WAR FUNDS.

The collections this term have all been fairly good, the total amount received up to the time of going to press being £120.

This term we have received donations from The Women's Auxiliary, Messrs. Lemon, Saunders, McLachlan, Mrs. Crane and Barry House. This was further supplemented by the proceeds from the Swimming Carnival.

SHORE SCOUT TROOP.

A party of twenty Scouts, including several Senior Scouts, camped on the property of Mrs. Clunies-Ross at Bayview. Once again we are indebted to Mrs. Clunies-Ross for affording us the opportunity of camping in such a delightful environment, and we wish to thank her very sincerely for her kindness.

DEATH.

What shall I say when that last call comes, that last
 Low murmur of impending restful dark,
 When 'fore mine eyes the play of life has passed,
 And life has made on me its aged mark?
 What shall I think when, clustered round my bed,
 My children watch the last slow ebb of life,
 The laboured breath of their life's fountain-head,
 And mourn its last valets to this strife?
 Then, if I think that life of trouble spent
 For all the world's fair good, and that those years
 Which sped through time to one sole purpose bent
 Had riven the chains that bind mankind in fears,
 So shall I surely triumph though I die,
 Rejoicing in my mind, as Death draws nigh.

A. E. M.

TENNIS.

This term an effort was made to start tennis again in the School, and in order to do so it was decided to play a competition between the Houses whenever possible. Results: School v. Robson—School won by 54 games to 14; Barry v. Hodges—Barry won by 54 games to 23. It is regretted that only a few were able to play for their Houses, but it is hoped in the near future to give more and more boys the chance to play tennis in the School.

EXAMINATION DISTINCTIONS.

The results of the Leaving Certificate, 1943, were not, on the whole, as good as in previous years. The average standard of the 69 boys who passed does not appear to be of such high quality as in 1942 Leaving Certificate. In some cases, however, the passes compared favourably with other years.

G. L. Melville fell short of the maximum pass in one respect only—second class honours in Physics. He obtained first class honours in Mathematics and A's in English and Latin.

A. W. T. Edwards was also unlucky to miss the maximum pass. He obtained first class honours in Mathematics, second class in Physics, and A's in English and French.

In all there were thirteen first class honours, as compared with twenty-three in 1942.

On the other hand, the Intermediate passes were exceptionally good; two boys, M. L. Foster and P. G. Valder, obtained the maximum of eight A's.

THE CADET CORPS.

More officers and N.C.O.'s from the previous year than ever before were amongst those who returned to School this term. For this reason the task of training N.C.O.'s and men has been easier to arrange than is usually the case at the beginning of the year.

The strength of the Corps is 325, of whom 105 joined up this term.

UNIFORM.—The khaki drill uniform has proved to be very suitable for summer wear, and for use in camp. It is, however, much too light for the winter. Woollen uniforms are becoming rather hard to get. Owners of woollen uniforms for which they have no further use are urgently requested to send them in to Lieut. I. F. Jones for sale to boys who need them. Other items of uniforms will also be welcome.

CAMP was held at Walgrave in "A" Block from 9th December to 14th December, 1943. The weather was kind, being neither too hot nor too wet. The country around is excellent for training purposes. About 250 of the Corps attended camp. There were other schools in camp at the same time, total strength being over 700. The camp was one of the best we have had.

N.S.W. L. OF C. AREA COURSES.—Two courses were conducted by the S.O.S.C. during January last. The Corps was permitted to send 10 nominees to each course. In Course No. 18, two gained distinction, six qualified, and one passed. In Course No. 19, for potential officers, all ten qualified. The results are shown below. A further course is to be held during May.

OFFICERS.—Six Cdt.-Lts. and two who qualified for commissions last year returned to School this year. These latter have since been appointed. The number of vacancies to be filled was therefore only six. The papers of four

who qualified in Course No. 19 have been sent in. The remaining vacancies will be filled next term.

LONG SERVICE.—Five years' service, on leaving School, stood to the credit of Cdt.-Lt. P. Freeburn, O.C. "C" Coy., Sgt. I. F. Warren and Cpl. J. T. Rodd, and four years to the credit of Cdt.-Lt. F. M. Macdiarmid, O.C. "A" Coy., Cdt.-Lts. J. J. Coghlan and W. A. D. Morgan, Sgt. W. Boyd, Cpl. J. E. J. McCutcheon and L/Cpl. R. J. C. Mills.

STRENGTH.—11 Officers, 3 W.O.'s, 12 Sgts., 39 Cpls. and L/Cpls., 260 O.R. Total, 325.

EXAMINATIONS AND PROMOTIONS.—Passed for Cpl., 7 Mar., '44 : Cdts. J. D. Bertram, E. J. Playfair, J. T. Wilton, K. W. Davies, S. G. East, F. E. S. Hall, D. H. Playfair, N. M. Snashall, J. A. Skidmore (appointed L/Cpl., 13 Mar., '44), D. A. C. Laurie, R. L. F. Moses, W. P. Nelson, J. W. Ronald, J. L. Cordingley, W. F. Engelbach, C. S. Grant, P. N. Love, R. J. McCormack, H. A. D. Noble, A. ROBIN HOOD AND THE FAT GREY FRIARS.

Bold Robin was hieing him over the lea,
With a hey and a ho and a down-derry dale,
When two fat grey friars it happed him to see,
Walking and talking right orgulously,
All in the forest light so pale.

"Good morrow, my masters," quoth bold Robin Hood,
With a hey and a ho and a down-derry dale;
"Now shrieve me, I prithe, unless, by the rood,
Sin shall I do in the good greenwood,
All in the forest light so pale."

"Now get thee, thou mendicant, out of our way,
With thy hey and thy ho and thy down-derry dale;
For thinkest thou grey friars can stop for to pray
For vagabond varlets all night and all day,
All in the forest light so pale?"

Then Robin did blow him three blasts on his horn,
With a hey and a ho and a down-derry dale;
Right so the two grey friars did look all forlorn
As twenty brave outlaws ran over the lawn,
All in the forest light so pale.

"My fathers, my fathers!" said bold Robin Hood,
With a hey and a ho and a down-derry dale;
"Since ye will not shrieve me, then so, by the rood,
Sin must I do in the good greenwood,
All in the forest light so pale."

