G. Garland has become a part-  
ner in the legal firm of Holdsworth,  
Summers & Garland, of 39 Hunter  
Street, Sydney. Since leaving  
School in 1908 he has been practis-  
ing in Narrabri.

Rowland Jameson is an overseer  
on Westland, near Longreach.

To two Old Boys, Captain L. Hol-  
den and Dr. L. R. Hamilton, fell the  
honour of discovering the "Southern  
Cross" and her crew. Naturally,  
they were elated at their success.

S. C. Campbell was to have accom-  
panied Wackett's "Widgeon" on  
the same mission, but the plane was  
not able to make the trip. He is  
at present on the seaplane carrier,  
"Albatross."

Alastair Alexander and Noel Ham-  
mond passed the Surf Life Saving  
Association's Instructor's Test at  
Palm Beach recently.

H. S. Lloyd took a few weeks off  
from his work with the City Council  
Electricity Department to visit Li-  
verell for the Picnic Races.

R. B. Hipsley, who is in his final  
year, has been elected President of  
the Sydney University Engineering  
Undergraduates' Association. He  
has also been selected in the 'Var-  
sity Crew to represent Sydney in  
the Inter-'Varsity Race at Mel-  
bourne on June 1.

The engagement of George Thros-  
by to Miss Peggy Lawson has been  
announced.

F. C. Stephen visited Manila,  
Hongkong, Singapore, and Java dur-  
ing the last Law vacation.

Old Boys will be glad to know that C. S. Stuart was completely exonerated by the Committee of Inquiry of the charge of the insufficient attention to training brought against him on his return from the Olympic Games.

The Rev. Stephen Jones was married recently at Sydney to Miss Westall. He and Mrs. Jones have since left for a course at Livingstone College, London, after which they will leave for missionary work in the Sudan.

Mr. R. P. Franklin, Headmaster of the Melbourne Grammar School, has accepted an invitation to join a party of Australian educationalists and public men to go to Vancouver next March to attend the Canadian Inter-Empire Education Conference.

R. T. Moodie was recently initiated into Freemasonry by the Rev. E. North Ash and Reginald Walker (Worshipful Master) at Adelaide.

We congratulate T. Dunbabin and L. F. Fitzhardinge on their position in the University class lists. T. Dunbabin was awarded the Cooper Scholarship No. 3, and L. F. Fitzhardinge was bracketed equal for the Cooper Scholarship No. 2.

Dr. H. F. Wilson has gained his M.R.C.P.

Hearty congratulations to T. L.

G. Melville, B.Econ. and fellow of the Institute of Actuaries, London, on being appointed to the recently created Chair of Economics at the Adelaide University. Melville has been for the last four years Public Actuary for South Australia. In 1918 he took first class honours in the L.C. in Mathematics, English and Physics, and won the Barker Scholarship and the Horner Exhibition for Mathematics. In 1919 he entered the Engineering School, and among other distinctions he won the George Allen Scholarship for Mathematics and Professor L. Cotton's prize for field work in Geology. During 1920 he took the 2nd year course in Science, and won Mr. H. C. Russell's prize for Astronomy, the Norbert Quirk prize for Mathematics, and the Barker Scholarship No. 2. In 1920 he was successful in the Institute of Actuaries Examination, part I., section A. and B.; while in 1923 he qualified as an Associate of the Institute of Actuaries, and last year as a Fellow of it. During his University career he took a leading part in social activities, and was a member of the Sydney University debating team for inter-University debates held in Adelaide in 1923. He is a staunch supporter of the League of Nations, and a member of the board of the Y.M.C.A. An Old Boy writes from Adelaide: "Melville is one of the four foundation members of the South Australian board of the S.C.E.G.S. Old Boys' Union."

Members will be interested to hear that Gordon Turnbull, who has been in London for the past twelve months with Messrs. Travers & Co., Ltd., is having a good time, and is taking the opportunity of seeing all the sights while he is there. He writes very frequently to a great number of members, and keeps in touch with all his friends in Australia. He has seen many Old Boys in London, and the meetings provide an opportunity for toasts, etc., and "The School" is always done with proper honours. He is leaving London towards the end of September, and will arrive in Sydney, it is expected, early in November.

That Turnbull's interest in the Club affairs is still maintained is evidenced by his writing from London to the Secretary apologising for his absence from the annual meeting. The meeting carried a motion, proposed by Mr. Dudley Williams, of appreciation of Turnbull's continued interest and good wishes to the Club.

Copies of the School Register are still available at a cost of 15/- each, and may be obtained from the Club or the Hon. Secretary. The Register is an invaluable record of School history for anyone interested in the School, as it contains a short history of the School, the names, addresses and occupations (where available) of every boy who has been at the School, also particulars of all prize

winner, both scholastic and athletic, and a complete Honour Roll for both the Boer and Great Wars.