Then bold Robin Hood their grey robes took,
And from them good angels and nobles he shook,
With a hey and a ho and a down-derry dale.
So down the fat grey friars knelt for to pray,
And full absolution got Robin that day;
And the two fat grey friars went doleful away,
All in the forest light se-pale.

CRICKET.

Increased keenness for cricket has been noticeable this term. More teams played for the School on Saturdays than ever before, practices were keenly attended, and form matches in the third forms were a marked success. The teams playing on Saturday met with a good deal of success against other schools, and all through the School there are individual players showing promise. This is satisfactory when it is considered that very few new boys coming in to the School now have had much chance to learn the game. Country boys particularly

seem to have been affected by wartime conditions. In hardly any instances do they come to school now with any cricket experience. In fact, every member of the 1st XI. this year has been a city boy, the parents of even the three boarders in the team residing in the city.

The 1st XI. was unbeaten during the term. It was a very solid batting side, since the tenth man in was as likely to make a score as the first. Faram was the best batsman; he made runs every time he batted, and was always sound and forceful in his methods. Burns started below form, but later played some very good knocks, while Collett, Playfair and Taylor were responsible for good batting performances when they were badly needed. It was felt all the term that we had enough good batsmen in the team not to be unduly worried by the loss of a few early wickets.

The bowling, apart from Kirby, was not as good as the batting: Love was generally reliable, and McGregor gave promise of being useful next term; but there was not enough life and attack in most of our bowling. Kirby was a grand exception. His fine natural ability is matched by his stamina and determination. He is really fast for a schoolboy, and his length and direction are nearly always sound. Best of all, bad luck and missed chances do not upset him at all. He enjoys bowling all the time.

The fielding was patchy. Burns set a magnificent example, and all the team tried to follow it, but with only moderate success. The slip fieldsmen were not certain enough and suffered from lapses of concentration, and most of the others had bad spells. Tugwell improved as much as any. Faram was very good behind the wickets, safe and efficient without unnecessary flourish, and pleasingly sparing in his appeals.

The real strength of the team lay in the way its members pulled together and practised. For this Burns, ably assisted by Faram, was mainly responsible. Burns's interpretation of a captain's job was not limited to the Saturday games or to the 1st XI. He was the School's cricket captain, and his influence was felt through all the teams. No team of recent years has done as much fielding practice as this one, and it was good for the rest of the School to see the 1st XI. at work nearly every lunch hour on the School ground. On the field also the team was well captained. Bowling changes were not made haphazardly, but always in pursuance of some plan. Onlookers did not always see this plan, and even those that did, did not always agree with it; but there was never any doubt that thought and purpose were going into the conduct of the game.

Several members of the 1st XI. gave up time to helping junior teams, and Bennett performed a great service in looking after the material most efficiently.

The 2nd XI. was strong again, and won most of its matches outright. They lost to Scots by 1 run on the first innings. Edwards, their captain, batted finely in this team, and bowled usefully. Ferguson was a much improved all-rounder, and on wet wickets J. Shand bowled well. Chambers, de Lissa, Warby and several others showed promise with the bat. Davey kept wickets well.

The 2nd "B" Team had some good performances against the seconds of other schools; the 3rds were stronger than for some years past, and the under age teams showed a good deal of promise. It has been very difficult to get cricket for all who have wanted it, now that such limited use can be made of the School ground. If the present reawakening of interest in cricket continues next summer, it will be more difficult still.

9th and 10th XI's.

These teams have had a good number of wins, and in spite of many difficulties their standard has improved. Cadell and Lorimer were competent captains. Improved players include Whitcombe, Doust, Barsby, Kellet, Hawke, Heath, Powell, Davidson, Nelson and Meares. Nets were well attended, Cadell being most useful in their organisation.

11th and 12th XI's.

These teams enjoyed the few games that were played, and, judging by their enthusiasm, should produce some useful players. Help given by boys of the 1st XI. at Northbridge was greatly appreciated.

SCIENCE CORNER.

DEHYDRATION OF FOODSTUFFS.

Many varieties of fruit and vegetables consist of more than 80% water, and the extraction of this water has been the subject of much research. The result is a new industry, dehydration. The dehydrated foodstuffs are cheaper to transport, they are easier to store, and may be preserved for long periods without decomposition.

From the first it was realised that the fruit and vegetables had to be sterilised to remove bacteria and the digestive juices known as enzymes to ensure successful preservation after dehydration. This process, called blanching, also prevents discolouration and the development of any off-flavours. Onions are not blanched. In this preliminary process, fruit and vegetables are immersed for several minutes in boiling water, boiling sodium sulphite solution or steam.

There are several processes of dehydration, and the one used depends on whether solids or liquids are being treated. For each individual substance, such as castor oil, mushrooms, butter, milk, meat or vegetables, there is a variation in procedure.

The most widely used method at the present time is the tunnel process,

whereby fruit or vegetables are peeled, blanched, sliced and placed on a conveyor, which then takes them through a tunnel down which hot air is drawn. The flow of air is so arranged that the fruit or vegetables reach their maximum temperature about the middle of the tunnel and cool off before reaching the end. In California this method has been very successfully tried, and it has partially displaced sun drying there.

Meat is similarly treated, but instead of being blanched it is flavoured and cured with salt, and cooked in steam. It is then chilled, ground and heated on trays for about four hours. The meat, when cold, is compressed under a pressure of 2000 lbs. to the square inch, and then packed in airtight containers in a vacuum.

A variation of this method is used with potatoes. These are washed, peeled and blanched in boiling water, then cooked in an autoclave or pressure cooker until they resemble thick soup. This soup is projected as a fine mist into hot air. The moisture immediately evaporates, and the dried potato falls to the bottom of the chamber. In this process the humidity, temperature and rate of flow or air are all subject to the most exacting control, for a variation in any one of these may influence the taste and the inability to keep of the final product.

In the second method, used for milk and castor oil, the liquid is first sterilised and then dehydrated. Milk is heated in an atmosphere of steam under pressure, but castor oil is heated in an atmosphere of inert gas. There are other methods involving infra-red lamps and ultra high frequency electric currents from which good results have been obtained, but these methods are still in the laboratory stage.

America and England have co-operated in pioneering this new industry, but Canada and Australia are not far behind. On account of the war, there is a wide demand for dehydrated products. Russia asked for quantities of dehydrated meat in 1941 variously estimated from 1000 to 2500 tons. Brazil is turning out dehydrated castor oil at the rate of 60,000 lbs. a month.