#### Annual Dinner in Melbourne.

The Annual Dinner of Old Boys in Victoria was held at the Oriental Hotel on Saturday, March 9, and was, as usual, a great success. Those present were:—B. G. Pitt, T. W. Smith, V. D. Watson, R. M. Saddington, L. E. W. Ramsden, L. H. Lemaire, G. Deane, C. Deane, D. Esplin, and T. C. Boehme. Owing to the vagaries of the far-famed Australian Postal Authorities, the notices which had been posted in Sydney on the previous Saturday did not arrive until the following Tuesday, which drew upon the head of the P.M.G. the bad wishes of the assembled multitude. It has been cheerfully explained to the Hon. Secretary in Sydney that parcels posted on Tuesdays are not sorted until the following Friday, and consequently cannot be expected to reach their destinations until the following week.

R. P. Franklin was unable to attend, as he was on his way to Canada to attend an Educational Conference, and this led to the absence of C. H. Kaepfell owing to the resultant pressure of work.

Wires from the President of the Union and the Headmaster were received and read at the Dinner, and were much appreciated. An effort was made to induce Jack Gregory

to attend, but as it was only discovered at the last minute that he was in Melbourne, he already had another engagement. It was decided to hold the Dinner at about the same time each year, as it is the most suitable time for T. C. Boehme, who so successfully acts as Honorary Organiser of the Melbourne functions. It is not exaggerating to say that the Dinners which are held annually in Melbourne and Adelaide are probably the most enthusiastic and enjoyable of all the functions held by Old Boys; and the success of those held in Melbourne are almost entirely due to T. C. Boehme, whose energy in these matters is truly remarkable. He hopes next year to double the number at this Dinner, and particularly urges Old Boys resident in Victoria to forward their addresses to him at Arnold House, 14 Queen Street, Melbourne. Old Boys who get in touch with him can also obtain from him the names and addresses of the other Old Boys in Victoria, so far as they are known at present.

#### Old Boys' Union Annual Meeting.

The Annual Meeting was held at the School on Friday, October 5, 1928, immediately after the Annual Tea. There were present about 70 members, with the President, N. Y. Deane, in the chair.

After the Report and Balance Sheet had been adopted, it was explained that N. Y. Deane was inelig-

ible for re-election as President. A. B. S. White spoke in appreciative terms of his services, and moved a vote of thanks to him, which was carried.

The following office-bearers were elected:—President, A. B. S. White; Vice-Presidents, W. A. Purves, E. I. Robson, N. Y. Deane, R. W. Carey, D. Williams, H. R. Meynink, Drs. F. G. A. Poekley, A. H. Moseley, and G. R. Hamilton; Hon. Secretary, A. H. Curlewis; Assistant Hon. Secretaries, N. R. Conroy and F. C. Stephen; Hon. Treasurer, Rev. D. Ravies; Assistant Hon. Treasurer, D. F. Roberts; Hon. Auditor, W. J. S. Harding.

As a result of the postal ballot, the following were elected to the Committee:—Rev. I. D. Armitage, T. F. Cowdroy, R. T. Cowlshaw, S. W. Crane, H. H. Dixon, J. R. O. Harris, R. W. Keegan, L. C. Robson, R. R. Sinclair, R. Swift, and A. B. S. White.

The following is the Annual Report and Balance Sheet:—

1. Your Committee has much pleasure in submitting the report of the work of the Union for the year 1926-27.

2. Membership shows a slight decrease for the year, being 1,159 as against 1,218 for last year, but this is mainly due to the fact that a large number of names were removed from the roll on the ground that subscriptions were too long overdue. In the past, members have been allowed a certain amount of latitude in the payment of their subscriptions, but it was found that the expense was not warranted when reminders were not heeded. Prompt payments and immediate notification of

change of address will benefit the Union as a whole.

3. Although it is a comparatively small decrease in the membership of the Union, interest in the Union's activities has greatly diminished. Your Committee has throughout the year endeavoured to be of as much service as possible, not only to the Old Boys, but to the School. Every service to the Old Boys, however, has met with a very weak response.

4. The Annual Dinner was arranged for Friday, April 20, but owing to only 23 nominations being received, it was necessary to cancel it at the last minute. It was noticeable that of the 23 nominations, the majority were your office-bearers. As against this, dinners were held in Melbourne and Adelaide by the Old Boys resident in those cities, and proved great successes. Once again the success was due to the organisers of the functions, Messrs. Boehme and Moodie, and your Committee is indebted to them for their interest.

5. On June 9 the Annual Football Match was played against the School at North-bridge, and, in response to the circular, 16 names were received.

6. The Annual Dance was held at the Ambassadors on July 4 in order to meet the wishes of the country members down for the pole. Here, again, there was a very poor response by Old Boys, and it was largely due to the presence of others that the Memorial Grounds will benefit to the extent of some £35.

7. As promised in last year's Report, the School Register was completed and distributed. Innumerable letters have been received from Old Boys, speaking in glowing terms of its interest and usefulness. On Mr. Davies' shoulders fell the major portion of the work.