Dehydration has, however, its disadvantages. The tendency to condense a meal into a pill may give all those vitamins necessary for healthy growth, but it will not satisfy an appetite. Again, dehydrated apple or egg, when "refreshed" or rehydrated with water, will not give ripe red apples or eggs in shells!

THE ART CLUB.

There is some good talent amongst the new boys. Halls is especially gifted, but good work has also come from Dobbin, Gregor and Burns. We should be glad of more drawings to exhibit under the arch.

Nicolson, J. Cornwell and Davidson submitted good posters for a competition. We wish them luck.

The Secretary, G. Richards, brought to the School an original watercolour by John Constable. However, there was no chance of exhibiting at the School this most valuable picture.

G. Davis, last year's Secretary, has presented the Club with some large bristle brushes—a valuable present in these times.

Both Davis and B. Robertson have joined the Navy, where there is always good scope for artists. Davis, no doubt, will be in his element caricaturing anyone from a "snottie" to an admiral; while Robertson, whose seascapes already show much promise, should make his name as a marine artist.

ROWING NOTES.

During the term rowing has been carried on in approximately the same way as in recent war years. A ten-day camp was held at Christmas, and crews then began to take shape. Since that time the average number of rows has been a little below four per week, including Saturdays; we have been limited by a barely adequate allowance of petrol for the 'bus. This amount of rowing has proved satisfactory for the Eight and two Fours. However, the more junior crews have been unable to come up every day, and therefore have been at a serious disadvantage. The Eight has progressed well. It consists of fairly experienced men, four from last year's Eight, the remainder from last year's Fours. The average weight is about 11½ stone, and all have won races. Although, individually, they are excellent material, some difficulty has been experienced in co-ordinating their work, because there are differences in physical build and in muscular habits. Writing some ten days before the G.P.S. Regatta, one can say that they are definitely a very good crew, and that if they fall into and maintain a good racing rhythm they will be hard to beat.

The 1st Four is fairly heavy, and has both power and skill. They again are finding difficulty in acquiring uniformity, but they should do well. The 2nd Four is light, but more uniform, and has proved, in practice, to be quite fast. The 3rd, 4th, 5th and 6th Fours have been training at Gladesville. They are to row as such at the G.P.S. Regatta, and will also be boated as 1st and 2nd Junior Eights. They have not had as much rowing or as much coaching as we should have wished, and their standard so far is perhaps not as good as usual. However, they lack nothing in enthusiasm.

We have not entered crews in other regattas during the term. The reason is that they were not ready to race in February, and that the only eights race arranged in March was an intermediate eight for which our crews—of which five members have already won open eights—was not eligible. Several crews, however, rowed at Riverview Regatta on April 15.

A great deal of keen work has been done at Berry's Bay, and there should be plenty of material available for next year. The Berry's Bay contingent carried out a successful Picnic Regatta on the Lane Cove in conjunction with Riverview. They will be represented by two crews rowing in tub fours at the G.P.S. Regatta.

There is plenty of evidence that this year the competition at the Regatta will be keen. All the schools appear to have been training hard, and some of our rivals have eights which are far ahead of those which have represented them for the last three years.

ROWING CAMP, 1944.

Rowing Camp commenced on Thursday, 27th January, despite rationing restrictions. There were fewer boys in camp than last year, and a number attended daily. Mr. Burrell, as usual, was in charge, and due to him the camp was a great success. Once again we owe our thanks to Mrs. Burnett, who overcame the apparently insurmountable difficulties of catering extremely well.

As the pontoon was still undergoing repairs, crews were boated under considerable difficulty from the staging, and the eight and two fours boated from Towns' shed. By the end of camp all crews were fairly well settled, and the standard was good. The eight covered 65 miles approximately, while the four fours also carried out extensive training. A junior eight, composed mostly of day boys to the camp, showed good promise for the future.

During the ten days we were glad to see Mr. Hickson and Mr. Roughton and three well known Old Boys—Lieut. Bill Roughton, Capt. David Bartley and Lieut. Peter Shaw—who all assisted us on different occasions. Bill Roughton and Dave Bartley both kindly spent two days at the shed coaching fours. We must also thank Mr. Roughton for his kind gift of 8 lbs. of sausages, which was more than acceptable under the circumstances.

Altogether the camp was a great success, and everyone enjoyed themselves thoroughly, as well as carrying out valuable training.

RIVERVIEW AND G.P.S. REGATTAS.

At Riverview Regatta, held on the Lane-Cove River on April 15, we entered the Eight in the Open Eights, the 1st Four in the Open Fours, the 2nd and 3rd Fours in the Maiden Fours, and the 4th, 5th and 6th Fours in the G.P.S. Junior Fours. The boats were moved to Riverview shed on April 13 by lighter, and we enjoyed the hospitality of St. Ignatius' College once more for a few days. All races were over the half-mile course. The weather was good, with a light breeze from the south-west. There was a big entry, and most races had to be rowed in heats. Following were the results, with brief comments:—

G.P.S. Junior Eights: S.J.C., 1; S.I.C., 2. We did not enter a crew, as we were unable to transfer a sufficient number of boats.

G.P.S. Junior Fours: Shore No. 6, 1; Shore No. 4, 2; Shore No. 5, 3. These crews rowed quite well. The 4th Four got off the course, otherwise it might have won. The 5th Four rowed a too low rate. The 6th Four showed plenty of vigour and won creditably.

Maiden Fours: Haberfield, 1; High, 2; S.J.C., 3. Our crews were beaten in the heats.

Open Fours: Nepean, 1; Scots, 2; Mosman, 3. Our crew was beaten in its heat.

Open Eights: 1st Heat—Shore, 1; Scots, 2. Won easily by two lengths; time, 2 mins. 36 secs. 2nd Heat—Haberfield, 1; S.J.C., 2; Grammar, 3. Final—Haberfield, 1; Shore, 2; S.J.C., 3. Won by 6 ft., with 2 ft. between second and third; time, 2 mins. 32 secs. In the final we had the outside station, with is definitely a disadvantage, and after rounding the pile were about half a length behind St. Joseph's, who then led Haberfield by a few feet. Over the last 300 yards the crew rowed splendidly, and very nearly made up the leeway.

The boats were returned to Gladesville by lighter on Monday, April 17, in preparation for the G.P.S. Regatta on April 22. The rowing of the last week was hampered to some extent by heavy weather, but all crews seemed to come on well. The Eight seemed to improve markedly in length and finish and in self-confidence. The Regatta itself was run by the G.P.S. Committee, and was a bigger undertaking than ever, with a programme of eleven races. It was very well conducted, but there were defects, of the kind which are partly unavoidable on the Parramatta River. Small craft encroached on the course from time to time, and the Water Police were unable to control them completely. There was once more a ferry boat full of spectators, which, though not so annoying as in former years, was quite bad enough. When the first race was rowed, it was actually on the course near the finish. Ferry boats should be banned, since it has been proved by long experience that there is no adequate safeguard against their interfering with the racing. A defect which was avoidable was that the races were held on a rising tide. This never used to be done. The reason is

not so much that there is a difference in equality between the various stations : upon this point opinions differ. It is rather that the river's flow is unreliable, and that the difficulty in controlling crews is greatly increased. This was thoroughly illustrated at the start of the eights, when the crews, in lining up, were carried rapidly down upon the starter's boat. At the first attempt, the starter sent them off with insufficient intervals, and they had to be recalled. In order to see the strength of the tide, one has only to compare the time of the second junior eights race, which was rowed before the tide began to run, with that of the other two eights races. Our most junior eight, rowing on slack water, covered its distance a little faster than the School eight, rowing against the tide, though the School eight was about six lengths (or 20 secs.) better.

The races were well distributed, the chief success going this year to High, who won the eights and three junior fours. Our crews had three firsts, three seconds, three thirds, and two fourth places. The junior crews rowed well, and deserve the more praise in that they were often, during practice, called upon to give way to more senior crews. The two tub fours deserve special praise, as they rowed always on the foaming billows of Berry's Bay. The 1st and 2nd fours earned a better reward than they obtained. They were sound crews, whose individuals rowed well, but they could not manage quite to "connect" with the collective timing upon which pace depends. They certainly, on the north station in each case, had the worst of the tide. The eight was really a very good crew, with experience, sound rhythm and length. It is impossible to compare crews from year to year, but they would certainly stand comparison with our best. It was their luck to strike a good High School crew, which moved quite definitely faster on the day. A final word of commendation for Leslie, the most recent in a line of very good sevens, whose oarsmanship is good enough to put him in (literally) almost any first class crew.

RESULTS OF RACING.

(Eights, $\frac{3}{4}$ mile; Tub Fours, $\frac{1}{2}$ mile; all others, $\frac{1}{2}$ mile.)

Second Junior VIII.—S.G.S., 1; Shore, 2; S.I.C., 3. Time, 2 mins. 50 secs.

First Tub IV.—Shore, 1; S.G.S., 2; T.S.C., 3.

First Junior VIII.—Shore, 1; S.G.S., 2; S.J.C., 3. Time, 3 mins. 4 secs.

Second Tub IV.—Shore, 1; S.G.S., 2; T.S.C., 3.

Sixth IV.—S.G.S., 1; Shore, 2; S.J.C., 3. Time, 3 mins. 25 secs.

Fifth IV.—S.H.S., 1; S.I.C., 2; Shore, 3. Time, 3 mins. 32 secs.

Fourth IV.—S.H.S., 1; S.G.S., 2; Shore, 3. Time, 3 mins. 32 secs.

Third IV.—S.H.S., 1; S.G.S., 2; Shore, 3. Time, 3 mins. 29 secs.

Second IV.—S.J.C., 1; S.G.S., 2; T.S.C., 3; Shore, 4. Time, 3 mins. 22 secs.

First IV.—S.J.C., 1; S.H.S., 2; T.S.C., 3; Shore, 4. Time, 3 mins. 18 secs.

Eights.—S.H.S., 1; Shore, 2; S.J.C., 3; S.G.S., 4; N.C., 5; T.S.C., 6; T.K.S., 7; S.I.C., 8. Time, 4 mins. 21 secs.

Shore Crew : Bow, D. B. Cormack (11.2); 2, D. E. Warden (11.2); 3, A. D. Eedy (11.0); 4, J. O. Zehnder (12.0); 5, P. J. Valkenburg (12.7); 6, C. B. M. Lloyd (12.5); 7, D. T. Leslie (12.6); stroke, A. G. Robson (10.4); cox, F. M. Manning.

After a false start, High took the lead, and, keeping well to the south in No. 1 station, maintained it throughout. At Tennyson we were about three-quarters of a length back, and were slightly ahead of St. Joseph's and Grammar. We then opened out from these two crews, but were unable to make up the leeway upon High. Won by 1 length, $1\frac{1}{2}$ length, 1 length.

VULTURES.

The bright South American sun shone down through the clear air of the Cordillera and reflected dazzlingly from the white, mountain snow. A number of steep, dark passes cut through the range from the Chilean plains on the one hand to the Pampas on the other. A dark-skinned man was hurrying through one of these passes on this day. He was obviously not of the hill country, for he was wearing the bright red chillpa and brilliantly coloured cloths of Argentina. His right arm was shattered at the elbow, and he had tied it up with strips torn from his green sash. Every now and then a swift shadow crossed his path and went leaping up the rock walls on either side, for a dozen or so vultures were circling over him. The man walked stumblingly, for most of the time he was looking over his shoulder back along the way he had come. Far behind his hurrying figure were horsemen, robbers, who would kill him when he had been caught, and leave his body to the condors and the vultures. These birds of prey were accustomed to seeing the brigands kill the mountain travellers, and knew when they could depend upon a feast. The pursuers were guasos, the same type of man as had followed Pinchiera on his terrible exploits in the farms and ranches of Chile. They wore the usual dark green leggings with the stripes and the large silver spurs.

The hunted man did not know this country at all, and the large green boulders that blocked his path baffled him. He was amazed that the brigands behind him could ride horses in such country. Many times he tried to find a place in which to hide, but there was none. And the terrible vultures were still circling above him. As he came round a bend in the pass, he startled another flock of birds up from the rocks. They had been picking at a skeleton, to which fragments of bloody cloth still clung. The disgusting smells of the birds and their feast caused him to hurry still faster, if that were possible. Finally he came to a ravine where the track had once crossed on a stone bridge, but this had fallen in, leaving a space of about sixteen feet between the remaining portion of the arch and the opposite side. He stood on the rock projection staring terrified into the abyss before him, and then looked up to seek a means of escape. Far overhead the vultures were settling on a rocky crag, waiting for the feast that could surely not be denied them. Below the ravine gaped, with sharp jagged teeth waiting far below to smash any man who passed within its lips. If he could gain the opposite side the man knew he would be safe, for not even a guaso's horse could be trusted on such ground. The Argentinian stepped back until he was pressing against the cliff face behind. By now he could hear the galloping hoofs of the horses on the stone underfoot, so he must attempt the jump at once or die horribly under the knives of the pursuers. He braced himself for a moment against the cliff, then running towards the ravine, leapt out for the other side. . . .