8. The Old Boys' Union Scholarships were awarded to S. C. Begbie and J. M. Dixon. Begbie is a Prefect, a member of the 1st XI and 1st XV, and passed the Leaving Certificate in 1927. Dixon is a member of the 1st XI, Captain of

the 2nd XV, and passed the Intermediate Certificate in 1926.

9. The School is to be congratulated on its extraordinary success at the Boat Race. Letters of congratulation were showered upon the Union from all the G.P.S. and the Old Melburnians resident in Sydney. In recognition of the event, your Committee opened a fund to defray the expense necessary to make a presentation to the members of the Eight of their oars, and the rudder to the coxswain, with the colours and names inscribed. In August, your President handed these over to the crew before the assembled School as a gift on behalf of the Union. The School is also to be congratulated upon the success of its rifle teams. The First Team won: (1) G.P.S. Premiership, carrying with it the Schools' Challenge Shield, (2) Rawson Cup, (3) N.R.A. Shield. The Second Team tied with T.K.S., each scoring 512 points, with 29 central bulls.

10. Mr. N. Y. Deane was nominated by your Committee as a Vice-President of the G.P.S. Association to represent this Union, and was duly elected by the Association.

11. During the year Mr. N. R. Conroy resigned from the position of Hon. Secretary, owing to pressure of business, and Mr. A. H. Curlewis was elected to fill the office. Mr. Conroy's resignation was accepted with regret, as he had given several years' service to the Union in that position. Messrs. Cowlshaw and Warden resigned from the Committee in February and June respectively, and their positions were filled by Messrs. Conroy and Crane; the latter was for several years Secretary prior to his absence in England.

12. There have been 10 meetings of the Committee, attendances at which have been as follows:—Davies, Rev. D., 10; Curlewis, A. H., 10; Deane, N. Y., 9; Stephen, F. C., 9; Conroy, N. R., 8; Harris, J. R. O., 7; Sinclair, R. R., 7; Harding, W. J. S., 6; Cowdroy, T. F., 6; Poekley, Dr. F. G. A., 6; Carey, R. W., 6; Roberts, D. F., 5; Moseley, Dr. A. H.,

4; Tiley, C. S., 4; Loyd, H. S., 4; Turnbull, G. C. (leave granted March), 3; Baker, L. A., 2; White, A. B. S., 2; Dixon, H. H. (leave granted May), 2; Warden, D. A. (resigned June), 2; Cowlishaw; W. K. (resigned February), 2; Williams, D., 1; Crane, S. W. (elected June), 1; Stuart, C. S., 0.

N. Y. DEANE, President.

The Annual Meeting of the Old Boys' Club was held at the Club on Wednesday, March 13, and was well attended by members. The fifth Annual Report was as follows:—

During the year the Club has made steady progress, and the present scheme under which the Club has combined for certain purposes with Newington College, Sydney Grammar School, The King's School and The Scots' College, while retaining its separate identity, has continued to work well, and the most friendly relations have continued to exist with the other Clubs. The Board of Directors of School Clubs Ltd. realise that it would be an advantage to enlarge the present common rooms and dressing rooms, but it is doubtful if School Clubs Ltd. is in a position at present to lease any further accommodation.

In the meantime a Building Fund has been started, which will be fed by annual contributions from the Clubs, and should grow steadily; and it is hoped that the Company will eventually be in a position to build its own Club premises. The present accommodation is a great advance on the first premises occupied by the Club, and the Club has had no occasion to regret its decision to join in the combined scheme with the Clubs of the other Schools.

At the close of the year there were 642 members, including honorary and associate members.

During the year Mr. Dudley Williams and Dr. F. G. A. Pockley have acted as Directors of School Clubs Ltd., and Mr.

A. N. Harding has been a member of the House Committee.

Fourteen Committee meetings were held, and the attendances were as follows:—C. N. Walker, 12; A. N. Harding, T. K. Shirley, and H. Lewarne, 12 each; D. Roberts and F. G. A. Pockley, 11 each; R. C. Cox and D. Williams, 10 each; B. Byrne, J. G. Hill, and G. E. Browne, 9 each; J. W. Martin (elected June 12, 1925), 4; and J. Sanderson (resigned), 1.

The Committee wish to again record the good work that Mr. Bagot has done in explaining the objects of the Club to boys who are about to leave School.

The Committee also wishes to thank Mr. N. E. Brooks for again acting as Honorary Auditor to the Club.

It has for some time been apparent that the Honorary Secretary and Treasurer of the Club needed assistance, so the Committee decided to join in with the Old Boys' Union, which was in a similar position, and secure, in conjunction with the Union, the services of an Old Boy for the purpose. The Union and the Club have appointed Mr. G. E. Browne out of a number of applicants.

During the year close co-operation has been maintained between the Club and the Old Boys' Union.

For the Committee,  
DUDLEY WILLIAMS, President.  
A. N. HARDING, Hon. Secretary.