The vultures, baffled, flew back the way they had come.

1944 SWIMMING REPORT.

The Annual Swimming Carnival was again held on March 8th at the Olympic Pool, North Sydney. The standard of swimming was not as high as that of last year, but this year's carnival was particularly successful. The keen interest and the evenness amongst the Houses aroused an exciting atmosphere. School House finally won, with Hodges second, Barry third, and Robson fourth.

After paying expenses, the financial result was such that £22/15/3 was added to the School's Lord Gowrie Fund. Certificates were substituted for trophies as prizes.

J. M. B. Cooke won the senior championship, J. J. Allen the junior (breaking two records), R. Blanshard the under 14 championship, and Le Gallien the under 13 championship.

* * * * *

At the All Schools' Carnival on March 25th, G. A. Wilson won the open 100 metres breaststroke, D. Playfair the junior 100 metres breaststroke, and the junior relay team the Angus & Cooté Cup. Three minor placings were also gained. The following were recommended for 1st awards: J. J. Allen, F. W. S. Ballhausen, B. L. Collett, J. M. B. Cooke and J. Langmead.

Results of the races are as follows:—

G.P.S. Relay.

200 m.: 1, T.S.C.; 2, S.G.S.; 3, Shore. Time, 2 mins. 1.4 secs.

Open Championships.

50 m.: 1, Collett; 2, Ballhausen; 3, Langmead. Time, 30.8 secs.

100 m.: 1, Cooke; 2, Ballhausen; 3, Collett. Time, 1 min. 11.7 secs.

Diving: 1, Collett; 2, Playfair; 3, Love and Langmead.

150 m. Medley: 1, Love; 2, Collett; 3, Barnes. Time, 2 mins. 24 secs.

50 m. Backstroke: 1, Love; 2, Nelson, J. R.; 3, Cameron. Time, 43.8 secs.

50 m. Breaststroke: 1, Wilson; 2, Paine; 3, Barnes. Time, 39.8 secs. (equals record).

200 m.: 1, Cooke; 2, Harris; 3, Collett. Time, 2 mins. 52.8 secs.

400 m.: 1, Cooke; 2, Harris; 3, Collett. Time, 6 mins. 24.1 secs.

800 m.: 1, Cooke; 2, Harris; 3, Wilson. Time, 13 mins. 52 secs.

Under 16 Championships.

50 m.: 1, Limbers, P.; 2, Allen; 3, Playfair. Time, 31.2 secs.

100 m.: 1, Allen; 2, Stewart; 3, Limbers. Time, 71.4 secs.

Diving: 1, Playfair; 2, Love; 3, Lloyd.

THE FOSSICKERS.

So far this year we Fossickers have been very inactive. During this, the longest term of the year, we have met only twice—once to elect new members, and then very informally discuss the future of the School under the guidance of the Headmaster; and then, some four weeks later, to listen to one of the most interesting talks we have yet had. Our guest was Mr. Haugen, a Norwegian, and the father of young Peda Haugen of the Prep. Mr. Haugen started off home from Australia to fight when Germany invaded Norway in 1940. On the way his ship was captured by a German raider, and, after many very trying and some very exciting experiences, including being sunk by a British submarine just off the French coast, he was finally landed at a port in Occupied France. From there he was transported to Norway, where he joined his relatives and lived as an ordinary citizen. After about a year in Norway, he escaped by fishing boat to England, and thence returned to Australia.

It may be noticed that Mr. Haugen's stay in Norway has been but casually put down as if of no special importance. The reason is that that is just how Mr. Haugen treated it. Even we complacent Australians are not so ignorant as to think that twelve months in occupied territory was of no great interest or importance. And yet that is just how Mr. Haugen seemed to consider it, and yet somehow, underneath it all, we got the idea that Mr. Haugen doesn't like the Germans very much, and that he will be quite glad to see them depart for Germany.

From this short summary it will be seen that Mr. Haugen was a great success, and that his subject was one which gripped us from the beginning. One reads of escapees from occupied territory, but it is seldom that one has the experience of meeting one, and so we all owe our thanks to Mr. Haugen and his charming wife for coming to our meeting, and to Brigadier and Mrs. Playfair for acting as intermediaries.

Before the end of this term we hope to have Brigadier Playfair along to tell us something about the food problems in Australia, and so, what our meetings have lacked in quantity this term they have certainly made up for in quality.

THE OCTET CLUB.

The various groups have been practising as time permitted. The Club is very large, and it should be noted that any slackness in attendance will have to form an excuse for some "thinning out"! The Plantation songs, as far as good music goes, cannot, of course, hold a candle to "Merrie England," but they are bright, tuneful and entertaining, and if done really well they never fail to hold an audience. The words and music of most of the songs are easy enough to encourage carelessness. The experienced know, however, that fine points, such as smart entries, correct breathing, clear enunciation and "cut-offs," are just as essential in the easy work as in the difficult, and, therefore, require just as much practice. As usual, full practices will not start until all the parts are perfectly known. With any luck, this might be early in June.

Several members have already distinguished themselves at the mid day concerts.

AIR TRAINING CORPS.

At the commencement of the term there remained 38 members of last year's Flight, of whom seven had qualified for the rank of Corporal. Further applications have brought the number up to 56, which is seven less than last year's maximum.

V. F. Thompson is Flight Sergeant, A. W. T. Edward and R. Upton are Sergeants, and B. K. Hope, Fuller, Morris and Thornton are Corporals.

Edwards and Hope are now working Stage III., and hope to complete it before pressure of school work becomes too great; eight others are in Stage II., and these may be joined shortly by not more than five others, the remainder being in Stage I., with seven to complete their preliminary. The presence of the various stages complicates the work of the Flight considerably, the more so as there is still no room available for a Flight reading-room, library, etc., where cadets could work in odd times. Training in administrative duties cannot be dealt with under these circumstances.

Nineteen cadets attended a very successful training camp at Avalon at the end of Term III., twelve sitting for their Proficiency Exam. at the conclusion of the camp. Amos, Gilbert and Morris gained special distinction, while Langmead and Fuller obtained distinction. At the same time, Edwards and Hope sat for and passed their Stage II. Exam., Edwards obtaining a special distinction. The high standard of these passes is very pleasing, and should be an encouragement to others to emulate them.

Information received shows that since the formation of the Flight in 1942 26 cadets have passed into the R.A.A.F., and are now completing their training, or are on operational stations; a number of others are joining as their eighteenth birthday is attained. All those referred to were members of the 1942 Flight.

This term it became possible, with the helpful co-operation of the School Cadet Corps, to commence a Musketry Course for the Flight, and at the time of writing 24 cadets have shot at the miniature range, some of them for the first time. It is possible that a representative team from the Flight will be formed to enter into competition with similar teams from other Flights. We make our acknowledgments to Major Bagot and his officers and cadets for their assistance in this work.

DEBATING.

Debating this term has attained a surprising popularity. Attendances have been a record, and meetings and discussions remarkably fiery. In addition to the usual subjects, such as "That the White Australia Policy should be maintained," we debated a subject, "That life is worth living," a subject more philosophical than our usual rank and file.

The fifth forms have produced many promising speakers, such as Clarke (who, with Melville and Macphillamy, constitute the Debating Committee for this year), Foster and Suhan. From the sixth forms new speakers, McCaskill and Gall, emerged.

However, the standard of debates has not been particularly high. A common fault of most speakers was to treat superficially important subjects. In a debate, "That the pen is mightier than the sword," held the week before this was written, almost every speaker, of whom there was a fair number, was sidetracked and spoke off the point. However, much enthusiasm has been displayed, a welcome sign for the continuance of debating next term, when competitions are to be held.

THE SPIRIT OF ENGLAND.

In sweet and cherished happy air,
In charmed and peaceful bliss,
We lived a life so free from care,
Our troubles far amiss.

Whilst o'er the sea afar from us
That ruthless Hun had planned
By all his base and foulest deeds
The ruin of our land.

Then on that day in '39,
With anxious dreaded look,
We watched for news in every line
From paper, pamphlet, book.

Then went our sons away from home—
Amongst them husbands too;
Amidst an air of fateful doom
Our sadness grew and grew.

As if this weren't for us enough,
Those dreaded shapes drew nigh;
Death with destruction rained on us
From our blue, peaceful sky.

We welcomed death as friend to us
To leave this wretched hell,
For with our friends once more we'd be,
Away from German shell.

And when they turned from our fair land
With horror in their trail,
'Twas then we realised in our hearts
That Britain must not fail.

From farthest tracts of Empire's realm,
Responsive to the call:
No sacrifice, no love too great
For England—blessed by all!

ENTERTAINMENTS CLUB.

This term, from lunch hour, concerts have been held in School House Prep. Room. At the first, on Friday, March 3rd, Miss Evelyn Gardiner was our visiting artist. She sang several songs, including "Buttercup," from "H.M.S. Pinafore," and devoted fifteen minutes to the presentation of very interesting character sketches of William Gilbert, Arthur Sullivan and Richard D'Oyly Carte, that famous triumvirate—librettist, composer and entrepreneur—responsible for a

series of light operas which are still as popular as ever. We thank Miss Gardiner very warmly for her delightful singing and a most interesting talk.

The next three concerts were held at regular intervals during the term, and were given by Shore boys on each occasion. At the first, M. Tate (VI.D) played two violin solos, "Meditation" (Gounod) and "Old Refrain" (Brandl); B. Alldis (III.B), a new boy, played the piano—a Rachmaninoff prelude; J. King and Alldis played a trumpet duet, "Strains from Death and Glory"; and S. East (V.B.), a tenor, sang "Three for Jack" (Squire) and "The Farmer's Pride" (Russell).

At the next concert, M. F. Shellshear (III.A) played two compositions for the piano, "Rondo" (Diabelli) and "Petite Piece" (Goldicke); D. B. Cormack (VI.B) sings "Boots", and "When the Sergeant Major's on Parade"; and J. B. Alldis played two trumpet solos, "I'll Walk Beside Thee" and "Tangerine."

At the final concert the performers were Freeth (III.D) playing the flute, Muston (VI.A) playing the clarinet, and Paterson (VI.B) singing.

We do thank Miss Glennie Holmes for her delightful accompaniments at each concert and the great assistance she has given performers during rehearsals.

THE PREPARATORY SCHOOL.

Music.—In Chapel, the usual Friday services were held. The singing is rapidly improving under Mr. Nilsson, who is insisting on a very high standard. Among items practised were some new chants and the Festal Responses. Many who are not in the "50" Choir are beginning to sing quite well.

About twenty boys are practising the Plantation songs for the Octet Club, though some may not be quite up to the final standard required. Several boys are doing well in the junior violin classes under Mrs. Allman. Before long it is hoped that another class will be formed. Boys who can play, or who wish to learn, other instruments, should make themselves known at once.

Art.—Two classes are now held once a week, and a good start has been made. Later on some of the best work will no doubt be exhibited. We expect members to do plenty of work in their spare time.

Carpentry.—Any boys anxious to learn should make written application to the Bursar as soon as possible, as numbers are limited. The charge is only 10/- a term.

Cricket.—This year's XI. is most promising in material, taking into consideration the tender ages of its members. Probably we have this year the makings of the best team we have seen in recent years. The team has played seven games, winning four of them, the results having been published in the "Weekly Record" each week. The best performances in batting this term have been put up by Kristenson, Laurence, Leggett and Haugen; these boys are forceful bats, and are very promising players. The bowling of Carr, Ducke, Leggett and Sixsmith throughout the season has been the main feature of the team's success; they all keep a good length, and, above all, they have bowling sense. The fielding is keen, but members still have to learn to return the ball on the full to the wicket-keeper or bowler. Our worst fault at the present is the calling and running between wickets, but we hope to correct this in the third term. The 2nd and 3rd XI.'s have played a good many matches, with a fair amount of success.

The Colts' XI. won most of their matches, although the batting has been

disappointing. Paynter shapes the best and keeps wicket well. Tugwell captained well, and he, Blanks and Shaffran should become good bowlers. Fielding was very fair, McHutchison being one of the best. Padman showed good form latterly at batting and fielding.

Swimming.—A number of boys took part in the Annual Carnival, where some good performances were put up. The Inter-Quarter Competition was won by Hall. At the Combined Preparatory Schools' Meeting our representatives performed well, P. Haugen in the senior backstroke, D. Newton, J. J. Kristenson and B. Tancred in the freestyle, and K. Barnes in the breaststroke being the most successful. In addition to successes in individual events, we won the senior relay.

ORCHESTRA NOTES.

The Orchestra has certainly been experiencing one of the most interesting and valuable happenings of its career to date. It is indeed remarkable to have found ourselves so soon to be taking our place amongst the selected items for the Conference Concert at the Sydney Town Hall held on Friday, April 21st, together with playing half an hour's programme at the Conference Session held on Friday morning at the Conservatorium. If the congratulations and many good things said were sincere, and the amount of applause received from our audiences was genuine, we can feel most encouraged to put every effort into the future and build our musical house on a rock, making for ourselves friends of the great composers through the study of their music. Music being an art to satisfy every mood, we can still, when we choose, play the kind that Thomas Wood describes which never tries to make you think, tickles your fancy, makes you dance, and helps you to eat.

ROLL OF HONOUR.

*Now presumed dead.

CLUB NOTES.

The annual meeting of the Club was held on 16th March last, and the Club President, Mr. Richard Ludowici, submitted the Annual Report, which was as follows:—

"The fact that a great deal of material progress had not been made in many directions was not to be ascribed to a want of suggestions by members of the Committee. Present circumstances had, however, all tended to make adoption of new departures extremely difficult.

"The total number of members on the Club's records was 678, which is almost equal to the highest so far recorded. With this large total of members, the Committee felt that the Club would be justified in vigorously endeavouring to provide greatly improved facilities immediately the existing wartime restrictions were lifted.

"The Committee was extremely proud of the fact that 353 members, representing 50% of the total, are at present on active service, and this fact led directly to the financial position of the Club. The remission of membership fees to members on active service had been the main factor in bringing about a loss in the financial accounts for the current year of approximately £60. These figures showed members the importance of obtaining new members, promptly

paying subscriptions, and doing everything possible to assist in carrying on while the war lasted.

"A small memo of Christmas greetings sent to members on active service was much appreciated and widely acknowledged.

"The social function to welcome new members and to entertain boys who had just left school was held at the Club on 18th February, 1944. The Committee felt that this function, besides being appreciated, was of great value in welcoming new members and affording the Committee an opportunity of meeting them in person.

"It was with pleasure that the Committee again recorded its appreciation of the great interest Mr. J. N. Pascoe takes in bringing the Club under notice of boys leaving school. Mr. Richard Swift again officiated as Honorary Auditor, and, these times, especially, his assistance in this direction is much appreciated.

"The Committee had pleasure in recording that it had recently inaugurated a weekly collection for the Prisoner of War Fund, and since the date of its inception—18th November, 1943—the amount of £31/10/6 had been collected and paid to the Australian Red Cross Society. This amount was inclusive of donations received in response of an appeal made in our subscription notice of December last. Amongst subscribers are members of other clubs.

"At the instigation of the Committee, School Clubs Ltd. re-introduced the Billiards Committee, Messrs. P. E. Royle and S. G. Stott representing this Club. Messrs. D'Arcy F. Roberts and R. Ludowici have represented the Club on the Board of School Clubs Ltd. during the year.

"It was with deep regret that the Committee recorded the deaths of the following members whilst on active service, and extends its sympathy to their relatives: Sgt. Pilot A. B. Barton, Pilot-Officer J. S. Henderson, Flying-Officer B. P. Jay, Lieut. J. C. Leitch and Captain G. Thyne Reid."

The office-bearers elected for the year were as follows: President, R. Ludowici; Immediate Past President, A. N. Harding; Vice-Presidents, G. E. Browne and J. E. M. Dixon; Hon. Secretary, J. T. Humphreys; Hon. Treasurer, D'Arcy F. Roberts; Committee, M. J. Elliott, R. C. Gowing, P. A. Hanks, J. M. Linton, H. J. Lewarne, D. A. Magill, D. Ritchie and S. G. Stott.

* * * * *

Old Boys who recently joined the Club are: R. Cairns Anderson, D. A. T. Armstrong, K. J. Baker, P. W. A. Bowe, W. Boyd, J. Coghlan, J. C. M. Cook, W. B. Crawford, G. D. Davis, V. C. Davis, P. E. R. Dawson, E. G. Dunbar, M. J. Elliott, R. F. Elvy, P. Freeburn, W. G. Garnock, D. Greenberg, R. S. Hamilton, W. R. Harris, J. B. Henderson, R. L. Hordern, D. J. Howell, W. D. Jones, K. J. Judd, R. L. Jude, D. H. Kent, W. H. Kerr, C. H. Lemann, D. T. Lyall, F. M. and J. A. M. MacDiarmid, R. W. Martin, J. E. McCutcheon, R. J. Marks, J. L. Morgan, W. A. D. Morgan, K. A. Mills, R. J. C. Mills, N. L. Nock, K. G. Perry, W. Regan, C. A. Rigg, R. L. Selman, C. H. Shaw, J. W. Stanistreet, E. J. Trenerry, F. S. Venn, K. C. Warby, P. E. Warren, P. B. Wood, J. S. Woods, P. J. Worrall, H. A. and R. A. Young. For Associate Membership from The Armidale School: B. Gaynor. B. J. Faram, T. J. McCaskill and R. S. Packard were elected, but have since returned to school.

OLD BOYS' UNION NOTES.

The Old Boys' Union completes the fiftieth year of its existence greater in numbers than ever before, and more than ever convinced that it is fulfilling an important function in helping to bind together an ever increasing group of men who have a common interest at heart—that of their old School. Just how strong its link between Old Boys cannot be accurately be estimated, but one can gain some idea from a reading of letters reaching the Union from men on service, in which meetings and chats with other Old Boys, whether of their own period or not, are enthusiastically recōunted.

* * * * *

The wartime policy of restricting social functions to a minimum has been maintained, but the Committee felt that it would be generally regretted by members if some function were not held to mark the occasion of the Union's Jubilee. At the time of going to press, an informal buffet tea is planned for 5th May at the Old Boys' Club, to which all members have been cordially invited. The date chosen, while not the actual anniversary date, is the traditional date of the peacetime Old Boys' Dinner, and for this reason was considered the most suitable. An account will be published in the next issue.

* * * * *

On 22nd December, 1943, an informal gathering was held at the Club for the purpose of extending Christmas greetings to members of the Forces on leave, and of giving these an opportunity for re-union with old friends, both servicemen and civilians. The party, which was voted a great success, mainly because of its informality, was attended by some 48 members, including 23 servicemen.

* * * * *

The annual cricket match versus the School was held on 12th February, and resulted in a convincing win for the boys by 176 runs. Many unpleasant memories of leather chasing in the past were revived for the Old Boys, for whom, however, it was probably compensation enough to be playing on "A" Ground at North-bridge once again. The Union takes this opportunity of congratulating Mr. Eldershaw and the 1st XI. on a very successful term's cricket.

* * * * *

Three more Old Boys have been honoured by the King since the last issue of "The Torch-Bearer" was published. Major A. G. Hanson received the D.S.O. for services rendered in the South-West Pacific area. His citation reads: "Despite the large area to be covered and the supply of guns in this area, Major Hanson succeeded in providing maximum support for attacks on Gona, as well as along the Sanananda track. He was continually in the forward areas, and acted as artillery advised for every brigade attack." In a letter replying to the Union's message of congratulation, Major Hanson mentions that the following Old Boys were amongst the officers of his regiment: Major N. A. Vickery, M.C., Capt. F. M. E. Sutton, Lieuts. P. W. Swift and F. C. Davis.

* * * * *

F/Lt. R. A. Swift was awarded the D.F.C. early in the year. Although we are unable to give the citation here, we understand that the award was for escorting a convoy to Malta, and for his services in Burma. He is now in the South-West Pacific.

Major A. G. HANSON, D.S.O.

F/O. J. J. ALLEN, D.F.C.

F/Lt. R. A. SWIFT, D.F.C.

The third decoration is one of special interest. Capt. George Boyd Connor has been awarded the Russian Order of the Patriotic War, 1st Class. As far as is known, neither he nor other officers of the unit are aware of the citation which gained him the award. Capt. Connor is the first soldier amongst Old Boys to have been honoured in this way, but it will be remembered that P/O. E. M. Ifould received the U.S. decoration of the Silver Star.

* * * * *

Other news from the Services this time comes entirely from the Air Force, and deals largely with the part taken by Old Boys in the massive air attacks on German cities, which, we all hope, will put a speedy end to the war in Europe. P/O. A. R. Bowman, of Singleton, has been in raids on Berlin and Brunswick amongst other places, and F/Lt. E. A. G. Utz, D.F.C., of Armidale, and F/O. A. L. (Tony) Cohen have also been heard of over Berlin. In the same squadron as Arch. Bowman is P/O. Harold Coulson, who tells in a letter: "Have only done three of these latest Berlin trips, and they were very exciting. The first two nights we bombed through cloud, but on the third night it was clear as day and the fires were really terrific, and we could still see them for 200 miles on the return journey. I had a little bad luck coupled with good luck. Two incendiaries fell from above and lodged in the petrol tanks, but they both failed to ignite. The smell of petrol was terrific, making most of the crew ill, which is not as pleasant as one would like, especially with the hindrance of the oxygen masks." Another R.A.A.F. Old Boy who has been mentioned in accounts of Allied air attacks on Germany is S/Ldr. D. P. Smith, of Mosman.

* * * * *

In connection with the less serious side of Air Force life in England, news has come to hand that Neville Emery and Ian Osborne were prominent members of a Dominion Services football team, and Emery also was chosen for a cricket team led by the famous Maurice Tate.

* * * * *

From England also come letters from F/O. J. R. U. Jamieson and W. L. Hunt, who has seen over there R. D. Jones, Geoff. Marquis, S. M. Martin, G. S. Mitchell, John Court, Roger King, John Hoelscher, Ian McNulty and Peter Hore. Coming nearer home, there is news of the part played by P/O. Wynn Webster in raids on Rabaul, and also that F/Lt. Peter Watson, D.F.C., and P/O. John Godwin have attended an Instructors' Course at a N.S.W. station. Other letters have been received from F/O. H. M. Neil, who is stationed in the Indian Command, and S/Ldr. E. Maynard Pain, D.F.C., who is back in England again. He writes: "I wrote to Napier Thomson, and called on him on my way through Washington. We had not met for twelve years. My wife and I had a couple of nights out with him, and he showed us where you can still get a good steak in Washington. He is doing a grand job sharing his apartment with many members of the Australian Forces who pass through Washington, and showing them the sights, etc., at week-ends."

* * * * *

The Rev. G. F. Cranswick was consecrated Bishop of Tasmania in Westminster Abbey on January 25th by the Archbishop of Canterbury. A service to coincide with the consecration service was held in St. Andrew's Cathedral, and was conducted by the Bishop's brother, the Rt. Rev. G. H. Cranswick.

Mention was made in the last issue of "The Torch-Bearer" of the appointment of Lieut.-General Sir Iven G. Mackay as Australian High Commissioner to India. It has since been announced that his private secretary is to be L. D. Tilbury, an Old Boy of the School. Tilbury has just completed a course as a Diplomatic Staff Cadet in the Department of External Affairs, prior to which he was a sergeant in the A.I.F.

* * * * *

It is interesting to note that in a recent exhibition of Australian art held in San Francisco, the first such exhibition held in the Western U.S., the only piece of sculpture was Lyndon Dadswell's bronze "Aboriginal Head." Lyndon Dadswell, who was at the School from 1924 to 1926, is a prominent sculptor, and is particularly noted for his work in the Victorian Shrine of Remembrance.

* * * * *

A number of excellent results in several faculties were obtained in University examinations at the end of last year. Outstanding among them was that of J. B. Wallis, who graduated as a Bachelor of Science with 1st Class Honours in Physical Chemistry, and the University Medal. He also was awarded the Masson Scholarship by the Australian Institute of Science.

* * * * *

Work has been steadily progressing on the compilation of the School Register, which is now almost complete to the end of 1942. The value of such a record as this cannot be overestimated.

* * * * *

The Post-War Advisory Sub-Committee, now called "The Advisory and Employment Sub-Committee," has met on a number of occasions, and has also made progress in its most important task. It may well be that the work of this Sub-Committee will be classed as the most important ever undertaken by the Old Boys' Union.
